STUDIES IN DREAMS MARY. ARNOLD-FORSTER,2018

Studies in Dreams (Classic Reprint) Mary

Arnold-Forster,2015-07-08 Excerpt from Studies in Dreams I have been asked by the dreamer of these dreams to add a foreword of my own I do not know that I can add anything that will contribute to their interest whether in the way of discussion criticism or interpretation The author of the book modestly makes no claim to be a scientific explorer but only to be a recorder of her own dream experiences who has been impelled to stray a little beyond the province assigned and to attempt some partial explanation of the riddles that are met with But the reader I am sure will find that she has scarcely done herself justice in this diffident attitude for the accurate recording of observations accurately made is the basis of science and requires the development and possession of no common talent Such observations are of much more scientific value than a number of inadequate theories inadequate because based upon only a selected or limited group of facts Moreover these pages are rich in sound comments and discussions of the recorded phenomena which are suggestive of new problems and points of view and the author offers us particularly a well considered new theory of the mechanism of dreams A considerable number of the observations recorded must be regarded as additions to our knowledge and as new data for an adequate interpretation of the mechanism of dreams About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
