Ashgate Critical Essays on Early English Lexicographers Christine Franzen, 2017-03-02 Anglo Saxon lexicography studies Latin texts and words The earliest English lexicographers are largely unidentifiable students teachers scholars and missionaries Materials brought from abroad by early teachers were augmented by their teachings and passed on by their students Lexicographical material deriving from the early Canterbury school remains traceable in glossaries throughout this period but new material was constantly added Aldhelm and lfric Bata among others wrote popular much studied hermeneutic texts using rare exotic words often derived from glossaries which then contributed to other glossaries lfric of Eynsham is a rare identifiable early English lexicographer unusual in his lack of interest in hermeneutic vocabulary The focus is largely on context and the process of creation and intended use of glosses and glossaries Several articles examine intellectual centres where scholars and texts came together for example Theodore and Hadrian in Canterbury Aldhelm in Malmesbury Dunstan at Christ Church Canterbury thelwold in Winchester King thelstan s court Abingdon Glastonbury and Worcester *Herbs and Healers from the Ancient Mediterranean through the Medieval West* Dr Anne Van Arsdall, Professor Timothy Graham, 2012-08-01 *Herbs and Healers from the Ancient Mediterranean through the Medieval West* brings together eleven papers by leading scholars in ancient and medieval medicine and pharmacy Fittingly the volume honors Professor John M Riddle one of today s most respected medieval historians whose career has been devoted to decoding the complexities of early medicine and pharmacy Herbs in the title generally connotes drugs in ancient and medieval times the essays here discuss interesting aspects of the challenges scholars face as they translate and interpret texts in several older languages Some of the healers in the volume are named such as Philotas of Amphissa Gariopontus and Constantine the African many are anonymous and known only from their treatises on drugs and or medicine The volume s scope demonstrates the breadth of current research being undertaken in the field examining both practical medical arts and medical theory from the ancient world into early modern times It also includes a paper about a cutting edge Internet based system for ongoing academic collaboration The essays in this volume reveal insightful research approaches and highlight new discoveries that will be of interest to the international academic community of classicists medievalists and early modernists because of the scarcity of publications objectively evaluating long lived traditions that have their origin in the world of the ancient Mediterranean

Herbs and Healers from the Ancient Mediterranean through the Medieval West Anne Van Arsdall, Timothy Graham, 2016-04-22 *Herbs and Healers from the Ancient Mediterranean through the Medieval West* brings together eleven papers by leading scholars in ancient and medieval medicine and pharmacy Fittingly the volume honors Professor John M Riddle one of today s most respected medieval historians whose career has been devoted to decoding the complexities of early medicine and pharmacy Herbs in the title generally connotes drugs in ancient and medieval times the essays here discuss interesting aspects of the challenges scholars face as they translate and interpret texts in several older languages

Some of the healers in the volume are named such as Philotas of Amphisia Gariopontus and Constantine the African many are anonymous and known only from their treatises on drugs and or medicine The volume s scope demonstrates the breadth of current research being undertaken in the field examining both practical medical arts and medical theory from the ancient world into early modern times It also includes a paper about a cutting edge Internet based system for ongoing academic collaboration The essays in this volume reveal insightful research approaches and highlight new discoveries that will be of interest to the international academic community of classicists medievalists and early modernists because of the scarcity of publications objectively evaluating long lived traditions that have their origin in the world of the ancient Mediterranean

Rethinking and Recontextualizing Glosses Patrizia Lendinara, Loredana Lazzari, Claudia Di Sciacca, Fédération internationale des instituts d'études médiévales, 2011 Glossing was a scribal practice in use since antiquity but it was in the Middle Ages that it acquired a wider meaning and a different role becoming one of the most widespread forms of literacy in the Germanic West including the British Isles Most of the essays collected in this volume focus on the late Anglo Saxon period that is a well identified time frame spanning from the Benedictine Reform to the eleventh century As recent scholarship has convincingly established the second half of the tenth century and the beginning of the eleventh saw the blooming of Anglo Saxon scholarship and a remarkable advance in educational practices Within this cultural resurgence glossing undoubtedly played no small role and was particularly vital in centres such as Abingdon Canterbury and Winchester In the contributions to the present volume the relationship between glosses and the text they accompany is always explored on the basis of their manuscript context The essays are devoted to both Latin and Old English apparatuses of glosses as well as to specific items of the Old Norse and Old Saxon glossarial production 1996 Massimo Mastrogregori, 2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors Anglo-Saxon England: Volume 26 Michael Lapidge, Malcolm Godden, Simon Keynes, 1998-06-04 In the present volume the two essays that frame the book provide exciting insight into the mental world of the Anglo Saxons by showing on the one hand how they understood the processes of reading and assimilating knowledge and on the other how they conceived of time and the passage of the seasons In the field of art history two essays treat two of the best known Anglo Saxon manuscripts The lavish symbol pages in the Book of Durrow are shown to reflect a programmatic exposition of the meaning of Easter and a posthumous essay by a distinguished art historian shows how the Anglo Saxon illustrations added to the Galba Psalter are best to be understood in the context of the programme of learning instituted by King Alfred The usual comprehensive bibliography of the previous year s publications in all branches of Anglo Saxon studies rounds off the book
