Further Studies in Greek Poetry Heather White,1992 *New Studies in Greek Poetry* Heather White,1989 *Greek Lyric Poetry and Its Influence* Alejandro Cantarero de Salazar,Alicia Esteban Santos,Leonardo de Arrizabalaga y Prado,2020-10-06 This book deals with Greek lyric composed more than twenty five centuries ago These poems sing of everyday events and emotions in human life from the most festive to the most serious presenting a living portrait of the ancient Greeks This multidisciplinary volume begins with a panorama of Greek lyric poetic genres their main authors and

their representative topics The first part contains philological studies and literary analyses first of some Greek poets Anacreon Sappho and Lycophron among others then of their influence on Horace s Latin poetry and on contemporary poetry The second part illustrated with colour images studies Greek lyric from socio political and iconographic perspectives analysing its coincidences and reflections in images from Greek pottery sculptures and reliefs In addition this section includes two works on musical theory and composition related to ancient Greek lyric The volume closes with two studies of the image of Sappho in cinema

The Early Greek Poets and Their Times Anthony J. Podlecki, 2011-11-01 This book brings a new approach to the study of the early Greek lyric poets Instead of concentrating on the poetry as literature Podlecki has chosen to examine the life and works of the leading poets of the eighth to fifth century B C in the context of the military and historical events of the period Ranging over the extent of the Greek world at this time the book is a survey of the many poets who lived in widely scattered places from Asia Minor in the east to Sicily in the west who wrote in diffuse poetic idioms and for varied audiences Products of different historical and political backgrounds these poets cannot be appreciated fully or in some cases even understood without considering the milieu in which they lived On the other hand their poetry often casts new and interesting light on the historical currents of the archaic period of Greece Bridging the gap between history and literature this book will greatly add to the appreciation of the works of these poets and broaden our knowledge of the historical currents and development of thought during this complex period
