**Studies in Ibo Political Systems** Ikenna Nzimiro, 2023-12-22      **Comparative Political Systems** Charles F.

Andrain, 1994 This book focuses on the economic changes produced by different political systems and on the social impact of regime transformations It addresses several key policy issues How does the policy process operate in various types of political systems What impact do public policies and policy outcomes wield on transformations in a political system How does public policy preference in different political systems affect democracy capitalism and socialism      *Naija Marxisms* Adam Mayer, 2016-07-20 Since the 1940s Marxist thought has blossomed in Nigeria The history of Naija Marxism is also that of the country's labour movement its feminist movement its social thought and political economy It has been the mainstay of party politics in the case of illegal Marxist party formations and legal anti-feudalist forces and in the NGO sector Long gone are the days when Marxism meant imported pamphlets and a disconnected ideology Drawn from years of research in Nigeria and elsewhere Naija Marxisms breaks new ground in tracing the historical trajectories that leftist movements underwent since the 1940s whilst arguing that Marxism is alive and well in Nigeria The book brings together Nigeria's pre-eminent radical thinkers from Usman Tar and Edwin Madunagu who are currently espousing a Marxian political economy and providing a class-based approach in the country's mainstream media channels to the international reach of key Nigerian Marxists such as Mkwugo Okoye Ikenna Nzimiro and Eskor Toyo      *The Roots of Political Instability in Nigeria* E.C. Ejiogu, 2016-02-24 The constant drumbeat of headlines about Darfur Zimbabwe Sudan Somalia as well as the other states in Africa that are beleaguered by political instability have made the causes of failed states and intra-state political conflicts a major issue both academic and practical Using Harry Eckstein and Ted R Gurr's congruence-consonance theoretical framework of regime classification E.C. Ejiogu examines the internal variations of society evident in the Nigerian state to explain why the country experiences political conflict and instability The first time this theoretical framework has been applied to an African country E.C. Ejiogu offers a balanced and interdisciplinary analysis of the evolution in the Nigerian political system and the role played by evolved social traits in society Exploring themes such as colonial rule and legacies economic development political authority and religion Ejiogu insists that it is critical to examine Africa's diverse nationalities in terms of their geography social economic and authority patterns as critical elements that are disregarded in accounts of their political development At a time when the question of state building in Africa is still unresolved this timely book is a major contribution to the literature on transition processes in African politics and is particularly relevant to scholars and policy makers wanting to grapple with the issues associated with Africa's political disorder and the other social problems it spawns      **Handbook of Comparative and Development Public Administration** Ali Farazmand, 2019-02-21 With contributions from nearly 80 international experts this comprehensive resource covers diverse issues aspects and features of public administration and policy around the world It focuses on bureaucracy and bureaucratic politics in developing and industrialized countries and emphasizing

administrative performance and policy implementation as well as political system maintenance and regime enhancement The book covers the history of public administration and bureaucracy in Persia Greece Rome and Byzantium and among the Aztecs Incas and Mayas public administration in small island states Eastern Europe and ethics and other contemporary issues in public administration      *Foundations for African Theological Ethics* James Nkansah-Obrempong,2013-05-14

Having taught on ethics in Africa for almost a decade James Nkansah Obrempong presents a work that goes some way to addressing the dearth of materials on ethics that combine African social religious cultural and moral values with biblical and theological values Integrating these from African Western and biblical contexts Nkansah demonstrates how important they are for dealing with contemporary moral and social issues facing the church in Africa and African societies The book develops a theoretical biblical and theological foundation for Theological Ethics and uses this to address the broader issues that affect the socio political and economic life of African people and the church      **Ethnic Groups of Africa and the**

populous ethnic groups in Nigeria and are perhaps best known and celebrated in the work of Chinua Achebe In this landmark collection on Igbo society and arts Toyin Falola and Raphael Chijioke Njoku have compiled a detailed and innovative examination of the Igbo experience in Africa and in the diaspora Focusing on institutions and cultural practices the volume covers the enslavement middle passage and American experience of the Igbo as well as their return to Africa and aspects of Igbo language society and cultural arts By employing a variety of disciplinary perspectives this volume presents a comprehensive view of how the Igbo were integrated into the Atlantic world through the slave trade and slavery the transformations of Igbo identities and culture and the strategies for resistance employed by the Igbo in the New World Moving beyond descriptions of generic African experiences this collection includes 21 essays by prominent scholars throughout the world      Police-Citizen Relations in Nigeria Oluwagbenga Michael Akinlabi,2022-04-21 This book offers an historical and contemporary analysis of policing and police citizen relations in Nigeria to understand why people co operate or don t with the police It examines police legitimacy and the validity of procedural justice theory in a post colonial African

context where corruption brutality and lack of accountability are not uncommon to find more refined and alternative answers to the question of why people co operate or don t with the police The history of policing in Nigeria is explored first and then procedural justice theory is tested through an extensive cross sectional survey of the public One of the core findings is that citizens co operation with the police is driven less by legitimacy but more by effectiveness considerations and dull compulsion a concept akin to legal cynicism This study represents one of the first attempts to test and understand dull compulsion and its relevance in this context Overall it develops the field by illustrating that that there are significant variations between contexts when addressing the influence of perceived procedural justice policing on perceptions of police legitimacy and it explains the implications for policy makers *Religion, History, and Politics in Nigeria* Chima J. Korieh, Ugo G. Nwokeji, 2005-03-16 Religion History and Politics in Nigeria is concerned with the problematic nature of religion and politics in Nigerian history The book provides a lively and straightforward treatment of the relationship among religion politics and history in Nigeria and how it affects public life today By adopting various cultural historical political and sociological perspectives the text s contributors provide an excellent introduction to the volatile mix of religion and politics in Nigerian history as well as a range of strategic choices open to religious adherents The complexity of the relationship among religion history and politics is organized around four themes indigenous values and the influence of Islam and Christianity colonialism and religious transformation the religious landscape of the post colonial period and the rise of evangelism and fundamentalism The volume provides an insightful guide to contemporary history contemporary religion and contemporary politics enabling the reader to reach informed and balanced judgments about the role in religion in Nigerian history and politics This opens the door for serious examination and debate and will be excellent for use by the general reader and in political science history and religion courses Between Ethics and Politics: Lessons from Biafra Tobe Nnamani, 2016-06-08 Although many years have elapsed since the demise of Biafra it still remains an intractable unfinished business that seriously threatens the corporate existence of Nigeria Most of the literature on Biafra tended to dwell more on the historical and political analysis of the war and how the factors that engendered it could be tackled It appears however that no ethical analysis of the issues involved in the Biafran war has been carried out in any significant academic endeavour hence the reason and need for a critical analytical survey of the ethical and political implications of the role of the world community in the unprecedented events that took place in Biafra The purpose of this book is first to understand the twist and turns of the events and issues involved in the Biafran crisis and the role the international community played in the war Second is to articulate the complex nature of humanitarian intervention and to stress the relevance of ethics its interpenetration and tandem relationship with international relations on a broader level and in particular humanitarian intervention as a foreign policy action The main claim of our argument is that ethics is part and parcel of international relations Divorcing ethics from international relations leads to amorality that threatens the world order In other words it is argued that ethical

considerations should guide international affairs and the undertaking of humanitarian intervention Behind this basic thesis the book defends the idea of a global ethic Global ethic means an ethic which acknowledges respect for human life and the interconnectedness and interdependence of all human beings It is an ethic which transcends the circumscribed confines of national boundaries and economic and geopolitical interests and opens them up to the larger urgent need well being peaceful coexistence and sustainability of the larger world community Tobe Nnamani A Crisis of Truth Richard Firth

**Democratization and Military Coups** Chuka Onwumechili,1998-10-30 Onwumechili provides an exciting perspective on African military coups and reminds us that democracy is not synonymous solely with Western societies He examines democracies in traditional Africa and shows how these socieites clearly defined and limited the roles of traditional African armies From this background Onwumechili makes readers appreciate that modern African armies are deviant institutions with no roots in traditional Africa Rather he argues one has to seek those roots in Africa s recent colonial history Dr Onwumechili goes on to describe the reasons for coups and their tactics Finally he examines how military coups can be prevented While previous solutions have largely failed Onwumechili provides convincing solutions based on case studies

,1986 Afro-Igbo Mmad? and Thomas Aquinas'S Imago Dei Venatius Chukwudum Oforka,2016-06-25 In our modern and globalised world the concept of human dignity has gained a haloed status and plays a decisive role in assessing the moral integrity of every human being It provides a necessary foundation for the on going human rights struggles For the idea of human dignity ensures that our ever growing complicated world wears a human face and that human beings are respected as absolute values in themselves Afro Igbo Mmad and Thomas Aquinas Imago Dei An Inter cultural Dialogue on Human Dignity

attempts to expand the discourse on the concept of human dignity which appears to have been parochially founded on the principles of Western cultures and ideologies To deparochialise this discourse it proposes an inter cultural dialogue towards establishing common principles that define the foundation of human dignity even when the approaches of diverse cultures to this foundation differ The Afro Igbo Mmadu and Thomas Aquinas Imago Dei is therefore a model of such inter cultural dialogue It hosts a profound dialogue between the concept of Mmadu among the Igbo people of eastern Nigeria Africa and the concept of Imago Dei according to Thomas Aquinas of western European culture The study discusses the rich values in these cultural concepts and acknowledges them as veritable tools for establishing human dignity as a universal and inalienable character of human beings It nonetheless highlights the low points in these cultures that are discordant with this universal and inalienable character The dialogue establishes that these two cultures could complementarily enrich one another and in this way mutually augment their shortcomings towards a more globalised and reinforced foundation of human dignity and the defence of the dignity of every individual human being

Achievement as Value in the Igbo/African Identity Vernantius Emeka Ndukaihe, 2006 Achievement seems to be a first class value in our world today With the ongoing global debate on what constitutes identity can we include achievement as one of the constituents In the Igbo African identity the achievement instinct is basically innate The ethics of this phenomenon needs an evaluation aimed at improving the status quo What is the plight of the Igbo African achieving in the face of modern capitalistic tendencies What has become of the many other values in her identity which has been her pride as a race How is her religiosity which is inseparable from daily living affected by modernity and its new trends of the achievement ethos These are some of the issues that are addressed in this book with the conviction that theology achievement and identity are continuity
