*Asian Foreign Direct Investment in Europe* Prana Krishna Biswas, Robert Dygas, 2021-07-14 This book analyses the most recent trends in Foreign Direct Investment from the major Asian economies to the EU focusing on China and Japan s FDIs in the EU and Poland in particular The authors assert that from a European perspective there is a strong need for further Asian FDIs into EU nations which will establish mutual benefits This is the first book to explore the outflow of FDI from Asian nations to other countries especially to EU member states whereas the extant literature focuses on the inflow of FDI to Asian nations The authors analyse a multidimensional range of issues covering macroeconomics finance technology and examine the governments local authorities and institutions that support such investments FDI has an instrumental role in the development of host countries Large scale capital flow becomes a vehicle for providing foreign technology knowledge skills and other inputs for the integration with international marketing production and distribution networks and for improving the economic competitiveness of firms and economic performance of the host country The analysis in the book is presented using statistical and econometrical approaches emphasising a profound level of investigation which will be particularly useful for graduate and PhD students of International

Economics Business and Trade      Foreign Investment in the Energy Sector Eric De Brabandere, Tarcisio Gazzini, 2014-06-05 Foreign investments in the energy sector raise formidable legal questions often requiring a delicate balance between private and public interests of the various stakeholders Foreign Investment in the Energy Sector Balancing Private and Public Interests opens with a discussion of the legal protection of foreign investment in the main segments of the energy sector namely oil gas mining and hydroelectric industry both in substantive and procedural terms This second part of the book focuses on the Energy Charter Treaty by far the most important international legal instrument in the energy sector and its future after the decision of the Russian Federation not to ratify it In its third part the book examines four critical areas that are often negatively concerned by economic activities by multinational in the energy sector namely compliance with safety and labour standards protection of the environment respect of indigenous peoples rights and protection of public health Foreign Investment in the Energy Sector Balancing Private and Public Interests a comprehensive collection of essays from experts and practitioners offers an important new resource to the field      *Investment Protection Standards and the Rule of Law* August Reinisch, Stephan W. Schill, 2023 This edited volume explores the connection between the rule of law and substantive standards of treatment in international investment agreements It also analyses to what extent these standards of treatment can be understood as positive expressions of the rule of law      The Legitimacy of Investment Arbitration Daniel Behn, Ole Kristian Fauchald, Malcolm Langford, 2022-01-13 A rigorous and empirically based analysis of the legitimacy challenges facing investment arbitration and the potential for reforms to remedy critique      **Technological Innovation and Third World Multinationals** Paz Estrella Tolentino, 2003-09-02 This examines the relationship between technological growth and outward direct investment from firms in Asia and Latin America which has become increasingly significant as these countries develop      **Research Handbook on Economic Sanctions** van Bergeijk, Peter A.G., 2021-12-10 Peter van Bergeijk brings together 40 leading experts from all continents to analyze state of the art data covering the sharp increase in smart sanctions in the last decade Original chapters provide detailed analyses on the determinants of sanction success and failure complemented with research on the impact of sanctions      **International Investment Law** Hélène Ruiz Fabri, Edoardo Stoppioni, 2022-05-19 Written by leading experts in the field this collection offers a critical and comparative analysis of the existing case law on international investment law The book makes a topical contribution to the existing literature showing most notably that 1 international investment law has a longer history than that generally considered and that this history is fundamental to understanding its development 2 international investment law is crafted today by a large number of actors These include not only investment arbitrators but also a variety of international and national courts and tribunals and 3 the literature and case law in languages other than English and from different legal cultures is essential to grasp the essence of the development of the topic This book brings together more than 40 experts from different countries and legal traditions and combines conceptual analysis and archival investigation of landmark case law to provide the reader

with a fresh and innovative understanding of the breadth of international investment law *Internationalization of Industry* Silvio Borner, 2012-12-06 About 10 years ago the first very small steps towards this book were taken The starting point was marked by the deep and sudden slump of the Swiss economy in the mid seventies a crisis wiping out about 10 percentage points of GNP and employment within just two years To this writer it was clear from the beginning that neither the exogenous shocks nor the structural changes were in fact exogenous or structural They were given and shaped by global forces They were part and parcel of capitalist development There is no other highly developed country in the world which is so extremely and integrally exposed to world wide currents of financial and economic changes as Switzerland The degree and dimensions of openness of the Swiss economy led to the formulation of our research approach for studying the internationalization of the economy a topic theoretically and politically developed in this book Empirical evidence relates to our study of Swiss experience A well known Swiss American economist offered the following comment on our previous work on the internationalization of industry You are very good in raising interesting questions What was undoubtedly meant as a criticism was received as a compliment Too much talent and too many research efforts are in my opinion wasted by research programs which place technique over substance This unfortunate development in our profession has already greatly reduced the social utility of economists **The BRICS Studies** Xu Xiujun, 2020-05-14 Given their immense potential for development and representation of a new international political and economic order the BRICS countries have become a strong nascent force on the global stage However as overall economic growth continues to slow down and the geopolitical situation becomes more complex the BRICS countries are facing a series of new challenges that require further development in the way they cooperate with one another This volume offers a panoramic view of cooperation between the BRICS countries in the light of these new challenges The editors reveal that policy coordination has been strengthened bringing into play complementary advantages as viable ways for promoting robust sustainable and balanced growth in the world economy They argue that the experience gained and lessons learned in the development of and cooperation between the BRICS countries has offered a positive role model for cooperation between other countries as well as providing valuable lessons for research in international politics Students and scholars in international relations and politics will benefit from this volume *National Science Foundation Legislation, 1975* United States. Congress. Senate. Committee on Labor and Public Welfare. Special Subcommittee on the National Science Foundation, 1975 Foreign Direct Investment in China Michael H. K. Ng, 2013-05-29 Foreign direct investment has contributed significantly in transforming the Chinese economy over the past three decades China has become one of the most popular destinations for foreign direct investment For corporations and business executives who desire to participate in the expanding China market understanding correctly the driving forces and impacts of foreign direct investment in China as well as the ways to smartly execute investment transactions there has become the fundamental knowledge that they need to grasp This book is a combination of the author's research and 15 year

practical experience in managing investment transactions in China This book uniquely offers both a theoretical overview of the phenomenon of FDI in China chapters two to four as well as the practical steps in executing investment transactions there chapters five to seven The author also provides illustrative charts and tables literature summaries transaction templates based on case studies from his real life experience on the ground This is so far the only book on FDI in China which covers both the theoretical perspectives as well as practical advices in investments This book serves not only as a useful resource for students teachers and policy makers who are interested in both theoretical and practical aspects of FDI in China but also a valuable guidebook for business development executives investment professionals and transaction lawyers who are involved in direct investment deals in China on a daily basis      **Russian Multinationals** Andrei

Panibratov,2013-06-19 Russian multinationals are playing an increasingly important role in the world economy particularly in some key sectors such as oil gas and metallurgy At the same time Russian multinationals differ in many respects from multinationals from other countries in that they often receive special treatment from the Russian government and because of past experiences international investors are often reluctant to invest in them This book presents a comprehensive overview of Russian multinationals It discusses the rise of Russian multinationals examines Russian multinationals activities in key sectors analyses the relationship between Russian multinationals and the Russian government and between Russian multinationals and international investors and concludes by assessing how Russian multinationals are likely to develop in future      *Research Handbook on Environment and Investment Law* Kate Miles,2019 The Research Handbook on

Environment and Investment Law examines one of the most dynamic areas of international law the interaction between international investment law and environmental law and policy The Research Handbook takes a thematic approach analysing key issues in the environment investment nexus such as freshwater resources climate biodiversity biotechnology and sustainable development It also includes sections which explore regional experiences and address practice and procedure and offers innovative approaches and critical perspectives including the interface between foreign investment and the environment with human rights gender indigenous peoples and economics      Capital Without Borders Ashwini

Deshpande,2011-10 This volume examines a plethora of issues related to international capital flows including the inevitable crisis that arises from the absorption of large volumes of capital inflow the vast difference between foreign portfolio investment and foreign direct investment FDI from the point of view of the recipient country the impact of different regulatory mechanisms and various policy options for developing countries in the face of fluid international capital movements      **Research Handbook on Global Merger Control** Ioannis Kokkoris,Nicholas Levy,2023-05-09 Over the past

30 years merger control has become well established around the world with broad consensus around its ambit and objectives That consensus has fractured in recent years Enforcement today is at a critical juncture facing an array of challenges and calls for reform unprecedented in their scope and intensity Authored by leading legal practitioners economists enforcers and

jurists this timely Research Handbook on Global Merger Control discusses those challenges and predicts how merger control is likely to evolve

**The Global Factory** Peter J. Buckley, 2018-02-23 This key new book synthesises Peter Buckley's work on the global factory the modern networked multinational enterprise The role of interfirm networks entrepreneurship and cooperation in the creation and management of global factories leads to a discussion of their governance internal knowledge transfer strategies and performance including their role in potentially combating societal failures Emerging country multinationals are examined as a special case of global factories with a focus on Indian and Chinese multinationals their involvement in tax havens and offshore financial centres the performance and processes of their acquisition strategies all seen as key aspects of globalisation

*The Interpretation of Investment Treaties* Trinh Hai Yen, 2014-06-05 Within the context of an exponential proliferation of investment treaties with virtually uniform language and structure The Interpretation of Investment Treaties by Trinh Hai Yen reveals the neglect or misapplication of international rules on treaty interpretation by tribunals in arbitral cases Such practice has raised the question of the legitimacy of the interpretative process and the engendered inconsistent interpretations of investment treaties The book proposes three interpretative approaches aimed at ensuring that adjudicators find legitimate meaning in the challenging generality and vagueness of investment treaty language It also provides a comprehensive analysis of legislative solutions for states through a case study of the ASEAN Comprehensive Investment Agreement as well as a comparative analysis of modern and traditional investment treaties
