Chapters include Practical Occultism Occultism versus the Occult Arts The Blessings of Publicity Hypnotism Black Magic in Science The Signs of the Times Psychic and Noetic Action Cosmic Mind The Dual Aspect of Wisdom The Esoteric Character of the Gospels Astral Bodies or Doppelgangers and Constitution of the Inner Man *Studies in Occultism* Helena Petrovna Blavatsky, 1910 *Studies in Occultism A Series of Reprints from the Writings of H. P. Blavatsky* H. P. Blavatsky, 2022-10-13 *Studies in Occultism* A Series of Reprints from the Writings of H P Blavatsky invites readers into the mystical world of Theosophy through a captivating exploration of spiritual wisdom and ethical responsibility In Practical Occultism originally published by the Aryan Theosophical Press in 1910 Blavatsky distinguishes the profound realms of occultism from mere magical arts This narrative emphasizes the path of self-discovery and mastery over one's inner self drawing a clear line between black magic and true spiritual wisdom Readers are encouraged to pursue purity of heart and unselfish devotion to truth highlighting the ethical responsibilities and transformative journey towards enlightenment The text addresses the importance of harmony among seekers as they navigate the demanding conditions of the pursuit of divine wisdom steering clear of materialistic allure As relevant today as when first published Practical Occultism invites modern readers to reflect on their spiritual aspirations challenging them to consider the moral implications of their quest for knowledge This anthology is an essential read for those interested in the deeper aspects of human consciousness spiritual growth and the rich teachings of Theosophy By bringing together such thought-provoking themes this collection offers a timeless exploration of the mystical and ethical dimensions of occultism Dive into the profound insights of H P Blavatsky and discover a world where spiritual wisdom transcends the superficial pursuit of power **Studies in Occultism: A Series of Reprints from the Writings of Helena Petrovna Blavatsky** Helena Petrovna Blavatsky, 2005-01-01 As some of the letters in the Correspondence of this month show there are many people who are looking for practical instruction in Occultism It becomes necessary therefore to state once for all a The essential difference between theoretical and practical Occultism or what is generally known as Theosophy on the one hand and Occult science on the other and b The nature of the difficulties involved in the study of the latter It is easy to become a Theosophist Any person of average intellectual capacities and a leaning toward the metaphysical of pure unselfish life who finds more joy in helping his neighbor than in receiving help himself one who is ever ready to sacrifice his own pleasures for the sake of other people and who loves Truth Goodness and Wisdom for their own sake not for the benefit they may confer is a Theosophist But it is quite another matter to put oneself upon the path which leads to the knowledge of what is good to do as to the right discrimination of good from evil a path which also leads a man to that power through which he can do the good he desires often without even apparently lifting a finger Moreover there is one important fact with which the student

should be made acquainted Namely the enormous almost limitless responsibility assumed by the teacher for the sake of the pupil From the Gurus of the East who teach openly or secretly down to the few Kabalists in Western lands who undertake to teach the rudiments of the Sacred Science to their disciples those western Hierophants being often themselves ignorant of the danger they incur one and all of these Teachers are subject to the same inviolable law From the moment they begin really to teach from the instant they confer any power whether psychic mental or physical on their pupils they take upon themselves all the sins of that pupil in connexion with the Occult Sciences whether of omission or commission until the moment when initiation makes the pupil a Master and responsible in his turn There is a weird and mystic religious law greatly revered and acted upon in the Greek half forgotten in the Roman Catholic and absolutely extinct in the Protestant Church It dates from the earliest days of Christianity and has its basis in the law just stated of which it was a symbol and an expression This is the dogma of the absolute sacredness of the relation between the god parents who stand sponsors for a child These tacitly take upon themselves all the sins of the newly baptized child anointed as at the initiation a mystery truly until the day when the child becomes a responsible unit knowing good and evil Thus it is clear why the Teachers are so reticent and why Chelas are required to serve a seven years probation to prove their fitness and develop the qualities necessary to the security of both Master and pupil Occultism is not magic It is comparatively easy to learn the trick of spells and the methods of using the subtler but still material forces of physical nature the powers of the animal soul in man are soon awakened the forces which his love his hate his passion can call into operation are readily developed But this is Black Magic Sorcery For it is the motive and the motive alone which makes any exercise of power become black malignant or white beneficent Magic It is impossible to employ spiritual forces if there is the slightest tinge of selfishness remaining in the operator For unless the intention is entirely unalloyed the spiritual will transform itself into the psychic act on the astral plane and dire results may be produced by it The powers and forces of animal nature can equally be used by the selfish and revengeful as by the unselfish and the all forgiving the powers and forces of spirit lend themselves only to the perfectly pure in heart and this is Divine Magic Studies in Occultism: Psychic and noetic action Helena Petrovna Blavatsky, 1910

Studies in Occultism Helena Petrovna Blavatsky,2013-12 A Series of Reprints from the Writings of H P Blavatsky this approachable introduction to Occultic knowledge is a concise and understandable starting point to your journey into the Mystic The occult from the Latin word occultus clandestine hidden secret is knowledge of the hidden In common English usage occult refers to knowledge of the paranormal as opposed to knowledge of the measurable usually referred to as science The term is sometimes taken to mean knowledge that is meant only for certain people or that must be kept hidden but for most practising occultists it is simply the study of a deeper spiritual reality that extends beyond pure reason and the physical sciences The terms esoteric and arcane have very similar meanings and in most contexts the three terms are interchangeable **Studies in Occultism** Blavatsky,2017-12-12 A Collection of Articles from Lucifer H P Blavatsky s

the powers of the animal soul in man are soon awakened the forces which his love his hate his passion can call into operation are readily developed But this is Black Magic Sorcery For it is the motive and the motive alone which makes any exercise of power become black malignant or white beneficent Magic It is impossible to employ spiritual forces if there is the slightest tinge of selfishness remaining in the operator For unless the intention is entirely unalloyed the spiritual will transform itself into the psychic act on the astral plane and dire results may be produced by it The powers and forces of animal nature can equally be used by the selfish and revengeful as by the unselfish and the all forgiving the powers and forces of spirit lend themselves only to the perfectly pure in heart and this is Divine Magic Studies in Occultism Helena Petrovna
