**Siren Feasts** Andrew Dalby,2013-04-15 Cheese wine honey and olive oil four of Greece s best known contributions to culinary culture were already well known four thousand years ago Remains of honeycombs and of cheeses have been found under the volcanic ash of the Santorini eruption of 1627 BC Over the millennia Greek food diversified and absorbed neighbouring traditions yet retained its own distinctive character In *Siren Feasts* Andrew Dalby provides the first serious social history of Greek food He begins with the tunny fishers of the neolithic age and traces the story through the repertoire of classical Greece the reputations of Lydia for luxury and of Sicily and South Italy for sybaritism to the Imperial synthesis of varying traditions with a look forward to the Byzantine cuisine and the development of the modern Greek menu The apples of the Hesperides turn out to be lemons and great favour attaches to Byzantine biscuits Fully documented and comprehensively illustrated scholarly yet immensely readable *Siren Feasts* demonstrates the social construction placed upon different types of food at different periods was fish a luxury item in classical Athens though disdained by Homeric heroes It places diet in an

economic and agricultural context and it provides a history of mentalities in relation to a subject which no human being can ignore

**Connecting People and Ideas** Laura Coltofean, Bettina Arnold, László Bartosiewicz, 2025-03-21 This book presents new research into social networks and the various networking modes that formed during the history of archaeology in distinct geographical settings in Europe North America and South Asia in the nineteenth and twentieth centuries The diverse range of international experts in this edited collection demonstrate that networks can be found everywhere in archaeology making it a highly interconnected research field Using a wide array of examples from diverse geopolitical cultural and social contexts the volume reveals how essential social networks and networking have been to the development of archaeology to the production transfer exchange and dissemination of archaeological and cross disciplinary knowledge and to the formation upward mobility barrier transcendence research and association of archaeological practitioners The book is of interest to students and scholars of history of archaeology history of science museum studies and interdisciplinary studies

The Archaeology of Roman Macedonia Vassilis Evangelidis, 2022-06-20 Macedonia is a region that provides its own intriguing questions due to its position on the fringe of the classical Greek world It is also an area which is of special interest to students of history and archaeology of Roman period Greece since it was the first to be incorporated in the Roman state Macedonia shared a similar path of development with Achaëa during the imperial period As provinces far from productive zones and frontiers both played a minor role in the imperial administrative structure Beneath this similarity however lie many differences in Macedonia s proximity to the Balkans its early contact with Rome its relatively low level of urbanization its multicultural context and its sizeable economy which played their own role in the formation of the urban and rural environments With a focus on elements of the built environment and human habitat this book examines old and new archaeological evidence to present a concise overview of the archaeology of the area and develop a better perception of the region in terms of archaeology of the built environment architecture and architectural influences urbanization and use of land and resources from the 2nd century BCE to the early 4th century CE Driven by a set of key questions that are addressed through the archaeological evidence the book explores key issues in understanding the archaeology of the area like the role of architectural tradition and innovation the interdependency between practical bases of architecture and socio cultural aspects the exploitation of local resources and the role of external influences Special importance is given to the interaction of Greek Roman and local cultures and the ways that the formation of the built environment eventually led to the assimilation of ideas from East and West in terms of workmanship use of materials design and function
