to obtain a clear view of modesty The immense importance of feminine modesty in creating masculine passion must be fairly obvious I may however quote the observations of two writers who have shown evidence of insight and knowledge regarding this matter Casanova describes how when at Berne he went to the baths and was according to custom attended by a young girl whom he selected from a group of bath attendants She undressed him proceeded to undress herself and then entered the bath with him and rubbed him thoroughly all over the operation being performed in the most serious manner and without a word being spoken When all was over however he perceived that the girl had expected him to make advances and he proceeds to describe and discuss his own feelings of indifference under such circumstances Though without gazing on the girl s figure I had seen enough to recognize that she had all that a man can desire to find in a woman a beautiful face lively and well formed eyes a beautiful mouth with good teeth a healthy complexion well developed breasts and everything in harmony It is true that I had felt that her hands could have been smoother but I could only attribute this to hard work moreover my Swiss girl was only eighteen and yet I remained entirely cold What was the cause of this That was the question that I asked myself     Studies in the Psychology of Sex: Sex in relation to society Havelock Ellis,1910
