*Error in Shakespeare* Alice Leonard, 2020-01-27 The traditional view of Shakespeare s mastery of the English language is alive and well today This is an effect of the eighteenth century canonisation of his works and subsequently Shakespeare has come to be perceived as the owner of the vernacular These entrenched attitudes prevent us from seeing the actual substance of the text and the various types of error that it contains and even constitute it This book argues that we need to attend to error to interpret Shakespeare s disputed material text political dramatic interventions and famous literariness The consequences of ignoring error are especially significant in the study of Shakespeare as he mobilises the rebellious marginal and digressive potential of error in the creation of literary drama      **Studies in the Economic History of Southern**

Christian Churches and Nigeria's Political Economy of Oil and Conflict Nkem Emerald Osuigwe, 2014-09-18 The received account on African evangelical Christianity regarding social witness in a section of Western scholarship is that it is anti development and a political Such an account heavily draws from an instrumentalist and functionalist assessment of such Christianity without recourse to its emic perspective Using the case study method this book presents an ethnographic examination of this functionalist reading by investigating describing and analysing evangelical Christian theological and socio political consciousness within the context of oil and conflict in Nigeria s Niger Delta region Adopting approaches from practical theology congregational studies and anthropology of religion the author challenges such a reading using data gathered from three congregations in the region His discourse revolves around answers to the following four critical questions What are the underlying theological issues and beliefs of Nigerian evangelical Christians within the context of oil and conflict What is their prevalent praxis within the context of Nigeria s political economy of oil and conflict How accurate is the received account that African evangelical and fundamentalist Christianity lacks social responsibility and is a political and anti development What would a contextual political theology for Nigeria s political economy of oil look like The theological issues are varied and the prevalent praxis nuanced which then serves as a veritable critique of the claim that African evangelical Christianity lacks social responsibility due to its preoccupation with soul winning Whereas such Christianity places much emphasis on the winning of souls as an expression of its spirituality it is neither oblivious nor indifferent to its socio political milieu Rather it sees such spirituality as a form of political praxis Some of the trajectories of the spirituality include a theology of conversion a theology of prayer and an ethics of crude oil with Total Freedom as the nomenclature for the specific theological perspective offered for Nigeria s political economy of oil While locating this theological perspective within the taxonomy of Liberation Theology the affinity and dissonance between the two are identified

Balchin, 2022-07-30 Originally published in 1979 and 1990 the 2 volumes in this set Analyse the economic and social rationale of housing improvement in London Review the progress of improvement legislation as applied to London Identifies the connection between grant distribution and socio economic change within Housing Action Areas in the 1960s and 70s Provide introductory background to regional imbalance and policy in Britain Examine the economic and social data suggestive of a North South divide Question well known assumptions about regional imbalance Applied Mechanics Reviews ,1991 **Australian National Bibliography** ,1978 *Building Models for Marketing Decisions* Peter S.H. Leeflang, Dick R. Wittink, Michel Wedel, Philippe A. Naert, 2013-06-29 This book is about marketing models and the process of model building Our primary focus is on models that can be used by managers to support marketing decisions It has long been known that simple models usually outperform judgments in predicting outcomes in a wide variety of contexts For example models of judgments tend to provide better forecasts of the outcomes than the judgments themselves because the model eliminates the noise in judgments And since judgments never fully reflect the complexities of the many forces that influence outcomes it is easy to see why models of actual outcomes should be very attractive to marketing decision makers Thus appropriately constructed models can provide insights about structural relations between marketing variables Since models explicate the relations both the process of model building and the model that ultimately results can improve the quality of marketing decisions Managers often use rules of thumb for decisions For example a brand manager will have defined a specific set of alternative brands as the competitive set within a product category Usually this set is based on perceived similarities in brand characteristics advertising messages etc If a new marketing initiative occurs for one of the other brands the brand manager will have a strong inclination to react The reaction is partly based on the manager's desire to maintain some competitive parity in the marketing variables *Renaissance Rhetoric* Peter Mack, 1993-12-15 This book provides examples of the best modern scholarship on rhetoric in the renaissance Lawrence Green Lisa Jardine Kees Meerhoff Dilwyn Knox Brian Vickers George Hunter Peter Mack David Norbrook and Pat Rubin look at the reception of Aristotle's Rhetoric in the renaissance the place of rhetoric in Erasmus's career Melancthon's teaching and sixteenth century protestant schools the rhetoric textbook the use of rhetoric in Raphael renaissance drama Elizabethan romance and seventeenth century political writing It will become essential reading for advanced studies in English rhetoric art history history of education history of ideas political theory and reformation history The New Russia Ian Jeffries, 2013-12-19 The rapid changes in Russia since the collapse of the Soviet Union are often bewildering with many frequent highly significant changes in the different sectors of the economy and the political system There have been frequent changes of personnel in government and economic management and many changes have been reversed and sometimes forgotten or at other times reinstated What happened when Who was responsible for what Did such a change in one sector precede or follow a particular change elsewhere These are points not easily remembered This book provides full details of the many changes and

enables sense to be made of what would otherwise be a confusing situation Developments are arranged chronologically by sector and the book is unusual in extensively chronicling both economic and political developments and the crucial connections between them There is a generous introduction and overview to help the reader find his or her way around The material covers the period up to late autumn 2000 and thus offers a valuable guide to policies in the Putin era     *Subject Guide to Books in Print* ,1997     **International Trade Policies** Mr.Richard T. Harmsen,Ms.Naheed Kirmani,Mr.Michael P. Leidy,Mr.Arvind Subramanian,Mr.Peter Uimonen,1995-02-08 This paper analyzes the achievements of the Uruguay Round and issues with the post Uruguay Round agenda The paper highlights that the conclusion of the Uruguay Round is a major achievement in international trade relations and a crucial element in promoting world trade and growth in the medium term It arrested the deterioration in the trading environment and created a strengthened framework for future trade relations thereby boosting business and investment confidence It also provides positive outcomes in several areas including market liberalization and strengthening of rules and institutional structures
