Emergent State of Israel Nick Reynold, 2021-12-01 The 1945 1952 British Government's Opposition to Zionism and the Emergent State of Israel tells the story of a longstanding campaign conducted by senior members of a British government against Zionism a fledgling nationalist movement immediately after World War II The book argues that although the British Labour Party had once been firm supporters of Zionism and the creation of a Jewish homeland once in office and particularly under the influence of the anti Zionist Foreign Office their position changed The two senior Cabinet ministers Prime Minister Clement Atlee and Foreign Secretary Ernest Bevin had very little knowledge about or interest in Zionism at the time that they took office And so various internal and external bodies were able to persuade them to adopt their own firmly held position when they had no position of their own Despite the horrors of the Holocaust and displacement of large numbers of Jews ultimately the British Government were not willing to risk alienating Middle East Arabs in support of a Jewish homeland The book examines the motivations and roles of the two men and their fascinating relationship with the Zionist movement of the mid twentieth century culminating in the triumphant establishment of the state of Israel against all odds

Intergovernmental Relations in the UK Marius Guderjan, 2023-06-01 Intergovernmental Relations in the UK provides a timely and up to date analysis of a turbulent decade in British politics and presents a fascinating case study of intergovernmental relations and territorial power in a devolved unitary state As over time a widening range of powers has been transferred from the Westminster Parliament to the devolved legislatures in Scotland Wales and Northern Ireland intergovernmental relations have become increasingly important to deal with the corresponding overlaps of legislative and fiscal authority However leaving the European Union has exposed the weakness of the intergovernmental architecture and challenged the functionality of the UK's multilevel polity Until now the question of how powerful the devolved administrations really are has not been satisfactorily answered The author uses insights from comparative studies of federations to develop a systematic account of shared rule and intergovernmental relations This book examines how informal institutions and practices can provide political influence beyond formal structures with reference to an extensive range of institutions practices policies and political decisions Unlike other studies focused predominantly on the state of the Union this volume points to the interplay between conflict and cooperation and demonstrates that the proclaimed break up of the Union is accompanied by efforts to integrate the different jurisdictions This book will be of interest to scholars and postgraduate students of comparative politics political systems multilevel governance regional and federal studies British politics and public administration It will also appeal to politicians government advisers civil servants and other practitioners who seek a better more nuanced understanding of the UK's multilevel constitution and politics and the nature of intergovernmental relations in the UK

Why Isn't Government Policy More Preventive? Paul Cairney, Emily St Denny, 2020-01-09 If prevention is better than cure why isn't policy more preventive Policymakers only have the ability to pay attention to and influence a tiny proportion of their responsibilities and they engage in a policymaking environment of which

they have limited understanding and even less control This simple insight helps explain the gap between stated policymaker expectations and actual policy outcomes Why Isn't Government Policy more Preventive uses these insights to produce new empirical studies of wicked problems with practical lessons The authors find that the UK and Scottish governments both use a simple idiom prevention is better than cure to sell a package of profound changes to policy and policymaking Taken at face value this focus on prevention policy seems like an idea whose time has come Yet prevention is too ambiguous until governments give it meaning No government has found a way to turn this vague aim into a set of detailed consistent and defensible policies This book examines what happens when governments make commitments without knowing how to deliver them It compares their policymaking contexts roles and responsibilities policy styles language commitments and outcomes in several cross cutting policy areas including health families justice and employability to make sense of their experiences The book uses multiple insights from policy theory to help research and analyse the results The results help policymakers reflect on how to avoid a cycle of optimism and despair when trying to solve problems that their predecessors did not
