**Studies in Eighteenth-century Culture**, 1990      **Castration, Impotence, and Emasculation in the Long Eighteenth Century** Anne Leah Greenfield, 2019-11-20 This essay collection examines one of the most fearsome fascinating and hotly discussed topics of the long eighteenth century masculinity compromised During this timespan there was hardly a literary or artistic genre that did not feature unmanning regularly and prominently from harrowing tales of castrations in medical treatises to emasculated husbands in stage comedies to sympathetic and powerful eunuchs in prose fiction to glorious operatic performances by castrati in Italy to humorous depictions in caricature and satirical paintings to fearsome descriptions of Eastern eunuchs in travel narratives to foolish and impotent old men who became a mainstay in drama Not only does this unprecedented study of unmanning in all of its varied forms illustrate the sheer prevalence of a trope that featured prominently across literary and artistic genres but it also demonstrates the ways diminished masculinity reflected some of the most strongly held anxieties interests and values of eighteenth century Britons      **Studies in Eighteenth-century Culture** Leslie Ellen Brown, Patricia B. Craddock, 1990      [Daniel Defoe and the Representation of Personal Identity](#) Christopher Borsing, 2016-08-25 The concept of a personal identity was a contentious issue in the early eighteenth century John Locke s philosophical discussion of personal identity in *An Essay Concerning Human Understanding* fostered a public debate upon the status of an immortal Christian soul This book argues that Defoe like many of this age had religious difficulties with Locke s empiricist analysis of human identity In particular it examines how Defoe explores competitive individualism as a social threat while also demonstrating the literary and psychological fiction of any concept of a separated lone identity This foreshadows Michel Foucault s assertion that the idea of man is a recent invention a figure not yet two centuries old a new wrinkle in our knowledge The monograph s engagement with Defoe s destabilization of any definition or image of personal identity across a wide range of genres including satire political propaganda history conduct literature travel narrative spiritual autobiography piracy and history economic and scientific literature rogue biography scandalous and secret history dystopian documentary science fiction and apparition narrative is an important and original contribution to the literary and cultural understanding of the early eighteenth century as it interrogates and challenges modern presumptions of individual identity      **The Enterprise of Enlightenment** Terry Pratt, David McCallam, 2004 Published on the occasion of his retirement in honour of his outstanding contribution to French Enlightenment studies this volume explores those areas of research in which David Williams has excelled and continues to excel literary criticism particularly Voltaire the history of ideas women and Enlightenment colonial practices and revolutionary politics It brings together a collection of essays from some of the most prestigious international names in the field and tackles subjects which expose in all their splendid diversity the enterprise both innovation and undertaking of the Si cle des Lumi res      **Gender and the Formation of Taste in Eighteenth-Century Britain** Robert W. Jones, 1998-07-02 Beauty is one of the most

important and intriguing ideas in eighteenth century culture In *Gender and the Formation of Taste in Eighteenth Century Britain* Robert Jones provides a fresh understanding of how emergent critical discourses negotiated with earlier accounts of taste and beauty in order to redefine culture in line with the polite virtues of the urban middle classes Crucially the ability to form opinions on questions of beauty and the capacity to enter into debates on its nature was thought to characterise those able to participate in cultural discourse Furthermore the term beauty was frequently invoked in various and contradictory ways to determine acceptable behaviour for women In his book Jones discusses a wide range of material including philosophical texts by William Hogarth and Edmund Burke and Joshua Reynolds novels by Charlotte Lennox and Sarah Scott and the many representations of the celebrated beauty Elizabeth Gunning **Servants and the Gothic, 1764-1831**

Kathleen Hudson, 2018-12-14 This book explores a complex historical background to fully contextualise the development of the early Gothic mode and the servant character's role as a speaking and performing figure in literature This book includes a comprehensive engagement with a wide range of source texts unpacking the theoretical elements of the Gothic mode through close readings of individual works This book brings together readings of novels plays and adaptations both contemporary and modern to construct a full picture of the literary and cultural forces that shaped the literary servant's role and the Gothic mode's identity This book addresses a critically important yet much underrepresented area of Gothic studies by examining servant characters and their use of narrative [Approaches to Teaching the Works of Eliza Haywood](#) Tiffany

Potter, 2020-02-01 Offers pedagogical techniques for teaching novels plays and nonfiction by Eliza Haywood including considerations of literary genres gender roles family dynamics social class and popular culture Gives syllabus suggestions for undergraduate and graduate courses in eighteenth century English literature the history of the novel women's writing and general education **Language, Culture, Computation: Computational Linguistics and Linguistics** Nachum

West, 2025-06-20

Adriana Craciun, Kari Lokke, Kari E. Lokke, 2001-06-07 Examines the full spectrum of women s participation in the social economic religious and poetic debates surrounding the French Revolution      Female Patients in Early Modern Britain

Wendy D. Churchill, 2016-04-15 This investigation contributes to the existing scholarship on women and medicine in early modern Britain by examining the diagnosis and treatment of female patients by male professional medical practitioners from 1590 to 1740 In order to obtain a clearer understanding of female illness and medicine during this period this study examines ailments that were specific and unique to female patients as well as illnesses and conditions that afflicted both female and male patients Through a qualitative and quantitative analysis of practitioners records and patients writings such as casebooks diaries and letters an emphasis is placed on medical practice Despite the prevalence of females amongst many physicians casebooks and the existence of sex based differences in the consultations diagnoses and treatments of patients there is no evidence to indicate that either the health or the medical care of females was distinctly disadvantaged by the actions of male practitioners Instead the diagnoses and treatments of women were premised on a much deeper and more nuanced understanding of the female body than has previously been implied within the historiography In turn their awareness and appreciation of the unique features of female anatomy and physiology meant that male practitioners were sympathetic and accommodating to the needs of individual female patients during this pivotal period in British medicine

Bhattacharya, 2024-02-08 In a radical and ambitious reconceptualization of the field this book argues that global literary culture since the eighteenth century was fundamentally shaped by colonial histories It offers a comprehensive account of the colonial inception of the literary sovereign how the realm of literature was thought to be separate from history and politics and then follows that narrative through a wide array of different cultures multilingual archives and geographical locations Providing close studies of colonial archives German philosophy of aesthetics French realist novels and English literary history this book shows how colonialism shaped and reshaped modern literary cultures in decisive ways It breaks fresh ground across disciplines such as literary studies anthropology history and philosophy and invites one to rethink the history of literature in a new light      The Work(s) of Samuel Richardson Stephanie Fysh, 1997 Samuel Richardson emerges in Fysh's analysis as a man on the cusp of change in the organization of the printing industry and of labor generally and in the nature of the literary text and his work as a printer as well as his literary works the two being fundamentally inseparable come to be seen as instrumental in and representative of these changes      **Military Transition in Early Modern Asia, 1400-1750**

Kaushik Roy, 2014-05-22 A substantial amount of work has been carried out to explore the military systems of Western Europe during the early modern era but the military trajectories of the Asian states have received relatively little attention This study provides the first comparative study of the major Asian empires military systems and explores the extent of the impact of West European military transition on the extra European world Kaushik Roy conducts a comparative analysis of the armies and navies of the large agrarian bureaucratic empires of Asia focusing on the question of how far the Asian polities were able to integrate gunpowder weapons in their military systems Military Transition in Early Modern Asia 1400 1750 offers important insights into the common patterns in war making across the region and the impact of firearms and artillery

Stories from Home Dr Margaret Ponsonby, 2013-06-28 Most homes in the past were not elite wealthy interiors complete with high fashion furnishings designed by well known architects and designers as many domestic histories often seem to have assumed As this book makes clear there were in fact an enormous variety of house interiors in England during the period 1750 1850 reflecting the location status and gender of particular householders as well as their changing attitudes

tastes and aspirations By focusing on non metropolitan homes which represented the majority of households in England this study highlights the need for historians to look beyond prevailing attitudes that often reduce interiors to generic descriptions based on high fashions of the decorative arts Instead it shows how numerous social and cultural influences affected the manner in which homes were furnished and decorated Issues such as the availability of goods gender regional taste income the second hand market changing notions of privacy and household hierarchies and print culture could all have a significant impact on domestic furnishing The study ends with a discussion of how domestic interiors of historic properties have been presented and displayed in modern times highlighting how competing notions of the past can cloud as well as illuminate the issue Combining cultural history and qualitative analysis of evidence this book presents a new way of looking at ordinary and provincial homes that enriches our understanding of English domestic life of the late eighteenth and early nineteenth centuries
