International Mediation Bias and Peacemaking Isak Svensson, 2014-11-27 This book examines the effect of biased and neutral mediators in civil wars Based on analysis of both global data and case studies of contemporary peace processes including India and Norway in Sri Lanka China in Cambodia US in Israel Palestine and Russia in Georgia the book makes two main contributions First it explores the role of biased mediators in contemporary peace processes The author develops a theory explaining why biased mediators are more effective than their neutral counterparts and the book identifies four different mechanisms through which biased mediators can be effective peace brokers By developing a comprehensive set of mechanisms to explain bias mediation the work deepens understanding of

biased mediators in general and their role in resolving civil conflict in particular The second contribution offered is a novel way of measuring mediation success Previous research has concentrated on settlement behavior or implementation While these conceptualisations of mediation success all have merit they fail to address how the basic incompatible positions are regulated This book focuses on mediators ability to regulate core compatibilities by crafting institutional peace arrangements that generally are considered to enhance the prospect for durable peace This approach has wider implications for peace and conflict research by bringing together research on durability of peace and studies on international mediation two fields of research which hitherto have been kept apart This book will be of much interest to students of international mediation conflict management civil wars security studies and IR in general

Study On International Politics In Contemporary China Yuyan Zhang,2020-07-14 China s guiding principle for foreign relations and its focus on states and regions has shifted a lot from the first 30 years of the founding of the People s Republic of China PRC in 1949 to 1978 and beyond after reform and opening up However PRC s diplomatic practice has been continuous whether it was

participation in the Korean War breaking up with the former Soviet Union after a honeymoon period China's self defense war over Sino Indian border participation in the Vietnam War breakthrough in the Sino US relation or PRC's self defense war over the Sino Vietnamese border These historical events brought the need for theoretical study in International Politics IP The development of China's IP research was slow and filled with complications but it signified a breakthrough from scratch This book has filled gap by depicting a complete scroll of China's IP research in over 60 years since 1949 This book has followed two principles one is according to the classification of the IP discipline and the other is to recommend adaptations according to China's actual conditions

International Multiparty Mediation and Conflict Management Sinisa Vukovic, 2015-10-05 This volume aims to provide a detailed explanation of the effects of cooperation and coordination on international multiparty mediation in conflicts Contemporary scholarship stresses that the crucial ingredients for a successful multiparty mediation are consistency in interests and cooperation and coordination between mediators This book seeks to supplement that understanding by investigating how much the consistency of interests and cooperation and coordination affect the overall process and what happens to the mediation process when mediating parties do not share the same idea and interest in finding a common solution At the same time it explores the obstacles in achieving coordination and coherence between various mediators in such an environment and how to surmount the problems that multiple mediators face when operating without a common script in attempting to mediate a negotiated settlement The study investigates three distinct mechanisms both on the systemic and contextual level that have the potential to deter defection from a potential member of the multiparty mediation coalition geo political shifts changes in the conflict dynamics and mediators ability to bargain for a cooperative relationship As the number of states and international actors that are involved in mediation increases a careful assessment is necessary not only of their relative institutional strengths and weaknesses but also of how to promote complementary efforts and how to synchronize the whole process when one actor is transferring the responsibilities for mediation to others This book will be of much interest to students of mediation conflict management war and conflict studies security studies and IR The Open Access version of this book available at <https://www.routledge.com/International-Multiparty-Mediation-and-Conflict-Management-Challenges-of-Vukovic/p/book/9781138087897> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
