Challenge and Conformity Lindsey Taylor-Guthartz, 2021-03-01 Orthodox Jewish women are increasingly seeking new ways to express themselves religiously and important changes have occurred in consequence in their self definition and the part they play in the religious life of their communities Drawing on surveys and interviews across different Orthodox groups in London as well as on the author's own experience of active participation over many years this is a thoroughly researched study that analyses its findings in the context of related developments in Israel and the USA Sympathetic attention is given to women's creativity and sophistication as they struggle to develop new modes of expression that will let their voices be heard at the same time the inevitable points of conflict with the male dominated religious establishment are examined and explained There is a focus too on the impact of innovations in ritual these include not only the creation of women only spaces and women's participation in public practices traditionally reserved for men but also new personal practices often acquired on study visits to Israel which are replacing traditions learned from family members This is a much needed study of how new norms of lived religion have emerged in London influenced by both the rise of feminism and the backlash against it and also by women's new understanding of their religious roles

Polonsky,2005 This is the first collection of essays devoted to the study of Jewish womens experiences in eastern Europe It attempts to go beyond mere description of what women experienced and to explore how gender constructed distinct experiences and identities It is an important first step in the rethinking of east European Jewish history with the aid of new insights gleaned from the research on gender **Jewish Feminism** Esther Fuchs,2018-03-12 In the last three decades hundreds of books and essays have been published on women gender and Jewish Studies This burgeoning scholarship has not been adequately theorized contextualized or historicized This book argues that Jewish feminist studies is currently constrained by multiple frames of reference that require re examination a self critical awareness and a serious reflective inquiry into the models paradigms and assumptions that inform shape and define this area of academic interest This book is the first critical analysis of Jewish feminist scholarship tracing it from its tentative beginnings in the late 1970s to contemporary academic articulations of its disciplinary projects It focuses on the assumptions evasions omissions inconsistencies and gaps in this scholarship and notably the absence of debate contestation and interrogation of authoritative articulations of its presumed goals investments and priorities The book teases out implicit thinking about mapping direction and orientation from introductions to leading anthologies and engages critically with the few explicitly theoretical works on Jewish feminist studies contesting ideas that have become hegemonic in some areas and interrogating the limitations these theories impose on future trajectories in Jewish feminist studies Each chapter outlines the theoretical assumptions that inform salient publications in the field providing a close reading of scholarly texts that justify certain practices The book is divided into four chapters each of which focuses on a different frame of reference It outlines the way in which the various frames that have so far been imposed on Jewish feminism the ethnocentric liberal personal masculinist and essentialist have arrested its theoretical elaboration and articulation The book includes both interdisciplinary anthologies on gender and Jewish identity and disciplinary publications in history literature philosophy cultural studies and Holocaust studies

from possession by demons or Satan Its origin is in the Kabbalistic concept of gilgul transmigration for sins that are so grievous that Gehenna is not sufficient punishment and the soul must therefore wander until expiation is found The dybbuk can temporarily find refuge in animals or people and can only be exorcised by a Baal Shem a great kabbalist or expert in Jewish magic In addition to describing the history and evolution of this concept The Dybbuk includes English translations of all dybbuk stories discussed in the book many translated for the first time **Women and Judaism** Frederick E.

Managing Family Justice in Diverse Societies Mavis Maclean, John Eekelaar, 2013-02-15 The aim of this book is to explore what response the law has or should have to different family practices arising from cultural and religious beliefs The issue has become increasingly debated as western countries have become more culturally diverse Although discussion has frequently focused on the role Islamic family law should have in these countries this book seeks to set that discussion within a wider context that includes consideration both of theoretical issues and also of empirical data about the interaction between specific family practices and state law in a variety of jurisdictions ranging from England and Wales to Bangladesh Botswana Spain Poland France Israel Iran and South Africa The contributors to the 17 chapters approach the subject matter from a variety of perspectives illustrating its complex and often sensitive nature The book does not set out to propose any single definitive strategy that should be adopted but provides material on which researchers advocates and policy makers can draw in furthering their understanding of and seeking solutions to the problems raised by this significant social development

Kabbalah Moshe Idel, 2018-11-19 This volume addresses the complex topic of the preeminent status of the divine feminine power to be referred also as Female within the theosophical structures of many important Kabbalists Sabbatean believers and Hasidic masters This privileged status is part of a much broader vision of the Female as stemming from a very high root within the divine world then She was emanated and constitutes the tenth lower divine power and even in this lower state She is sometime conceived of governing this world and as equal to the divine Male Finally She is conceived of as returning to Her original place in special moments the days of Sabbath the Jewish Holidays or in the eschatological era Her special dignity is sometime related to Her being the telos of creation and as the first entity that emerged in the divine thought which has been later on generated In some cases an uroboric theosophy links the Female Malkhut directly to the first divine power Keter The author points to the possible impact of some of the Kabbalistic discussions on conceptualizations of the feminine in the Renaissance period

Brafman, 2024-12-30 *New Perspectives on Jewish Law* combines the detailed work characteristic of scholarship on Jewish law with an orientation towards its broader academic and cultural significance It shifts the study of Jewish law from its focus on legal doctrine and history to legal theory achieving in the process a more sophisticated understanding of law that will benefit both the legal academy and Jewish studies By employing the framework of legal theory it similarly corrects an over emphasis on the metaphysical presuppositions and philosophical implications of Jewish law which has tended to cast it as exceptional relative to other legal systems Moreover it answers to old new anxieties about law often symbolized by Judaism raised by contemporary feminists and by philosophers who are animated by recent interpretations of Paul through actual engagement with the Jewish legal tradition The volume consists of three parts The first focuses on the critique of positivism its implications and the new directions that it opens up for the analysis of Jewish law The second part takes stock of recent methodological developments in the study of Jewish legal texts and investigates the relation between Jewish law and the disciplines including history literary theory ritual studies the digital humanities as well as traditional approaches to Jewish learning It concludes with a reflection on these interdisciplinary contributions from the perspective of legal theory The third part explores the connections among Jewish law philosophy and culture critique It assesses the relation or lack thereof between Jewish law and modern Jewish thought and examines specific issues of philosophical interest including truth and normativity It also investigates the image of Jewish law in the contemporary critique of law as well as how Jewish law could productively contribute to that debate It concludes with a

reflection on these studies from the perspective of philosophy of law
