

The background of the cover is a photograph of a library's bookshelves. The shelves are filled with numerous old, leather-bound books. The leather is worn and discolored, showing various shades of brown and tan. The books are arranged in rows, and the perspective is slightly angled, giving a sense of depth. The lighting is soft, highlighting the texture of the leather and the spines of the books.

Ethics David G. Ritchie, 2017-08-25 **T.H. Green and the Development of Ethical Socialism** Matt Carter, 2016-11-16

This book uncovers the philosophical foundations of a tradition of ethical socialism best represented in the work of R H Tawney tracing its roots back to the work of T H Green Green and his colleagues developed a philosophy that rejected the atomistic individualism and empiricist assumptions that underpinned classical liberalism and helped to found a new political ideology based around four notions the common good a positive view of freedom equality of opportunity and an expanded role for the state The book shows how Tawney adopted the key features of the idealists philosophical settlement and used them to help shape his own notions of true freedom and equality thereby establishing a tradition of thought which remains relevant in British politics today *Personal Liberty and Public Good* Douglas Howland, 2005-01-01 Blame for the putative failure of liberalism in late nineteenth century Japan and China has often been placed on an insufficient grasp of modernity among East Asian leaders or on their cultural commitments to traditional values In *Personal Liberty and Public Good* Douglas Howland refutes this view turning to the central text of liberalism in that era John Stuart Mill's *On Liberty* Howland offers absorbing analyses of the translations of the book into Japanese and Chinese which at times reveal astonishing emendations As with their political leaders Mill's Japanese and Chinese translators feared individual liberty could undermine the public good and standards for public behaviour and so introduced their own moral values Christianity and Confucianism respectively into *On Liberty* filtering its original meaning Howland mirrors this mistrust of individual liberty in Asia with critiques of the work in England which itself had trouble adopting liberalism *Personal Liberty and Public Good* is a compelling addition to the corpus of writing on the work of John Stuart Mill It will be of great interest to historians of political thought liberalism and translation as well as scholars of East Asian studies **Ethics, Politics, and Social**

Research Gideon Sjoberg, 1971 **Ethics and Experiments** Scott Desposato, 2015-12-22 For most of political science's history discussions about professional ethics had nothing to do with human subjects Professional ethics involved integrity in the classroom fair tenure and promotion rule and the careful avoidance of plagiarism As most research was observational there was little need for attention to how scholarly activities might directly affect the subjects of our work Times have changed The dramatic growth in the use of experiments in social science especially overseas is generating unexpected ethical controversies The purpose of this volume is to identify debate and propose practical solutions to the most critical of these new ethical issues A leading team of internationally distinguished political science scholars presents the first examination of the practical and ethical challenges of research with human subjects in social science and policy studies Part 1 examines contextual challenges provided by experiments conducted overseas questions of culture religion security and poverty Part 2 examines questions of legal constraints on research focusing on questions of foreign review of international experiments Part 3 tackles the critical issues in field experiments including deception and consent impact on elections and careers the boundaries of the public officials exemption and the use of partner organizations to avoid Institutional Review

Body IRB review Part 4 considers strategies for the future including training and education IRB reform institutional changes and norm development
