Studies In Relational Grammar 2:

Studies in relational grammar [Anonymus AC02899243],1983 Studies in Relational Grammar 1 David M. Perlmutter,1986-10-01 In this long awaited book the first in a three volume work David M Perlmutter has co authored and edited ten essays that introduce relational grammar a novel conception of sentence structure that offers far reaching conclusions for universal grammar The basic ideas of relational grammar can be simply stated First grammatical relations such as subject of direct object of and indirect object of are needed to characterize the class of grammatical constructions in the clausal syntax of natural languages to formulate universals of grammar and to construct adequate and insightful grammars of individual languages Second the range of linguistic variation in word order and case patterns makes it impossible to define grammatical relations in terms of phrase structure configurations or case Rather grammatical relations must be taken as primitive notions of linguistic theory The papers collected here take up the first of these ideas They lay out the basic theoretical constructs of relational grammar and discuss three areas of grammar advancement construction raising and clause union In his introduction Perlmutter discusses each of the papers most of which are published here for the first time and places them in the context of the whole of linguistic study Studies in Relational Grammar 2 David M. and Rosen Edited by Perlmutter (Carol G.),1984 **Studies in Relational Grammar 3** Paul M. Postal,Brian D. Joseph,1990-12-15 This collection of nine original syntactic studies carried out within the framework for syntactic theory and description known as Relational Grammar provides a state of the art survey of this and allied fields In relational theory grammatical relations such as subject direct object and predicate are taken to be theoretical primitives which permit the definition of formal objects called Arcs the fundamental building blocks of syntactic structures Edited by Paul M Postal and Brian D Joseph this volume is the third in a series highlighting work in Relational Grammar It extends the foundational studies of the first two volumes to refine and modify the insights analyses and theoretical devices developed in earlier connections while at the same time providing support for some of the earlier constructs and claims Of the nine papers four treat various aspects of advancements to and demotions from indirect object three deal with raising and clause union constructions in which initial immediate constituents of one structure are nonimmediate constituents of another and two are concerned with problems in the description and formalization of verbal agreement systems The nine articles cover languages ranging from Chamorro to English French Georgian Greek Japanese Kek chi Korean Southern Tiwa Spanish and Tzotzil Objects and Other Subjects William D. Davies,Stanley Dubinsky,2012-12-06 The papers in this volume examine the current role of grammatical functions in transformational syntax in two ways i through largely theoretical considerations of their status and ii through detailed analyses for a wide variety of languages Taken together the chapters in this volume present a comprehensive view of how transformational syntax characterizes the elusive but often useful notions of subject and object examining how subject and object properties are distributed among various functional projections converging sometimes in particular languages

Linguistics Encyclopedia Kirsten Malmkjaer, 2004-01-08 The Linguistics Encyclopedia has been thoroughly revised and updated and a substantial new introduction which forms a concise history of the field has been added The volume offers comprehensive coverage of the major and subsidiary fields of linguistic study Entries are alphabetically arranged and extensively cross referenced and include suggestions for further reading New entries include Applied Linguistics Cognitive Linguistics Contrastive Linguistics Cross Linguistic Study Forensic Linguistics Stratificational Linguistics Recommissioned or substantially revised entries include Bilingualism and Multilingualism Discourse Genre Analysis Psycholinguistics Language acquisition Morphology Articulatory Phonetics Grammatical Models and Theories Stylistics Sociolinguistics Critical Discourse Analysis For anyone with an academic or professional interest in language The Linguistics Encyclopedia is an indispensable reference tool

Written Expression Disorders N. Gregg, 2012-12-06 A critical review of the literature on written expression disorders of individuals with learning disabilities The purpose of the book is to shed light on issues concerning definition assessment and interaction for individuals with writing disorders The integrated model of written expression offered draws on the work of cognitive psychology neurolinguistics and sociolinguistics The model illustrates the interrelationship between cognitive and affective processing networks that influence the selection and use of linguistics and information structures in producing a written text Particularly noteworthy aspects of this book are the emphasis on the role of writing in developing higher mental functions other texts on writing disorders have placed greater emphasis on lower order aspects not only the addition and integration of the sociolinguistic dimension into the model of writing but also the inclusion of guidelines for assessing this dimension specification of needed research in which both populations and tasks have been carefully defined and finally notice of the importance of a continuum for defining assessing and treating each component of written expression This state of the art work on disorders of writing is of interest to both researchers and clinicians concerned with written expression disorders in children and or adults

Transitive Nouns and Adjectives John Jeffrey Lowe, 2017 This book explores the wealth of evidence from early Indo Aryan for the existence of transitive nouns and adjectives a rare linguistic phenomenon The data is set in the wider historical context from Proto Indo European to Modern Indo Aryan and analysed from diachronic typological and theoretical perspectives

Morphology and Universals in Syntactic Change Brian D. Joseph, 2016-11-10 This book first published in 1990 is a study of both the specific syntactic changes in the more recent stages of Greek and of the nature of syntactic change in general Guided by the constraints and principles of Universal Grammar this hypothesis of this study allows for an understanding of how these changes in Greek syntax occurred and so provides insight into the mechanism of syntactic change This title will be of interest to students of language and linguistics

Building Predicates Justin Nuger, 2016-08-01 This volume provides a comprehensive analysis of the syntax of Palauan that will appeal to anyone interested in Austronesian languages or formal syntactic and morphological theory This volume proposes that words in Palauan are not drawn directly from a mental lexicon but are

instead composed at least partially in the syntax Using original data from syntactic constructions not previously explored in the language the author entertains several competing theories of word formation and highlights the compatible and incompatible aspects of each through an exploration into new corners of Palauan syntax and morphology

Current Approaches to Syntax András Kertész, Edith Moravcsik, Csilla Rákosi, 2019-05-06 Even though the range of phenomena syntactic theories intend to account for is basically the same the large number of current approaches to syntax shows how differently these phenomena can be interpreted described and explained The goal of the volume is to probe into the question of how exactly these frameworks differ and what if anything they have in common Descriptions of a sample of current approaches to syntax are presented by their major practitioners Part I followed by their metatheoretical underpinnings Part II Given that the goal is to facilitate a systematic comparison among the approaches a checklist of issues was given to the contributors to address The main headings are Data Goals Descriptive Tools and Criteria for Evaluation The chapters are structured uniformly allowing an item by item survey across the frameworks The introduction lays out the parameters along which syntactic frameworks must be the same and how they may differ and a final paper draws some conclusions about similarities and differences The volume is of interest to descriptive linguists theoreticians of grammar philosophers of science and studies of the cognitive science of science

Issues in the Structure of Arabic Clauses and Words A. Fassi Fehri, 2013-11-11 This study has a twofold goal First it investigates the internal structure of words and clauses in Standard Arabic SA in the light of recent developments of Government and Binding Theory GB Second it argues for a specific theory of typology and proposes a particular view of how parametrization can be construed and executed SA is a language used throughout the Arab world in contrast to specific local dialects which are limited to a particular area The language has a number of features which make it particularly suitable for cross linguistic comparative morpho syntax as well as research in different modules of the theory of grammar SA morphology is essentially non concatenative though a rich analytic affixation system makes word formation hierarchical Word order in SA is basically VSO but the language has alternative SVO structures as well Sentences can be nominal i e with no verb or copula realized at surface structure or verbal Arguments can be left syntactically unexpressed i e SA is a null argument language SA is an agreement language with a rich and complex agreement system interacting with word order pronominal incorporation and expletive structures It also has a productive morphological case system Tense Aspect Modal and Negation properties interact in intriguing ways Finally SA s DP system exhibits interesting complementary distributions between overt determiners genitive complements and possessive markers It also uses different licensing strategies for Genitive Case marking

Syntactic Constructions in English Jong-Bok Kim, Laura A. Michaelis, 2020-05-21 With exercises based on real language data this volume gives a comprehensive introduction to construction grammar focusing on English

Argument Structure and Grammatical Relations Pirkko Suihkonen, Bernard Comrie, Valery Solovyev, 2012 This book is a collection of articles dealing with various aspects of

grammatical relations and argument structure in the languages of Europe and North and Central Asia LENCA Topics covered with respect to individual languages are split intransitivity Basque causativization Agul transitives and causatives Korean and Japanese aspectual domain and quantification Finnish and Udmurt head marking principles Athabaskan languages and pragmatics Eastern Khanty and Xibe Typology of argument structure properties of give LENCA typology of agreement systems asymmetry in argument structure typology of the Amdo Sprachbund spatial realtors Northeastern Turkic core argument patterns languages of Northern California and typology of grammatical relations LENCA are the topics of articles based on cross linguistic data The broad empirical sweep and the fine tuned theoretical analysis highlight the central role of argument structure and grammatical relations with respect to a plethora of linguistic phenomena *Grammatical Roles and Relations* Frank Robert Palmer, 1994-02-25 Frank Palmer's new book is a typological survey of grammatical roles such as Agent Patient Beneficiary and grammatical relations such as Subject Direct Object and Indirect Object which are familiar concepts in traditional grammars It describes the devices such as the Passive that alter or switch the identities between such roles and relations A great wealth of examples is used to show that the grammatical systems of the familiar European languages are far from typical of many of the world's languages for which we need to use such terms as Ergative and Antipassive Professor Palmer provides an elegant and consistent framework within which grammatical roles and relations may be discussed combining a great clarity of discussion with evidence from an enormous number of the world's languages

Language Change, Variation, and Universals Peter W. Culicover, 2021 This volume explores how human languages become what they are why they differ from one another in certain ways but not in others and why they change in the ways that they do Peter Culicover proposes that language change and variation are responses to the pressure to find efficient grammatical solutions to the task of expressing human thought *Modern Icelandic Syntax* Joan Maling, Annie Zaenen, 2020-01-13 This comprehensive overview of Icelandic syntax contains new analyses of word order and long distance reflexivization detailed studies of case marking and the first systematic description of the st middles It presents a complete picture of modern Icelandic syntax as seen in the tradition of generative grammar striking a good balance between theory and description **The Oxford Handbook of Cognitive Linguistics** Dirk Geeraerts, Herbert Cuyckens, 2010-06-09 With 49 chapters written by experts in the field this reference volume authoritatively covers cognitive linguistics from basic concepts and models to practical applications **Kriyol Syntax** Alain Kihm, 1994-01-01 This book describes the Portuguese based Creole which is widely spoken as a first language in Guinea Bissau The study focuses on one variety central Kriyol and its main aim is to present a complete description of the grammar of the language The theoretical framework for the syntactic analysis is purposely eclectic but relies primarily on Generalized Phrase Structure Grammar and ample attention is paid to the cognitive or semantic dimension in the explanation of linguistic facts After a short introduction on the history and phonology of the language and the organization of the study there are chapters dealing with the simple sentence Tense and

Aspect the noun phrase the complex sentence topicalization focalization questions and Middles Passives Causatives The final chapter discusses Kriyol texts especially comic books from which a considerable number of examples used in the study are taken Lexical Specification and Insertion Peter Coopmans, Martin B.H. Everaert, Jane Grimshaw, 2000-06-15 The papers in this volume address the general question what type of lexical specifications we need in a generative grammar and by what principles this information is projected onto syntactic configurations or to put it differently how lexical insertion is executed Many of the contributions focus on what the syntactic consequences are of choices that are made with respect to the lexical specifications of heads The data in the volume are drawn from diverse languages among which Brazilian Portuguese Bulgarian Dutch English French German Icelandic Italian Mohawk Norwegian Polish Russian
