The Chautauquan , 1902 **Blindness and Therapy in Late Medieval French and Italian Poetry** Julie Singer, 2011 This book argues that late medieval love poets from Petrarch to Machaut and Charles d Orlans exploit scientific models as a broad framework within which to redefine the limits of the lyric subject and his body Just as humoral theory depends upon principles of likes and contraries in order to heal poetry makes possible a parallel therapeutic system in which verbal

oppositions and substitutions counter or rewrite received medical wisdom The specific case of blindness a disability that according to the theories of love that predominated in the late medieval West foreclosed the possibility of love serves as a laboratory in which to explore poets circumvention of the logical limits of contemporary medical theory Reclaiming the power of remedy from physicians these late medieval French and Italian poets prompt us to rethink not only the relationship between scientific and literary authority at the close of the middle ages but more broadly speaking the very notion of therapy From publisher's website **New York School Journal**, 1901 *Sappho and Catullus in Twentieth-Century Italian and North American Poetry* Cecilia Piantanida, 2021-01-14 Going beyond exclusively national perspectives this volume considers the reception of the ancient Greek poet Sappho and her first Latin translator Catullus as a literary pair who transmit poetic culture across the world from the early 20th century to the present Sappho's and Catullus reception has shaped a transnational network of poets and intellectuals helping to define ideas of origins gender sexuality and national identities This book shows that across time and cultures translations and rewritings of Sappho and Catullus articulate modernist poetics of myth and fragmentation forms of confessionalism and post modern pastiche The inquiry focuses on Italian and North American poetry as two central yet understudied hubs of Sappho's and Catullus modern reception also linked by a rich mutual intellectual exchange key case studies include Giovanni Pascoli Ezra Pound H D Salvatore Quasimodo Robert Lowell Rosita Copioli and Anne Carson and cover a wide range of unpublished archival material Texts are analysed and compared through reception and translation theories and inserted within the current debate on the Classics as World Literature demonstrating how sustained transnational poetic discourse employs the ancient pair to expand notions of literary origins and redefine poetry's relationship to human existence *Encyclopedia of Italian Literary Studies: A-J* Gaetana Marrone, 2007 Publisher description **Encyclopedia of Italian Literary Studies** Gaetana Marrone, Paolo Puppa, 2006-12-26 The Encyclopedia of Italian Literary Studies is a two volume reference book containing some 600 entries on all aspects of Italian literary culture It includes analytical essays on authors and works from the most important figures of Italian literature to little known authors and works that are influential to the field The Encyclopedia is distinguished by substantial articles on critics themes genres schools historical surveys and other topics related to the overall subject of Italian literary studies The Encyclopedia also includes writers and subjects of contemporary interest such as those relating to journalism film media children's literature food and vernacular literatures Entries consist of an essay on the topic and a bibliographic portion listing works for further reading and in the case of entries on individuals a brief biographical paragraph and list of works by the person It will be useful to people without specialized knowledge of Italian literature as well as to scholars *Constructing Communities in Vergil's Aeneid* Tedd A. As well as offering several original contributions on this fundamental aspect of Dante's work, it seeks to situate the Florentine more effectively within the broader spectrum of medieval culture and to establish greater intellectual exchange between Dante scholars and those from other disciplines. The volume is also notable for its openness to diverse critical and methodological approaches. In considering the extent to which modern theoretical paradigms can be used to shed light upon the Middle Ages, it will interest those engaged with questions of critical theory as well as medieval culture. *The School Journal*, 1901 *Medieval Italy* Christopher Kleinhenz, 2004-08-02 This Encyclopedia gathers together the most recent scholarship on Medieval Italy while offering a sweeping view of all aspects of life in Italy during the Middle Ages.
