Studies Voltaire 18th Century Volume 68:

Studies on Voltaire and the Eighteenth Century Theodore Besterman, 1969 **Studies on Voltaire and the eighteenth century** Theodore Besterman, 1969 **Routledge Library Editions: 18th Century Philosophy** Various, 2021-07-14 This collection reissues 17 titles that provide an excellent overview of 18th century philosophy as well as the debates that surround the topic Featuring works on Berkeley Hume Kant and Rousseau among others the collection examines a host of philosophical arguments by the leading thinkers of the time It is an essential reference collection **Scottish Philosophy in the Eighteenth Century, Volume I** Aaron Garrett, James A. Harris, 2015-03-05 A History of Scottish Philosophy is a series of collaborative studies by expert authors each volume being devoted to a specific period Together they provide a comprehensive account of the Scottish philosophical tradition from the centuries that laid the foundation of the remarkable burst of intellectual fertility known as the Scottish Enlightenment through the Victorian age and beyond when it continued to exercise powerful intellectual influence at home and abroad The books aim to be historically informative while at the same time serving to renew philosophical interest in the problems with which the Scottish philosophers grappled and in the solutions they proposed This new history of Scottish philosophy will include two volumes that focus on the Scottish Enlightenment In this volume a team of leading experts explore the ideas intellectual context and influence of Hutcheson Hume Smith Reid and many other thinkers frame old issues in fresh ways and introduce new topics and questions into debates about the philosophy of this remarkable period The contributors explore the distinctively Scottish context of this philosophical flourishing and juxtapose the work of canonical philosophers with contemporaries now very seldom read The outcome is a broadening out and a filling in of the detail of the picture of the philosophical scene of Scotland in the eighteenth century General Editor Gordon Graham Princeton Theological Seminary **Sources de L'athéisme Et de L'immoralisme Du Marquis de Sade** Theodore Besterman, 1969 *Sentimental Figures of Empire in Eighteenth-Century Britain and France* Lynn Festa, 2006-10-15 In this ambitious and original study Lynn Festa examines how and why sentimental fiction became one of the primary ways of representing British and French relations with colonial populations in the eighteenth century Drawing from novels poetry travel narratives commerce manuals and philosophical writings Festa shows how sentimentality shaped communal and personal assertions of identity in an age of empire Read in isolation sentimental texts can be made to tell a simple story about the emergence of the modern psychological self Placed in conversation with empire however sentimentality invites both psychological and cultural readings of the encounter between self and other Sentimental texts Festa claims enabled readers to create powerful imagined relations to distant people Yet these emotional bonds simultaneously threatened the boundaries between self and other civilized and savage colonizer and colonized Festa argues that sentimental tropes and figures allowed readers to feel for others while maintaining the particularity of the individual self Sentimental identification thus operated as a form of differentiation as well as

consolidation Festa contends that global reach increasingly outstripped imaginative grasp during this era Sentimentality became an important tool for writers on empire allowing conquest to be portrayed as commerce and scenes of violence and exploitation to be converted into displays of benevolence and pity Above all sentimental texts used emotion as an important form of social and cultural distinction as the attribution of sentience and feeling helped to define who would be recognized as human

Labyrinth of Digressions René Bosch, Piet Verhoeff, 2007 With their appearance during the 1760s the five instalments of Laurence Sterne's *The Life and Opinions of Tristram Shandy Gentleman* caused something like a booksellers hype Small publishers and anonymous imitators seized on Sterne's success by bringing out great numbers of spurious new volumes critical or ironic pamphlets and works that in style and title express a congeniality with *Tristram Shandy* This study explores these eighteenth century imitations as indicators of contemporary assumptions about Sterne's intentions Comparisons between the original the first reactions and a number of late eighteenth century imitations show that *Tristram Shandy* was initially read against the background of Augustan and Grub street satire The earliest imitators harked back to traditions of banter and folklore bawdy and grotesque humour pathetic stories and orthodox religiosity reaffirming a pattern of moral and aesthetic values that was conservative for its time Philosophical Sentimentalism appears to have been a late development It is also argued that partly because of their bad reputation some of the authors of forgeries and parodies had a greater influence on the original than the reviewers to whom Sterne is often said to have listened The imitators followed leads and themes in the first instalments developing them according to their own conception of Sterne's project and the reasons for his success As a consequence they unwittingly put a pressure on Sterne to alter his course and even to abandon some of the narrative lines and themes he had set out for himself The literature section contains a chronological checklist of English eighteenth century Sterneana

Directory of American Scholars, 1982 **The Rococo Interior** Katie Scott, 1995-01-01 Defines and depicts the arts and architecture of the rococo period in France and examines its relation to society **The Enterprise of Enlightenment** Terry Pratt, David McCallam, 2004 Published on the occasion of his retirement in honour of his outstanding contribution to French Enlightenment studies this volume explores those areas of research in which David Williams has excelled and continues to excel literary criticism particularly Voltaire the history of ideas women and Enlightenment colonial practices and revolutionary politics It brings together a collection of essays from some of the most prestigious international names in the field and tackles subjects which expose in all their splendid diversity the enterprise both innovation and undertaking of the *Siècle des Lumières*

Evolutionism in Eighteenth-century French Thought Mary Efron Gregory, 2008 This book examines how eighteenth century French theorists Maillet Montesquieu La Mettrie Buffon Maupertuis Diderot Rousseau and Voltaire addressed evolutionism Each thinker laid down a building block that would eventually open the door to the mutability of species and a departure from the long held belief that the chain of beings is fixed This book describes how the philosophes established a triune relationship among contemporary

scientific discoveries random creationism propelled by the motive and conscious properties of matter and the notion of the chain of being along with its corollaries plenitude and continuity Also addressed is the contemporary debate over whether apes could ever be taught to speak as well as the issue of race and the family of man *Inventing Eastern Europe* Larry Wolff,1994 Wolff explores how Western thinkers contributed to defining and characterizing Eastern Europe as half civilized and barbaric *The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800* George Watson,Ian R. Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **The Age of Minerva, Volume 1** Paul Ilie,2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas Époque Émilienne Ruth Edith Hagengruber,2022-07-01 The present book contextualizes Du Ch telet s contribution to the philosophy of her time The editor offers this tribute to an poque miliennee as a collection of innovative papers on Emilie Du Ch telet s powerful philosophy and legacy Du Ch telet was an outstanding figure in the era she lived in Her work and achievements were unique though not an exception in the 18th century which did not lack outstanding women Her personal intellectual education her scholarly network and her mental acumen were celebrated in her time perceiving her to have multiplied nine figures by nine figures in her head She was able to gain access to institutions which were normally denied to women To call an epoch an poque milienne may be seen as daring and audacious but it will not be the last time if we continue to bring women philosophers back into the memory of the history of philosophy The contributors paid attention to the philosophical state of the art which forms the background to Du Ch telet s philosophy They follow the transformation of philosophical concepts under her pen and retrace the impact of her ideas The book is of interest to scholars working in the history of philosophy as well as in gender studies It is of special interest for scholars working on the 18th century Kant Leibniz Wolff Newton and the European Enlightenment Architecture, Print Culture and the Public Sphere in Eighteenth-Century France Richard Wittman,2007 This book focuses on the complex ways in which architectural practice theory patronage and experience became modern with the rise of a mass public and a reconfigured public sphere between the end of the seventeenth century and the French Revolution Presenting a fresh theoretical orientation and a large body of new primary research this book offers a new cultural history of virtually all the major monuments of eighteenth

century Parisian architecture with detailed analyses of the public debates that erupted around such Parisian monuments as the east facade of the Louvre the Place Louis XV the Place de la Concorde and the church of Sainte Genevieve the Pantheon Depicting the passage of architecture into a mediatized public culture as a turning point and interrogating it as a symptom of the distinctly modern configuration of individual society and space that emerged during this period this study will interest readers well beyond the discipline of architectural history *Human Nature, Cultural Diversity, and the French*

Enlightenment Henry Vyverberg, 1989 In this work Henry Vyverberg traces the evolution and consequences of a crucial idea in French Enlightenment thought the idea of human nature Human nature was commonly seen as a broadly universal unchanging entity though perhaps modifiable by geographical social and historical factors Enlightenment empiricism suggested a degree of cultural diversity that has often been underestimated in studies of the age Evidence here is drawn from Diderot's celebrated Encyclopedia and from a vast range of writing by such Enlightenment notables as Voltaire Rousseau and d'Holbach Vyverberg explains not only the age's undoubted fascination with uniformity in human nature but also its acknowledgment of significant limitations on that uniformity He shows that although the Enlightenment's historical sense was often blinkered by its notions of a uniform human nature there were also cracks in this concept that developed during the Enlightenment itself **Politics and Philosophy in the Thought of Destutt de Tracy** Brian W.

Head, 2019-11-21 First published in 1987 This study describes and analyses the published writings of the French philosopher Antoine Destutt de Tracy The author focuses on the three decades from the calling of the Etats généraux to the early years of the Restoration the period of Tracy's entire literary production and the period of his greatest influence and reputation This title will be of great interest to students of history philosophy and politics *Grétry's Operas and the French Public* Dr James Arnold, 2016-01-28 Why in the dying days of the Napoleonic Empire did half of Paris turn out for the funeral of a composer The death of André Ernest Modeste Grétry in 1813 was one of the sensations of the age setting off months of tear-stained commemorations reminiscences and revivals of his work To understand this singular event this interdisciplinary study looks back to Grétry's earliest encounters with the French public during the 1760s and 1770s seeking the roots of his reputation in the reactions of his listeners The result is not simply an exploration of the relationship between a musician and his audiences but of developments in musical thought and discursive culture and of the formation of public opinion over a period of intense social and political change The core of Grétry's appeal was his mastery of song Distinctive direct and memorable his melodies were exported out of the opera house into every corner of French life serving as folkloristic tokens of celebration and solidarity longing and regret Grétry's attention to the subjectivity of his audiences had a profound effect on operatic culture forging a new sense of democratic collaboration between composer and listener This study provides a reassessment of Grétry's work and musical thought positioning him as a major figure who linked the culture of feeling and the culture of reason and who paved the way for Romantic notions of spectatorial absorption and the power of music

Symbols, Myths and Images of the French Revolution James A. Leith, University of Regina. Canadian Plains Research Center, University of Regina. Department of History, 1998 From 18-26 September 1996 the Department of History of the University of Regina hosted a colloquium entitled Symbols Myths and Images of the French Revolution in honour of James A. Leith Queen's University a leading historian of revolutionary France for over three decades who began his teaching career in Saskatchewan The colloquium brought together an international panel of scholars to discuss the visual imagery propaganda and cultural dimensions of the French Revolution a subject which since Professor Leith began his career has come to occupy an ever larger place in revolutionary historiography
