between the haves and the have nots Unfortunately successive governments both in the UK and abroad have gone about solving it the wrong way Independent Thinking founder Ian Gilbert s increasing frustration with educational policies that favour no excuses and compliance and that ignore the broader issues of poverty and inequality is shared by many others across the sphere of education and this widespread disaffection has led to the assembly of a diverse cast of teachers school leaders academics and poets who unite in this book to challenge the status quo Their thought provoking commentary ideas and impassioned anecdotal insights are presented in the form of essays think pieces and poems that draw together a wealth of research on the issue and probe and discredit the current view on what is best for children from poorer socio economic backgrounds Exploring themes such as inclusion aspiration pedagogy and opportunity the contributions collectively lift the veil of feigned equality of opportunity for all to reveal the bigger picture of poverty and to articulate the hidden truth that there is always another way This book is not about giving you all the answers however The contributors are not telling teachers or schools leaders how to run their schools their classroom or their relationships the field is too massive too complex too open to debate and to discussion to propose off the shelf solutions Furthermore the research referred to in this book is not presented in order to tell educators what to think but rather to inform their own thinking and to challenge some of the dominant narratives about educating the feckless poor This book is about helping educators to ask the right questions and its starting question is quite simple how can we approach the education of young people from disadvantaged backgrounds in a way that actually makes a difference for all concerned Written for policy makers and activists as well as school leaders and educators The Working Class is both a timely survey of the impact of current policies and an invaluable source of practical advice on what can be done to better support disadvantaged children in the school system Edited by Ian Gilbert with contributions from Nina Jackson Tim Taylor Dr Steven Watson Rhythmical Mike Dr Ceri Brown Dr Brian Male Julia Hancock Paul Dix Chris Kilkenny Daryn Egan Simon Paul Bateson Sarah Pavey Dr Matthew McFall Jamie Thrasivoulou Hywel Roberts Dr Kevin Ming Leah Stewart Real David Cameron Sir Al Aynsley Green Shona Crichton Floyd Woodrow Jonathan Lear Dr Debra Kidd Will Ryan Andrew Morrish Phil Beadle Jaz Ampaw Farr Darren Chetty Sameena Choudry Tait Coles Professor Terry Wrigley Brian Walton Dave Whitaker Gill Kelly Roy Leighton Jane Hewitt Jarlath O Brien Crista Hazell Louise Riley Mark Creasy Martin Illingworth Ian Loynd David Rogers Professor Mick Waters and Professor Paul Clarke

Rethinking Positive Thinking Gabriele Oettingen, 2014-10-16 The solution isn't to do away with dreaming and positive thinking Rather it's making the most of our fantasies by brushing them up against the very thing most of us are taught to ignore or diminish the obstacles that stand in our way So often in our day to day lives we're inundated with advice to think positively From pop music to political speeches to commercials the general message is the same look on the bright side be optimistic in the face of adversity and focus on your dreams And whether we're trying to motivate ourselves to lose weight snag a promotion at work or run a marathon we're told time and time again that focusing on fulfilling our wishes will make them come true Gabriele Oettingen draws on more than twenty years of research in the science of human motivation to reveal why the conventional wisdom falls short The obstacles that we think prevent us from realizing our deepest wishes can actually lead to their fulfillment Starry eyed dreaming isn't all it's cracked up to be and as it turns out dreamers are not often doers While optimism can help us alleviate immediate suffering and persevere in challenging times merely dreaming about the future actually makes people more frustrated and unhappy over the long term and less likely to achieve their goals In fact the pleasure we gain from positive fantasies allows us to fulfill our wishes virtually sapping our energy to perform the hard work of meeting challenges and achieving goals in real life Based on her groundbreaking research and large scale scientific studies Oettingen introduces a new way to visualize the future called mental contrasting It combines focusing on our dreams with visualizing the obstacles that stand in our way By experiencing our dreams in our minds and facing reality we can

address our fears make concrete plans and gain energy to take action In Rethinking Positive Thinking Oettingen applies mental contrasting to three key areas of personal change becoming healthier nurturing personal and professional relationships and performing better at work She introduces readers to the key phases of mental contrasting using a proven four step process called WOOP Wish Outcome Obstacle Plan and offers advice and exercises on how to best apply this method to daily life Through mental contrasting people in Oettingen s studies have become significantly more motivated to quit smoking lose weight get better grades sustain fulfilling relationships and negotiate more effectively in business situations Whether you are unhappy and struggling with serious problems or you just want to improve discover and explore new opportunities this book will deepen your ideas about human motivation and help you boldly chart a new path ahead
