

A black and white photograph of a man, likely a chemist, standing in a laboratory. He is wearing a light-colored lab coat over a dark shirt. He is looking down at a piece of equipment on the left side of the frame, with his right arm extended towards it. The background is dark and indistinct, suggesting a laboratory setting.

THE STUDY OF CHANGE

Society**

Study Of Change Chemistry In China 1840 1949:

The Study of Change James Reardon-Anderson, 1991 When Western missionaries introduced modern chemistry to China in the 1860s they called this discipline hua hsueh literally the study of change In this first full length work on science in modern China James Reardon Anderson describes the introduction and development of chemistry in China in the late nineteenth and early twentieth centuries and examines the impact of the science on language reform education industry research culture society and politics Throughout the book Professor Reardon Anderson sets the advance of chemistry in the broader context of the development of science in China and the social and political changes of this era His thesis is that science fared well at times when a balance was struck between political authority and free social development Based on Chinese and English sources the narrative moves from detailed descriptions of particular chemical processes and innovations to more general discussions of intellectual and social history and provides a fascinating account of an important episode in the intellectual history of modern China

The Study of Change James Reardon-Anderson, 1991-02-22 When Western missionaries introduced modern chemistry to China in the 1860s they called this discipline hua hsueh literally the study of change In this first full length work on science in modern China James Reardon Anderson describes the introduction and development of chemistry in China in the late nineteenth and early twentieth centuries and examines the impact of the science on language reform education industry research culture society and politics Throughout the book Professor Reardon Anderson sets the advance of chemistry in the broader context of the development of science in China and the social and political changes of this era His thesis is that science fared well at times when a balance was struck between political authority and free social development Based on Chinese and English sources the narrative moves from detailed descriptions of particular chemical processes and innovations to more general discussions of intellectual and social history and provides a fascinating account of an important episode in the intellectual history of modern China

Igniting The Chemical Ring Of Fire: Historical Evolution Of The Chemical Communities Of The Pacific Rim Seth C Rasmussen, 2018-01-18 From the rise of chemical technology in antiquity to the present day Igniting the Chemical Ring of Fire tracks the development of professional chemistry communities in the countries of the Pacific Rim Critical in this process was the development of local education and training in chemistry The doctorate in chemistry is generally regarded as coming into existence in early 19th century Germany with the model spreading globally as time passed In early years it was common for international chemistry scholars to train at the ranking German or English universities before returning to their home countries to seed a local version of the doctorate However little has been formally written about this process outside of Europe Representing a first in the field for countries of the Pacific Rim this book documents the detailed history of chemical communities in ten countries from a team of internationally renowned historians Providing insights into how and when these countries initiated local chemistry PhD programs and became independent chemical entities Igniting the Chemical Ring of Fire shows that there is no single path to

development **Economic Change in China, C.1800-1950** Philip Richardson, Economic History Society, 1999-11-13 This concise 1999 introduction focuses on China's transition to economic modernisation **Mr. Science and Chairman Mao's Cultural Revolution** Chunjuan Nancy Wei, Darryl E. Brock, 2013-01-01 Despite the verdict of the Cultural Revolution as a disaster for China a number of scholars have called for reexamining socialist science under Mao's aegis This collection examines the viewpoints on social and scientific enterprises of that era probing medicine the space program and the one child policy as outcomes of earlier Maoist science *The Rise of Early Modern Science* Toby E. Huff, 2017-06-15 In this revised third edition Toby E Huff charts the rise of early modern science within Europe China and Islamic civilisations

Translation Studies in China Ziman Han, Defeng Li, 2019-06-26 This book features the latest research on translation by a dozen leading scholars of translation studies in China The themes discussed are diverse and include translation policy literary translation medical translation corpus translation studies teaching translation translation technologies media translation interpreting studies and so on The contributors are all respected experts on their respective topics The book reflects the state of the art of translation studies in China and offers a unique window on the latest thoughts on translation there

Concepts of Nature Hans Ulrich Vogel, Günter Dux, 2010-08-13 This book inspired by the sociologist Günter Dux co-edited by the historian Hans Ulrich Vogel and introduced by Mark Elvin is a collective intellectual masterpiece written by some of the world's leading scholars Its purpose is to illuminate premodern Chinese ways of thinking about Nature by comparing them with their counterpart traditions in Europe In so doing it also subtly reshapes our understanding of premodern European concepts of the natural world The domains covered principally include philosophy language poetry science and mathematics and their relations with society technology and politics By analyzing the frequent partial similarities between these great two cultural areas in the context of their overall contrasts it points the way for the first time to defining accurately the differences that have been critical for world history

Science In China, 1600-1900: Essays By Benjamin A Elman Benjamin A Elman, 2015-05-07 Distinguished historian Benjamin A Elman's collective volume on the history of science in imperial China brings together over 30 years of historical literature on the subject With updates to the literature and new material including transcripts of podcasts and translated interview articles Science in China takes the reader on a journey starting in the early 17th century with the missionary efforts of the Jesuits in China and ending with the Protestant missions in the 19th century These two milestone encounters brought Western sciences to local Chinese scholars with great success in shaping modern Chinese science Elman studies the interaction between Western and Chinese sciences through philological research and evidence and treats the two encounters not as separate events but as a continuum of creative exchange of scientific knowledge and discourse

Routledge Handbook of Comparative Constitutional Change Xenophon Contiades, Alkmene Fotiadou, 2020-06-11 Comparative constitutional change has recently emerged as a distinct field in the study of constitutional law It is the study of the way constitutions change through formal and informal

mechanisms including amendment replacement total and partial revision adaptation interpretation disuse and revolution The shift of focus from constitution making to constitutional change makes sense since amendment power is the means used to refurbish constitutions in established democracies enhance their adaptation capacity and boost their efficacy Adversely constitutional change is also the basic apparatus used to orchestrate constitutional backslide as the erosion of liberal democracies and democratic regression is increasingly affected through legal channels of constitutional change Routledge Handbook of Comparative Constitutional Change provides a comprehensive reference tool for all those working in the field and a thorough landscape of all theoretical and practical aspects of the topic Coherence from this aspect does not suggest a common view as the chapters address different topics but reinforces the establishment of comparative constitutional change as a distinct field The book brings together the most respected scholars working in the field and presents a genuine contribution to comparative constitutional studies comparative public law political science and constitutional history

Honorable Merchants Richard John Lufrano, 1997-01-01 In light of East Asia's current economic success it has become increasingly clear that Confucian social thought long assumed in Western scholarship to be a major stumbling block to economic development can under the proper circumstances have exactly the opposite effect Lufrano's study is the most sustained and sophisticated of recent reevaluations of Confucianism's role in the rapid commercial development in the late Ming to mid Qing period It will be of great interest and value to scholars in the growing field of Chinese business history and should be welcomed by those interested in the Confucian roots of Pacific Rim business practice **Seeking Modernity in**

China's Name Weili Ye, 2002-04-01 The students who came to the United States in the early twentieth century to become modern Chinese by studying at American universities played pivotal roles in Chinese intellectual economic and diplomatic life upon their return to China These former students exemplified key aspects of Chinese modernity introducing new social customs new kinds of interpersonal relationships new ways of associating in groups and a new way of life in general Although there have been books about a few especially well known persons among them this is the first book in either English or Chinese to study the group as a whole The collapse of the traditional examination system and the need to earn a living outside the bureaucracy meant that although this was not the first generation of Chinese to break with traditional ways of thinking these students were the first generation of Chinese to live differently Based on student publications memoirs and other writings found in this country and in China the author describes their multifaceted experience of life in a foreign modern environment involving student associations professional activities racial discrimination new forms of recreation and cultural expression and in the case of women students the unique challenges they faced as females in two changing societies

Building a Nation at War J. Megan Greene, 2023-11-20 Building a Nation at War argues that the Chinese Nationalist government's retreat inland during the Sino Japanese War 1937-1945 its consequent need for inland resources and its participation in new scientific and technical relationships with the United States led to fundamental changes in how the

Nationalists engaged with science and technology as tools to promote development The war catalyzed an emphasis on applied sciences comprehensive economic planning and development of scientific and technical human resources all of which served the Nationalists immediate and long term goals It created an opportunity for the Nationalists to extend control over inland China and over education and industry It also provided opportunities for China to mobilize transnational networks of Chinese Americans Chinese in America and the American government and businesses These groups provided technical advice ran training programs and helped the Nationalists acquire manufactured goods and tools J Megan Greene shows how the Nationalists worked these programs to their advantage even in situations where their American counterparts clearly had the upper hand Finally this book shows how although American advisers and diplomats criticized China for harboring resources rather than putting them into winning the war against Japan U S industrial consultants were also strongly motivated by postwar goals

Patriots or Traitors Stacey Bieler, 2014-12-18 This title explores the love hate relationship between the USA and China through the experience of Chinese students caught between the two countries The book sheds light on China's ambivalence towards the Western influence and the use of educational and cultural exchanges as a political device

Hygienic Modernity Ruth Rogaski, 2004-11-29 Placing meanings of health and disease at the center of modern Chinese consciousness Ruth Rogaski reveals how hygiene became a crucial element in the formulation of Chinese modernity in the nineteenth and twentieth centuries Rogaski focuses on multiple manifestations across time of a single Chinese concept weisheng which has been rendered into English as hygiene sanitary health or public health as it emerged in the complex treaty port environment of Tianjin Before the late nineteenth century weisheng was associated with diverse regimens of diet meditation and self medication Hygienic Modernity reveals how meanings of weisheng with the arrival of violent imperialism shifted from Chinese cosmology to encompass such ideas as national sovereignty laboratory knowledge the cleanliness of bodies and the fitness of races categories in which the Chinese were often deemed lacking by foreign observers and Chinese elites alike

Just One Child Susan Greenhalgh, 2008-02-13 Population politics are a major issue in China Susan Greenhalgh explores the origins and development of the one child policy from the late 1970s to the present day showing how sociopolitical life in China has been subject to scientization and statisticalization

Mapping Meanings Michael Lackner, Ph.D., Natascha Vittinghoff, 2004 Mapping Meanings a broad ranged introduction to China's intellectual entry into the family of nations guides the reader into the late Qing encounter with Western at the same time connecting convincingly to the broader question of the mobility of knowledge

The Oxford Companion to the History of Modern Science John L. Heilbron, 2003-02-14 Containing 609 encyclopedic articles written by more than 200 prominent scholars The Oxford Companion to the History of Modern Science presents an unparalleled history of the field invaluable to anyone with an interest in the technology ideas discoveries and learned institutions that have shaped our world over the past five centuries Focusing on the period from the Renaissance to the early twenty first century the articles cover all disciplines Biology

Alchemy Behaviorism historical periods the Scientific Revolution World War II the Cold War concepts Hypothesis Space and Time Ether and methodologies and philosophies Observation and Experiment Darwinism Coverage is international tracing the spread of science from its traditional centers and explaining how the prevailing knowledge of non Western societies has modified or contributed to the dominant global science as it is currently understood Revealing the interplay between science and the wider culture the Companion includes entries on topics such as minority groups art religion and science s practical applications One hundred biographies of the most iconic historic figures chosen for their contributions to science and the interest of their lives are also included Above all The Oxford Companion to the History of Modern Science is a companion to world history modern in coverage generous in breadth and cosmopolitan in scope The volume s utility is enhanced by a thematic outline of the entire contents a thorough system of cross referencing and a detailed index that enables the reader to follow a specific line of inquiry along various threads from multiple starting points Each essay has numerous suggestions for further reading all of which favor literature that is accessible to the general reader and a bibliographical essay provides a general overview of the scholarship in the field Lastly as a contribution to the visual appeal of the Companion over 100 black and white illustrations and an eight page color section capture the eye and spark the imagination **Patriots' Game** Man Bun Kwan, 2016-11-21 When thinking about modern China s chemical industry forget not Fan Xudong so declared Mao Zedong publicly after 1949 Although Mao might have united front politics in mind when invoking Fan as a paragon of the national bourgeoisie why would the chairman praise a champion of private enterprise How did Fan Xudong and his colleagues build Yongli from scratch into one of the largest industrial conglomerates in modern China amid predatory foreign competition and domestic strife What were his secrets of success Drawing from company documents government archives and personal correspondences this book traces Yongli s birth growth nationalization and how Fan and his colleagues pursued a third path of national development between for profit private enterprise and state ownership John Fryer and The Translator's Vade-mecum Gabriele Tola, 2020-11-09 This book is the winner of the Marthe Engelborghs Bertels Prize for Sinology 2023 awarded by the Academy for Overseas Sciences ARSOM Brussels In John Fryer and The Translator s Vade mecum Tola offers for the first time a comprehensive study of the collection of scientific and technical glossaries with English Chinese parallel translation compiled by the English scholar John Fryer 1839 1928 Other than contributing to the history of modern Chinese lexicon and translation in late Qing China Tola analyses the role of The Translator s Vade mecum in the diffusion of ideas and terms between China and the West at the same time providing new insights on the connection between religious efforts by missionaries in late Qing China and their secular attitude towards translation The great number of resources presented also show a new perspective on the transcultural flows of knowledge China s modernisation process in the nineteenth and twentieth centuries and the history of nineteenth century Protestant missions in China
