Study Of The Perunkatai:

A Study of the Perunkatai R. Vijayalakshmy, 1981 Comparative study of the Peru katai ancient Tamil Jain epic by Kuvir and various versions of Bhatath a work on Jain mythology and cosmography **Language of the Snakes** Andrew Ollett, 2017-10-10 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more Language of the Snakes traces the history of the Prakrit language as a literary phenomenon starting from its cultivation in courts of the Deccan in the first centuries of the common era Although little studied today Prakrit was an important vector of the kavya movement and once joined Sanskrit at the apex of classical Indian literary culture The opposition between Prakrit and Sanskrit was at the center of an enduring language order in India a set of ways of thinking about naming classifying representing and ultimately using languages As a language of classical literature that nevertheless retained its associations with more demotic language practices Prakrit both embodies major cultural tensions between high and low transregional and regional cosmopolitan and vernacular and provides a unique perspective onto the history of literature and culture in South Asia *Imagining a Place for Buddhism* Anne Elizabeth Monius, 2001 This study argues that in early medieval south India it was in the literary arena that religious ideals and values were publicly contested *The Roots of Tantra* Katherine Anne Harper, Robert L. Brown, 2012-02-01 Among the many spiritual traditions born and developed in India Tantra has been the most difficult to define Almost everything about it its major characteristics its sources its relationships to other religions even its practices are debated among scholars In addition Tantrism is not confined to any particular religion but is a set of beliefs and practices that appears in a variety of religions including Hinduism and Buddhism This book explores one of the most controversial aspects of Tantra its sources or roots specifically in regard to Hinduism The essays focus on the history and development of Tantra the art history and archaeology of Tantra the Vedas and Tantra and texts and Tantra Using various disciplinary and methodological approaches from history to art history and religious studies to textual studies scholars provide both broad overviews of the beginnings of Tantra and detailed analyses of specific texts authors art works and rituals *Brahmavidyā*, 1980 Includes text and translations of manuscripts found in the library **Lexicon of Tamil Literature** K.V. Zvelebil, 2021-12-06 Lexicon of Tamil Literature is a reference dictionary of Tamil literature of South India from its early beginnings more than 2000 years ago until the present time ca 1980 It includes in the order of Roman alphabet names and short biographies of authors lists of their works anonymous literary works and most important matters of Tamil prosody rhetoric and poetics Whenever available bibliographic data are given with individual entries in selection Brief contents and evaluative statements are given with literary works of greater importance whether ancient or modern An introduction is included The work is the first of its kind in a non Indian language It is an indispensable source of data and work of reference for Tamil literature in particular and for the totality of Indic literatures in general **The ^A Body of God** D Dennis Hudson, 2008-09-25 This remarkable book is the

crowning achievement of the great scholar of Hinduism D Dennis Hudson Although Hudson died without completing it the work has been brought to fruition by editor Margaret Case The book is a finely detailed study of a renowned Tamil Hindu temple the Vaikuntha Perumal ca 770 C E Hudson uses this temple as an illustration of one major current and historical stage in South Indian Vaisnava religion He offers a sustained reading of the temple as a coherent organized minutely conceptualized mandala whose code can be cracked by close analysis of the temple iconography and structure in the light of major literary and religious texts

Open Boundaries John E. Cort,1998-07-10 Open Boundaries provides a new perspective on Jainism one of the oldest yet least studied of the world s living religions Ten closely focused studies investigate the interactions between Jains and non Jains in South Asian society with detailed studies of yoga tantra aesthetic theory erotic poetry theories of kingship goddess worship temple ritual polemical poetry religious women and historiography Viewing the Jains within a South Asian context results in a strikingly different portrait from the standard models represented in both traditional Western and Indian scholarship

Lost Knowledge Benjamin B. Olshin,2019-02-19 Lost Knowledge The Concept of Vanished Technologies and Other Human Histories examines the idea of lost knowledge reaching back to a period between myth and history It investigates a peculiar idea found in a number of early texts that there were civilizations with knowledge of sophisticated technologies and that this knowledge was obscured or destroyed over time along with the civilization that had created it This book presents critical studies of a series of early Chinese South Asian and other texts that look at the idea of specific lost technologies such as mechanical flight and the transmission of images There is also an examination of why concepts of a vanished golden age were prevalent in so many cultures Offering an engaging and investigative look at the propagation of history and myth in technology and culture this book is sure to interest historians and readers from many backgrounds
