Reading, Writing, and Studying Strategies Pearl L. Seidenberg, 1991 Reading, Writing, and Studying Strategies: An Integrated Curriculum is a review manual that combines the teaching of reading and writing and makes the relationship between the two activities explicit for students. This unique program has been field tested and effectively implemented in secondary classrooms. It also provides instructors with a teacher's script to support the effective presentation of new content. The skills and strategies that are taught in each instructional unit are fully explained, illustrated, modeled, and then reinforced with examples that students work out by following a step-by-step approach. This easy-to-follow text uses the same format in all of the units: lesson script, handouts, controlled practice set, and answer keys.
