Smith, 2016-11-08 A worldview of spiritual warfare is widely held among charismatics and Pentecostals but it has been criticized for producing paranoia and denying personal responsibility It is less well known that the term was first used in print around 1970 by Anglican charismatics What did it mean to them then and what are the practical effects of their worldview Should we now be adopting a more sophisticated ontology of evil such as Nigel Wright's non ontological realist view or Amos Yong's apophatic theology of the demonic rather than the traditional one that Satan and demons are real ontological entities This practical theological study begins with a study of Anglican charismatic pioneers and an in depth case study of a charismatic Anglican congregation before grappling with the ontological question in dialogue with Wright together with Barth and Walter Wink Yong and Gregory Boyd A fresh engagement with the biblical texts then argues for a positive realist ontology for rebellious demonic powers and presents a Trinitarian model of spiritual warfare praxis that emphasizes personal responsibility and promotes freedom from fear **Shop Window, Flagship, Common Ground** Judith A.

Muskett, 2019-11-30 How are cathedrals and churches understood Are they shop windows through which to gaze at the riches on offer within the Christian life Are they flagships of the Spirit Are they both sacred spaces and community utilities Shop window flagship common ground views the rich ministry and innovative mission of cathedrals through the novel lens of metaphor and it offers comparative insights on cathedrals and cathedral like churches Located in the emerging international field of cathedral studies the book explores the usage and inferences of a range of metaphors including shop windows of the Church of England flagships of the Spirit beacons of the Christian faith magnets and sacred space common ground This volume also shows how such metaphors can stimulate different types of research about the function of cathedral and church buildings With a Foreword by Professor Grace Davie the book suggests that cathedrals and cathedral like churches may play a role within vicarious religion theory It will provide a thought provoking critique for practitioners and a valuable contribution for scholars of cathedral studies congregational studies and ecclesiology *House Churches in Post-Communist Europe* Randy Hacker, 2023-02-10 This is an exploration of house churches especially in Poland The book begins with a review of literature about the global house church movement and continues with an article on the early Christian transition from house churches to purpose built buildings for churches Next is an article regarding the concept of sacred space in relation to house churches The first half concludes with a chapter on methodology of research for a qualitative interview approach to studying house churches The thesis then presents a theological method for using the qualitative interviews to develop ecclesiology Sixteen interviews from thirteen house churches are presented The thesis continues the theological method by attempting to answer the question why is it going on and presents a thematic analysis from the qualitative interviews that includes input from sociological research done in Poland The thesis concludes by using scriptural and

academic sources in conversation with house church interviews from the interviews and global house church literature to present four primary conclusions in a practical prophetic ecclesiology Free Churches and Society Lesley Husselbee, Paul Ballard, 2012-07-05 Many of the key improvements to social conditions in the United Kingdom have been made by Christians Most of us would be able to think of such key Anglican figures as William Wilberforce Anthony Ashley Cooper Earl of Shaftesbury or Dr Thomas Barnardo but lesser known contributions were made behind the scenes by significant members of the Non Conformist Churches This book traces the Free Church contribution to society from 1800 to the present day It looks at the work of campaigners co operative societies philanthropists and politicians and traces the ways in which conditions in slums education and industry were improved including work with women and with black and ethnic minorities There is a growing interest in the part the churches can play today in community development and in the building of social capital This book will show that some of the things now seen as government initiatives had their origins in the work of Free Church pioneers Church: Critical Analysis of Its Theology and Philosophy Leon Kabasele, 2016-10-10 This is an excellent book for theology analysis of church philosophy At the end book of this book a reader or a student will understand the meaning of church and this book gives the main definition of church in many areas of the theology and philosophy A reader will understand the growth of the church in relation to Pentecost This book is not about to reveal the bad negative of the church but it gives an excellent meaning of theology and philosophy of a church this book shows that a church needs scientific contribution and also science needs a church's point of view to the world's solution A reader will understand how both politics and church are working together for contribution in the community If a reader needs to understand more in depth church philosophy I recommend to the readers also reading my books titled Christian Philosophy Understanding Racial Oppression African Inter religious Dialogue Philosophy and Theology **Sharing Friendship** John B. Thomson, 2016-03-03 Sharing Friendship represents a post liberal approach to ecclesiology and theology generated out of the history practices and traditions of the Anglican Church Drawing on the theological ethics of Stanley Hauerwas this book explores the way friendship for the stranger emerges from contextually grounded reflection and conversations with contemporary Anglican theologians within the English tradition including John Milbank Oliver O Donovan Rowan Williams Daniel Hardy and Anthony Thiselton Avoiding abstract definitions of character mission or friendship John Thomson explores how the history of the English Church reflects a theology of friendship and how discipleship in the New Testament the performance of worship and the shape of Anglican ecclesiology are congruent with such a theology The book concludes by rooting the theme of sharing friendship within the self emptying kenotic performance of Jesus mission and looks at challenges to the character of contemporary Anglican ecclesiology represented by secularization and globalization as well as by arguments over appropriate new initiatives such as Fresh Expressions
