Studying Society And Environment A Handbook For Teachers:

Studying Society and Environment Rob Gilbert, 1996 Introductory guide to curriculum planning and teaching in studies of society and environment at secondary school level Designed for teacher education courses as well as for use by practising teachers It reviews theory and practice and discusses topics such as planning investigations and evaluation Includes references and an index The editor is associate professor of education at James Cook University

Studying Society and Environment Rob Gilbert, 2001 Reviews the best theory and practice in planning curriculum and teaching in SOSE and reviews the most recent developments in Australian syllabuses and frameworks There are chapters on major curricular perspectives thinking processes and conceptual strands as well as on planning for teaching and assessment

Critical Voices in Teacher Education Barry Down, John Smyth, 2012-04-28 We live in dangerous times when educational policies and practices are debated largely in terms of how they fit with the needs of the free market This volume is a collection of writing by teacher educators that draws on their unique biographies experiences and perspectives to denounce these misguided norms It explores what it means practically and intellectually to teach for social justice in conservative times In a globalised world where the power of capital holds sway the purposes of social institutions such as universities and schools is being refashioned in ways that are markedly instrumental and technicist in nature The consequence is that teachers work is increasingly constrained by regimes of control such as standardised testing accountability transparency and national curricula In the meantime large numbers of students and teachers are disengaging physically emotionally and intellectually from learning The contributors to this edited volume present both a powerful critique of these developments and a counter hegemonic vision of teacher education founded on the principles and values of social justice democracy and critical inquiry Teacher education they argue involves a commitment to critical intellectual work that subjects some deeply entrenched assumptions beliefs habits routines and practices to closer scrutiny The contributing authors expose how ideology and power operate in seemingly blameless rational ways to perpetuate social hierarchies based on class gender sexuality race and culture

Teaching and Studying Social Issues Samuel Totten, Jon Pedersen, 2011-01-01 Teaching and Studying Social Issues Major Programs and Approaches focuses on many of the major innovations developed over the past 100 years by noted educators to assist students in the study and analysis of key social issues that impact their lives and society This book complements earlier books that address other aspects of studying and addressing social issues in the secondary classroom

Researching and Teaching Social Issues The Personal Stories and Pedagogical Efforts of Professors of Education Lexington Books 2006 Addressing Social Issues in the Classroom and Beyond The Pedagogical Efforts of Pioneers in the Field Information Age Publishing 2007 and Social Issues and Service at the Middle Level Information Age Publishers 2009 The current book ranges in scope from Harold Rugg's pioneering effort to develop textbooks that purposely addressed key social issues and thus provided teachers and students with a major tool with which to examine social issues in the classroom to the

relatively new efforts over the last 20 to 30 years including global education environmental education Science Technology Society STS and genocide education This book provides the readers with details about the innovators their innovations so they can 1 learn from past efforts particularly in regard to what worked and didn't work and why 2 glean new ideas methods and approaches for use in their own classrooms and 3 craft new methods and approaches based on the strengths of past innovations

History, Geography and Civics John Buchanan, 2013-09-09 History Geography and Civics provides an in depth and engaging introduction to teaching and learning socio environmental education from F 6 in Australia and New Zealand It explores the centrality of socio environmental issues to all aspects of life and education and makes explicit links between pedagogical theories and classroom activities Part I introduces readers to teaching and learning history geography and environmental studies and civics and citizenship as well as issues in intercultural and global education Part II explores the use of media and sources values and attitudes assessment and creative teaching Each chapter provides links to the Australian Curriculum including cross curriculum priorities sustainability Aboriginal and Torres Strait Islander education and Asia and Australia's engagement with Asia History Geography and Civics encourages the reader to consider their own beliefs values and attitudes in relation to their teaching and includes provocations and reflective questions to foster discussion and engagement

Disciplinarity: Functional Linguistic and Sociological Perspectives Frances Christie, Karl Maton, 2011-02-03 Disciplinarity knowledge is under threat in the modern world Claims abound that we are entering a landscape in which the division of disciplines is obsolete implying a commitment to outdated values in scholarship Notions of discipline are critiqued as reflecting social power and representing the worldview of dominant social groups By addressing and challenging such claims this edited collection argues that proclamations of the death of disciplines have been greatly overstated Not only are the notions of disciplinarity still important for understanding how we come to know the world but this volume demonstrates how significant disciplinarity is to understanding different forms of knowledge if we wish to improve the building of knowledge and educational practice Using analytical tools from systemic functional linguistics theory and social realist sociology this volume illustrates how different disciplines can collaborate and cross fertilize successfully without losing their distinctive insights and disciplinary integrity The subsequent theory developed will thereby extend both linguistic and sociological approaches to the topic and make a major contribution to educational theory

Handbook on Teaching Social Issues Ronald W. Evans, David W. Saxe, 2007-10-01 There's no book like this one for educators interested in issues centered teaching More than 40 experts have contributed articles offering comprehensive coverage of the field of social issues education In addition to a full examination of objectives and methods contributors show how social issues can be taught as part of history geography the social sciences and global and environmental studies The challenges of assessment curriculum and effective teacher education are fully explored With its teaching ideas and useful resource section this book is an indispensable addition to your library Contributors include Shirley Engle Anna Ochoa Becker Jack Nelson Carole Hahn Byron
