*The Historical Companion to House-brewing* Clive La Pensée,1990-01-01      [Historical Companion to House Brewing](#)  
Clive La Pensee,2004-04 Making beer has been a part of the traditional English household economy since early times However as author Clive La Pensee points out the tradition actually goes a lot further back than that back to ancient Egypt in fact Micro breweries may once more be in the fashion but there is nothing new about the idea This fascinating story captures the full inebriation of history covering the types of malt hops and barley used to produce differing historical brews and setting each in context With recipes for the more adventurous souls who want to experience the taste of the past at first hand

Pamela Sambrook,1996-07-01 Until the 18th century or even later beer was the staple drink of most men and women at all levels of society Tea and coffee were expensive luxuries while water might well carry disease To supply the needs of both owners and servants every country house with an accessible source of water had a brewhouse usually close at hand Although many of the brewhouses still stand in some cases with the original brewing vessels as at Lacock and Charlecote their habitual conversion to other uses has allowed them to be ignored Yet they are distinctive buildings as much part of a country house as an ice house or stables which need both to be recognized and preserved The scale of brewing in country houses which went on to a surprisingly late date in the 19th century with odd survivals such as Hickleton in Yorkshire in the 20th was often considerable if small besides that of commercial brewing Copious records for both brewing and consumption exist Pamela Sambrook describes the brewing equipment such as coppers mash tuns underbacks and coolers the types of beers brewed from strong ale to small beer and how they were kept and the brewers themselves their skills and attitudes English Country House Brewing 1500 1900 shows the role beer played in the life of the country house with beer allowances and beer money an integral part of servants rewards Generous allowances were made for arduous tasks such as harvesting For celebrations such as the heir s coming of age extra strong ale was provided This book which is heavily illustrated is an important and original contribution to architectural brewing and social history      **The Home Brewer's Recipe Database** Les

Howarth,2009-06-25 This is not a recipe book It is a database of ingredient information that should assist the home or craft

brewer in creating their own recipes in order to attempt the replication of commercial beers Instructions on how to convert the supplied ingredient information into recipes customised to the brewer's own equipment and technique are provided This book also provides inspiration to brewers wishing to experiment with different ingredients since it gives an interesting insight into how professional brewers have used them in their own brews Finally this book should also be of interest to the discerning beer enthusiast who is curious about what goes into their favourite drink This second edition provides substantially more data than the well received first edition
