The History of al-Ṭabarī Vol. 13 ,2015-06-16 This volume deals with the aftermath of the decisive battle at al Q disiyah described in the previous volume First the conquest of southern Iraq is consolidated in rapid succession there follow the accounts of the battles at Burs and B bil Then in 16 637 the Muslim warriors make for the capital al Mada in ancient Ctesiphon which they conquer after a brief siege The Persian king seeks refuge in ulw n leaving behind most of his riches which are catalogued in great detail In the same year the Muslim army deals the withdrawing Persians another crushing blow at the battle of Jal l This volume is important in that it describes how the newly conquered territories are at first administered As the climate of al Mada in is felt to be unwholesome a new city is planned on the Tigris This is al K fah which

is destined to play an important role as the capital city of the fourth caliph Al The planning of al K fah is set forth in considerable detail as is the building of its main features the citadel and the great congregational mosque After this interlude there follow accounts of the conquests of a string of towns in northern Mesopotamia which bring the Muslim fighters near the border with al Jazirah That region is conquered in 17 638 The history of its conquest is preceded by an account of the Byzantines siege of the city of im Also in this year Umar is recorded to have made a journey to Syria from which he is driven back by a sudden outbreak of the plague the so called Plague of Amaw s The scene then shifts back to southwestern Iran where a number of cities are taken one after another The Persian general al Hurmuz n is captured and sent to Medina After this the conquest of Egypt said to have taken place in 20 641 is recorded The volume concludes with a lengthy account of the crucial battle at Nihawand of 21 642 Here the Persians receive a blow that breaks their resistance definitively This volume abounds in sometimes very amusing anecdotes of man to man battles acts of heroism and bizarre at times even miraculous events The narrative style is fast moving and the recurrence of similar motifs in the historical expose lends them authenticity Many of the stories in this volume may have begun as yarns spun around campfires It is not difficult to visualize an early Islamic storyteller regaling his audience with accounts that ultimately found their way to the file on conquest history collected by Sayf ibn Umar al abar s main authority for this volume A discounted price is available when purchasing the entire 39 volume History of al abar set Contact SUNY Press for more information [The History of Jihad](#) Robert Spencer,2018 It is taken for granted even among many Washington policymakers that Islam is a fundamentally peaceful religion and that Islamic jihad terrorism is something relatively new a product of the economic and political ferment of the twentieth century But in The History of Jihad From Muhammad to ISIS Islamic scholar Robert Spencer proves definitively that Islamic terror is as old as Islam itself as old as Muhammad the prophet of Islam who said I have been made victorious through terror Spencer briskly traces the 1 400 year war of Islamic jihadis against the rest of the world detailing the jihad against Europe including the 700 year struggle to conquer Constantinople the jihad in Spain where non Muslims fought for another 700 years to get the jihadi invaders out of the country and the jihad against India where Muslim warriors and conquerors wrought unparalleled and unfathomable devastation in the name of their religion Told in great part in the words of contemporary chroniclers themselves both Muslim and non Muslim The History of Jihad shows that jihad warfare has been a constant of Islam from its very beginnings and present day jihad terrorism proceeds along exactly the same ideological and theological foundations as did the great Islamic warrior states and jihad commanders of the past The History of Jihad From Muhammad to ISIS is the first one volume history of jihad in the English language and the first book to tell the whole truth about Islam s bloody history in an age when Islamic jihadis are more assertive in Western countries than they have been for centuries This book is indispensable to understanding the geopolitical situation of the twenty first century and ultimately to formulating strategies to reform Islam and defeat radical terror **Geoheritage of Volcanic Harrats in Saudi Arabia**

active civil society The New Muslims of Post-Conquest Iran Sarah Bowen Savant, 2013-09-30 How do converts to a religion come to feel an attachment to it The New Muslims of Post Conquest Iran answers this important question for Iran by focusing on the role of memory and its revision and erasure in the ninth to eleventh centuries During this period the descendants of the Persian imperial religious and historiographical traditions not only wrote themselves into starkly different early Arabic and Islamic accounts of the past but also systematically suppressed much knowledge about pre Islamic history The result was both a new Persian ethnic identity and the pairing of Islam with other loyalties and affiliations including family locale and sect This pioneering study examines revisions to memory in a wide range of cases from Iran s imperial and administrative heritage to the Prophet Muhammad s stalwart Persian companion Salman al Farisi and to memory of Iranian scholars soldiers and rulers in the mid seventh century **The Rhetoric of Sobriety** Kathryn M. Kueny, 2001-07-26 Why does Islam condemn wine and other alcoholic beverages The complexity behind this simple question is examined in The Rhetoric of Sobriety Drawing on an array of revelatory legal historical and exegetical materials both Sunni and Shi ite from the early Islamic period and contrasting them with comparable Judaic and Christian works from the same era the author analyzes the rhetoric used to establish the proper authoritative boundaries that would contain wine s ambiguous nature How believers chose to identify wine as a marginal substance and assert its prohibition offers a rare glimpse into the underlying intellectual strategies of early Muslim thought to resolve conflict create meaning structure the world govern human behavior and convey the divine message Ultimately this examination reveals some of the ways in which the early Islamic community created its identity and asserted it over other confessional groups with similar convictions Magill's Guide to Military History: Jap-Pel , 2001 Salem Press s five volume Magill s Guide to Military History presents a survey of the wars battles peoples groups and civilizations that played an important role in worldwide military history from ancient times to the twenty first century In addition to comprehensive coverage of Western military history the encyclopedia examines the major military events personages and civilizations of the entire world from the beginning of military history Includes Time Line of Wars and Battles Wars and Battles by Geographical Area Military Leaders by Geographic Area and List of Entries by Category *The Legacy of Jihad* Andrew G. Book Review ,1989 *An Anxious Inheritance* Aaron W. Hughes,2022 An Anxious Inheritance examines the role of the ever expandable category of non Muslims in early Islam It demonstrates how the Qur an functioned as both a script to understand them and as a map to classify them and this category s role in shaping Sunni orthodoxy This orthodoxy was considered natural but in fact it was based on retroactive back projections Non Muslims and the wrong kinds of Muslims became integral to understanding what true religion was not and what it should be These non Muslims were rarely real individuals or groups rather they functioned as textual foils that could be conveniently orchestrated and ultimately controlled to facilitate self definition *History and Identity in the Late Antique Near East* Philip Wood,2013-04-04 This book examines the importance of the past both real and imagined in constructing contemporary culture in the period AD 500 1000 It goes beyond history writing in a narrow sense to examine philosophy theology liturgy and jurisprudence as vehicles for tradition and the imagination of a past golden age The papers straddle the Roman Persian frontier and go well into the Islamic period together they push the boundaries of late antiquity into the varied language traditions not just Greek but also Syriac Armenian Coptic and Arabic
