*The History of Australian Exploration from 1788 to 1888* Ernest Favenc, 2003-10 [The History of Australian Exploration From 1788 to 1888](#) Ernest Favenc, 2017-12-20 Excerpt from *The History of Australian Exploration From 1788 to 1888* Compiled From State Documents, Private Papers, and the Most Authentic Sources of Information Issued Under the Auspices of the Governments of the Australian Colonies. A complete history of the exploration of Australia will never be written. The story of the settlement of our continent is necessarily so intermixed with the results of private travels and adventures that all the historian can do is to follow out the career of the public expeditions and those of private origin which extended to such a distance and embraced such important discoveries as to render the results matters of national history. That private individuals have done the bulk of the detail work there is no denying, but that work, although every whit as useful to the community as the more brilliant exploits that carried with them the publicity of Government patronage, has not found the same careful preservation. To find the material to write such a history would necessitate the work of a lifetime and the co-operation of hundreds of Old colonists, and when written it would inevitably from the nature of the subject prove most monotonous reading, and hence I am afraid to think how many volumes. The reader has but to consider the immense area of country now under pastoral occupation and to remember that each countless subordinate river and tributary creek was the result of some extended research of the pioneer squatter to realise this.
