Bloch, 2013-02-01 Feudal Society discusses the economic and social conditions in which feudalism developed providing a deep understanding of the processes at work in medieval Europe *Class Conflict and the Crisis of Feudalism* Rodney Hilton, 1990-09-17 Some of the liveliest and most fruitful debates in recent historical writing have been about the transition from feudalism to capitalism Rodney Hilton's vast and distinguished body of work on medieval society has been a major reference point in these debates Throughout his work the dominant theme has been his argument that the prime mover in the development of medieval society was the conflict between landlords and peasants over the appropriation of the peasants surplus product This is the class conflict which gives the present volume its title This wide ranging collection updated to include some of Hilton's most recent writings explores not only the peasant economy and peasant movements but also the nature of towns and their principal classes Essays include a fascinating study of women traders in medieval England and an account of medieval tax revolts all informed by his lucid undogmatic attention to broad theoretical issues as well as to empirical detail This is a book not only for historians but for anyone interested in the evolution of capitalism or the larger questions of historical process and social change The History of Chinese Feudal Society Tung-tsu Chu, 2020-07-28 Feudalism is one of the most studied topics in the field of history but without a consensus on its central characteristics it remains a slippery concept The History of Chinese Feudal Society provides a comprehensive analysis on the rise and fall of feudalism in China Drawing on a vast library of archival materials it is the first study to investigate feudalism in China from the perspective of sociology and to compare feudalism in China to feudalism in the West The author proposes that landownership and the relationship between landowners and farmers are the two determining factors of feudalism with the Yin Dynasty marking a transitional stage to feudalism and the Zhou Dynasty witnessing the establishment of feudalism as a political system and central institution This book was written by one of the best known Chinese historians and has been a classic best seller for decades Students and scholars of Chinese history especially Chinese feudalism will find it to be an essential reference in their study and research **Origins of English Feudalism** R. Allen Brown, 2019-06-26 Originally published in 1973 Origins of English Feudalism suggests that English feudalism has for a long time been the most controversial and thereby the most highly technical aspect of English medieval history The book contains relevant sources that will be of use to readers and will allow them to study documentary literary and archaeological sources from the medieval period The debate over the establishment of feudalism in pre Conquest England involves not only the question of the presence or absence of fief but also of knights and cavalry castles and vassal commendation This book will be of interest to academics and the ease of use and careful division of sources will be of interest to students **THE HISTORY OF**

1 Marc Bloch, 1961 Describes social political and economic conditions that contributed to the development of and characterized European feudal society Bibliogs *The History of Modern Civilization* John Stuart Verschoyle, 1891 **The Place of War in English History, 1066-1214** J. O. Prestwich, 2004 A leading medievalist of his generation studies Anglo Norman practice in the raising and maintaining of armed forces and its effect on the government and economy **Class Conflict and the Crisis of Feudalism** Rodney Howard Hilton, 1985 The conflict between landlords and peasants over the appropriation of the surplus product of the peasant holding was a prime mover in the evolution of medieval society In this collection of essays Rodney Hilton looks at the economic context within which these conflicts took place He seeks to explain the considerable variations in the size composition and management of landed estates and investigates the nature of medieval urbanisation a consequence of the development of both local commodity production and long distance trade in luxury goods By setting the broader economic context the nature of the peasant and landlord economies and the commercialisation of peasant production Hilton s essays enable a thorough understanding of the relationship between landlords and peasants in medieval society Feudal Society Marc Bloch, 2014-04-16 Marc Bloch said that his goal in writing *Feudal Society* was to go beyond the technical study a medievalist would typically write and dismantle a social structure In this outstanding and monumental work which has introduced generations of students and historians to the feudal period Bloch treats feudalism as living breathing force in Western Europe from the ninth to the thirteenth century At its heart lies a magisterial account of relations of lord and vassal and the origins of the nature of the fief brought to life through compelling accounts of the nobility knighthood and chivalry family relations political and legal institutions and the church For Bloch history was a process of constant movement and evolution and he describes throughout the slow process by which feudal societies turned into what would become nation states A tour de force of historical writing *Feudal Society* is essential reading for anyone interested in both Western Europe s past and present With a new foreword by Geoffrey Koziol

original work Feudal Empires John F. Le Patourel, 1984-07-01 This is a collection of the selected papers of John La Patourel considered by him to be the most representative of his body of work on the Norman and Plantagenet feudal empires. A striking feature of this anthology is the unity, modification and development of Professor Le Patourel's thought from his earliest to the latest essays included. Adopting a comparative framework and looking at topics such as the Channel Islands in the early middle ages, Normandy and England from 1066-1144, the Angevin Empire, the Hundred Years War and the Treaty of Brétigny, Professor La Patourel's work yields new insights and understandings in the history of 14th century Europe.
