Rosenberg, 2010-12-16 After the Revolutionary War despite political independence the United States still relied on other countries for manufactured goods Francis Cabot Lowell was one of the principal investors in building the India Wharf and the shops and warehouses close to Boston harbor His work was instrumental in establishing domestic industry for the United States and brought the Industrial Revolution to the United States From 1810 to the start of the War of 1812 he traveled through Great Britain where he saw the tremendous changes caused by the Industrial Revolution starting with cotton textiles On his return to the United States he focused on establishing a domestic textile industry to replace imported goods With his brother in law Patrick Tracy Jackson he built the Boston Manufacturing Company at Waltham America's first integrated mill With his star mechanic Paul Moody he developed a power loom and other machines suitable for local conditions *The Life and Times of Francis Cabot Lowell 1775-1817* tells the story of this amazing man and the great success of the Boston Manufacturing Company which spurred the American industrial revolution Francis Cabot Lowell's method a detailed investment plan cheap raw materials and power a motivated labor force a sound marketing plan and above all modern technology became the standard for the American factory of the nineteenth century When Francis Cabot Lowell died his associates established America's first industrial city and named it Lowell in his honor *History of Newburyport, Mass* John James Currier, 1909 *Angel on a Freight Train* Peter C. Baldwin, 2020-09-01 *Angel on a Freight Train* examines the experiences of Samuel Edward Warren 1831-1909 a teacher and college professor in Troy New York who struggled to reconcile his same sex erotic desires with his commitment to a Christian life Unlike twenty first century evangelicals who try to pray the gay away Warren discerned no fundamental conflict between his faith and his attraction to younger males Growing up in the antebellum Northeast in a culture that permitted and even celebrated emotional bonds between men he strove to build emotionally intense relationships in many overlapping forms friendship pedagogy evangelism and romance which allowed him to enjoy intimacy with little effort at concealment However as he passed into mature manhood and built a prestigious career Warren began to feel that he should have grown out of romantic friendships which he now feared had become emotionally and physically excessive Based on Warren's deeply introspective and previously unexplored diaries *Angel on a Freight Train* traces his youthful freedom and sensuality his attempt to join with younger men in a spirit of loving mentorship and finally the tortured introspection of a man whose age seemed to shut him out from an idyllic lost world In the end Warren came to believe rather sorrowfully in a radical division between his angelic ideal self and what he called the freight train of animal life below *The Age of Homespun* Laurel Thatcher Ulrich, 2002-11-12 They began their existence as everyday objects but in the hands of award winning historian Laurel Thatcher Ulrich fourteen domestic items from

preindustrial America ranging from a linen tablecloth to an unfinished sock relinquish their stories and offer profound insights into our history In an age when even meals are rarely made from scratch homespun easily acquires the glow of nostalgia The objects Ulrich investigates unravel those simplified illusions revealing important clues to the culture and people who made them Ulrich uses an Indian basket to explore the uneasy coexistence of native and colonial Americans A piece of silk embroidery reveals racial and class distinctions and two old spinning wheels illuminate the connections between colonial cloth making and war Pulling these divergent threads together Ulrich demonstrates how early Americans made use of sold and saved textiles in order to assert their identities shape relationships and create history

Poverty and Progress Stephan THERNSTROM,2009-06-30 Embedded in the consciousness of Americans throughout much of the country's history has been the American Dream that every citizen no matter how humble his beginnings is free to climb to the top of the social and economic ladder Poverty and Progress assesses the claims of the American Dream against the actual structure of economic and social opportunities in a typical nineteenth century industrial community Newburyport Massachusetts Here is local history With the aid of newspapers census reports and local tax school and savings bank records Stephan Thernstrom constructs a detailed and vivid portrait of working class life in Newburyport from 1850 to 1880 the critical years in which this old New England town was transformed into a booming industrial city To determine how many self made men there really were in the community he traces the career patterns of hundreds of obscure laborers and their sons over this thirty year period exploring in depth the differing mobility patterns of native born and Irish immigrant workmen Out of this analysis emerges the conclusion that opportunities for occupational mobility were distinctly limited Common laborers and their sons were rarely able to attain middle class status although many rose from unskilled to semiskilled or skilled occupations But another kind of mobility was widespread Men who remained in lowly laboring jobs were often strikingly successful in accumulating savings and purchasing homes and a plot of land As a result the working class was more easily integrated into the community a new basis for social stability was produced which offset the disruptive influences that accompanied the first shock of urbanization and industrialization Since Newburyport underwent changes common to other American cities Thernstrom argues his findings help to illuminate the social history of nineteenth century America and provide a new point of departure for gauging mobility trends in our society today Correlating the Newburyport evidence with comparable studies of twentieth century cities he refutes the popular belief that it is now more difficult to rise from the bottom of the social ladder than it was in the idyllic past The blocked mobility theory was proposed by Lloyd Warner in his famous Yankee City studies of Newburyport Thernstrom provides a thorough critique of the Yankee City volumes and of the ahistorical style of social research which they embody

Plummer, 2010-02-24 This is an illustrated history of the extraordinary Anglo American Wheelwright family In 1636 an outspoken Puritan Reverend John Wheelwright left his native Lincolnshire and headed for the new Boston Bay Colony His stay in Massachusetts would be short lived Persecuted and banished Reverend John went on to found two New England towns and a dynasty which now spans six continents The Wheelwrights have produced explorers engineers clerics consuls and a family of cannibals There are philanthropists philanderers psychoanalysts scientists soldiers and sailors A sea captain became a pirate A lawyer became a gold digging sportsman and a kidnapped child was transformed from Puritan to Catholic mother superior The Wheelwright s story complete with black sheep and skeletons a plenty spans four centuries Hundreds of illustrations and family charts drawn from years of research bring 580 pages of this most remarkable family s history to life *Shaping Communities* Carter L. Hudgins, Elizabeth C. Cromley, 1997 Ed SUNY Buffalo Revised papers from two conferences 1992 and 1993 *Millions for Defense* Frederick Leiner, 2014-07-15 The title of this book comes from a toast popular with Americans in the late 1790s millions for defense not a cent for tribute Americans were incensed by demands for bribes from French diplomats and by France s galling seizures of U S merchant ships and as they teetered toward open war were disturbed by their country s lack of warships Provoked to action private U S citizens decided to help build a navy Merchants from Newburyport Massachusetts took the lead by opening a subscription to fund a 20 gun warship to be built in ninety days and they persuaded Congress to pass a statute that gave them government

stock bearing 6 percent interest in exchange for their money Their example set off a chain reaction down the coast More than a thousand subscribers in the port towns pledged money and began to build nine warships with little government oversight Among the subscription ships were the Philadelphia later lost on the rocks at Tripoli Essex the first American warship to round the Cape of Good Hope and Boston which captured the French corvette Le Berceau This book is the first to explore in depth the subject of subscribing for warships Frederick Leiner explains how the idea materialized who the subscribers and shipbuilders were how the ships were built and what contributions these ships made to the Quasi War against France Along the way he also offers significant insights into the politics of what is arguably the most critical period in American history

Murder & Mayhem in Essex County Robert Wilhelm, 2011-11-08 The importance of the area to early America make the book a must read for anyone interested in the dark side of New England history Early American Crime The idea of a criminal record originated in the early seventeenth century when the magistrates of the Massachusetts Bay Colony began recording dates places victims and criminals Despite or perhaps because of the strict code of the Puritans some early settlers earned quite the rap sheet that landed them either in the stocks or at the end of a noose With biting wit and an eye for the macabre local author Robert Wilhelm traces the first documented cases of murder and mayhem in Essex County Massachusetts Discover the story of Hannah Duston's revenge on her Abenaki Indian captors why the witchcraft hysteria hung over Salem and Andover and how Rachel Wall made her living as a pirate Decide for yourself whether the accused are guilty or if history lends itself to something else entirely Includes photos

Travels with George Nathaniel Philbrick, 2022-05-31 NEW YORK TIMES BESTSELLER Travels with George is quintessential Philbrick a lively courageous and masterful achievement The Boston Globe Does George Washington still matter Bestselling author Nathaniel Philbrick argues for Washington's unique contribution to the forging of America by retracing his journey as a new president through all thirteen former colonies which were now an unsure nation Travels with George marks a new first person voice for Philbrick weaving history and personal reflection into a single narrative When George Washington became president in 1789 the United States of America was still a loose and quarrelsome confederation and a tentative political experiment Washington undertook a tour of the ex colonies to talk to ordinary citizens about his new government and to imbue in them the idea of being one thing Americans In the fall of 2018 Nathaniel Philbrick embarked on his own journey into what Washington called the infant woody country to see for himself what America had become in the 229 years since Writing in a thoughtful first person about his own adventures with his wife Melissa and their dog Dora Philbrick follows Washington's presidential excursions from Mount Vernon to the new capital in New York a monthlong tour of Connecticut Massachusetts New Hampshire and Rhode Island a venture onto Long Island and eventually across Georgia South Carolina and North Carolina The narrative moves smoothly between the eighteenth and twenty first centuries as we see the country through both Washington's and Philbrick's eyes Written at a moment when America's founding figures are under increasing scrutiny

Travels with George grapples bluntly and honestly with Washington's legacy as a man of the people a reluctant president and a plantation owner who held people in slavery At historic houses and landmarks Philbrick reports on the reinterpretations at work as he meets reenactors tour guides and other keepers of history's flame He paints a picture of eighteenth century America as divided and fraught as it is today and he comes to understand how Washington compelled enticed stood up to and listened to the many different people he met along the way and how his all consuming belief in the union helped to forge a nation
