The Illusion of Public Opinion George F. Bishop, 2005 In a rigorous critique of public opinion polling in the U S George F Bishop makes the case that a lot of what passes as public opinion in mass media today is an illusion an artifact of measurement created by vague or misleading survey questions presented to respondents who typically construct their opinions on the spot Using evidence from a wide variety of data sources Bishop shows that widespread public ignorance and poorly informed opinions are the norm rather than definitive public opinion on key political social and cultural issues of the day The Illusion of Public Opinion presents a number of cautionary tales about how American public opinion has supposedly changed since 9 11 amplified by additional examples on other occasions drawn from the American National Election Studies Bishop's analysis of the pitfalls of asking survey questions and interpreting poll results leads the reader to a more skeptical appreciation of the art and science of public opinion polling as it is practiced today

Politics of the Past David Cowan, 2024-04-11 How did the everyday stories that ordinary British people told about the

1920s and 1930s shape later ideas about politics *Congressional Record* United States. Congress,2001 *The Historiography of Genocide* Anton Weiss-Wendt,Robert Krieken,Alfred A. Cave,Ben Kiernan,Doris Bergen,David Moshman,Victoria Sanford,John Docker,Robert Hitchcock,2008-02-13 The Historiography of Genocide is an indispensable guide to the development of the emerging discipline of genocide studies and the only available assessment of the historical literature pertaining to genocides **Eva Figes' Writings** Silvia Pellicer-Ortin,2015-10-13 This book provides a general overview of the life and literary career of the prolific writer Eva Figes placing her extensive production within the various literary movements that have shaped the last century and drawing on the main features of her works and the different stages in her production Having recourse to the tools provided by narratology and using the theoretical background of the disciplines of ethics Holocaust and trauma studies together with other related fields such as theories of artistic representation identity questions concerning Jewishness contemporary history and philosophy it carries out a comprehensive analysis of Figes s main works The main starting hypothesis explored throughout the book is that an evolution may be traced in the aesthetics employed by Figes throughout her career from her initial Modernist phase to her more realist position to depict individual and collective traumas This development is a result of her need to find a mode of representing various traumatic events that have given shape to her personal and family history and to our recent collective history from the two World Wars and the Holocaust to the social exclusion suffered by minority groups like women or the Jewish immigrant communities This evolution will be also approached thematically as there is a development from her early interest in depicting isolated male traumatised characters to the traumas suffered by women under patriarchal structures and then to the encounter with her own suffering as a Holocaust survivor The author s evolution in the topics and narrative techniques employed mirrors the different stages in the individual and collective processes of recovery from traumatic experiences from the process of acting out to the eventual healing phase Thus the conclusions detailed here will be useful not only to make Figes work known to a wider audience but also to gain an insight into the evolution of the literary tendencies of the last few decades in trying to represent some of the most horrible events of the modern age Cross-Curricular Teaching and Learning in the Secondary School... Sedition and the Advocacy of Violence Sarah Sorial, 2013-03-01 This book employs the theoretical framework of speech act theory to analyse current legislative frameworks and cases pertaining to sedition or the advocacy of violence and the issue of freedom of speech An analysis of the relation between speech and action offers a promising way of clarifying confusion over the contested status of speech which advocates violence as a political strategy This account reflects

an understanding of philosophical issues about both the nature of freedom and speech and how these issues can be applied to concrete legal problems This approach will shed new light on the problems of the sedition laws and how they might be remedied by providing a conceptual account of the nature of speech and its relation to action On the basis of J L Austin s account of verdictive and exercitive speech acts it is argued that while all speech acts are conduct in a narrow sense not all of them have the power to produce effects This philosophical account will have legal consequences for how we classify speech acts deemed to be dangerous or to cause harm It also suggests that because speech can evoke or constitute action or conduct in certain circumstances modern versions of sedition laws might in principle be defensible but not in their current form On the basis of this account it is argued that the harms caused or constituted by speech can be located in the authority of the speaker Sedition and Violence Against the State Free Speech and Counter Terrorism will be of interest to students and scholars of philosophy of law and legal theory
