vacancies high unit turnover and low rent collection rates The Comm members agreed that existing approaches for improving public housing were inadequate to address the needs of severely distressed developments and proposed the creation of a new program to address comprehensively the social and physical problems of distressed public housing communities Originally called the Urban Revitalization Demonstration Program this public housing revitalization program soon became known by the acronym HOPE VI Homeownership and Opportunity for People Everywhere In 1998 under the Dept of Housing and Urban Development HUD a 5 year evaluation of the HOPE VI program was begun The Interim Assessment of the HOPE VI Program was designed to study program outcomes by collecting and analyzing data about 15 HOPE VI sites once redevelopment was completed and units were reoccupied This report presents the study findings Figures and tables This is a print on demand report      **The Unseen Politics of Public Housing** Tiffany Gayle Chenault,2015-08-15

The Department of Housing and Urban Development HUD emphasizes the word community for building economic development citizen participations and revitalization of facilities and services in urban and rural areas Resident Councils are one way to develop and build community among residents of public housing Despite HUD stressing community building in public housing and investing money and policies around it there are some resident councils that are not fulfilling the expectations of HUD This book is my attempt to describe and explain HUD s expectations for the resident council as an active agent for community building and the actual practices of the resident council I argue that policies and regulations of resident councils which exist to support the effectiveness of the resident council in creating and implementing community building self sufficiency and empowerment activities and goals in a public housing community may do more harm than good The Department of Housing and Urban Development invests and spends billions on Public Housing Programs 6 6 billion in 2013 The majority of the 1 2 million people who live in public housing do not live in large urban areas with thousands of people confined to a certain space The majority of public housing units 90% have fewer than 500 units These smaller units and the people that live in them tend to go unnoticed This ethnographic case study focuses on explaining and understanding the factors and constraints that exist between HUD s expectations for the resident council as an active agent for community building and the actual practices of the resident council To explain the disjunction in fact to determine if such disjunctions identified by Rivertown council members are real Using the tenets of Critical Race Theory allows us to understand what forces either real or imagined structural or cultural prevent the resident council from being an effective agent for change in the public housing community      **Urban Research Monitor** ,1998      Housing Allowances in Comparative Perspective Peter Kemp,2007-07-11 This book examines income related housing allowance schemes in advanced welfare states as well as in transition economies of central and eastern Europe as a more efficient way to help tenants than rent controls or bricks and mortar subsidies to landlords      **Policy Studies Journal** ,1972      Places in Need Scott W. Allard,Scott Allard,2017-06-20

Americans think of suburbs as prosperous areas that are relatively free from poverty and unemployment Yet today more poor

people live in the suburbs than in cities themselves In Places in Need social policy expert Scott W Allard tracks how the number of poor people living in suburbs has more than doubled over the last 25 years with little attention from either academics or policymakers Rising suburban poverty has not coincided with a decrease in urban poverty meaning that solutions for reducing poverty must work in both cities and suburbs Allard notes that because the suburban social safety net is less developed than the urban safety net a better understanding of suburban communities is critical for understanding and alleviating poverty in metropolitan areas Using census data administrative data from safety net programs and interviews with nonprofit leaders in the Chicago Los Angeles and Washington D C metropolitan areas Allard shows that poor suburban households resemble their urban counterparts in terms of labor force participation family structure and educational attainment In the last few decades suburbs have seen increases in single parent households decreases in the number of college graduates and higher unemployment rates As a result suburban demand for safety net assistance has increased Concerning is evidence suburban social service providers which serve clients spread out over large geographical areas and often lack the political and philanthropic support that urban nonprofit organizations can command do not have sufficient resources to meet the demand To strengthen local safety nets Allard argues for expanding funding and eligibility to federal programs such as SNAP and the Earned Income Tax Credit which have proven effective in urban and suburban communities alike He also proposes to increase the capabilities of community based service providers through a mix of new funding and capacity building efforts Places in Need demonstrates why researchers policymakers and nonprofit leaders should focus more on the shared fate of poor urban and suburban communities This account of suburban vulnerability amidst persistent urban poverty provides a valuable foundation for developing more effective antipoverty strategies **Housing Policy**

Rao,Jennifer Day,2016-09-07 This book is a concise treatise of the alternative paradigms used in BRICS countries to tackle urban housing shortages There are a number of alternative methods for meeting these shortages which BRICS countries have adopted These alternatives may agree in terms of desired outcome but when it comes to approach mechanics and scope they are entirely divergent By focusing on the political economy and the international structure of each BRICS country these perspectives present alternative and often conflicting approaches to the attainment of better housing Development Paradigms for Urban Housing in BRICS Countries explores the various political economic institutional and cultural factors that have shaped the housing outcomes in BRICS countries that we see today The book uses a framework which allows comparison between Brazil Russia India China and South Africa whilst recognizing the differences in the development path that each of these countries has taken      **Doing Without** Jane Henrici,2022-10-18 The welfare reform legislation enacted in 1996 was applauded by many for the successes it had in dramatically reducing the number of people receiving public

assistance most of whom were women with children Today however more than a decade later these successes seem far less spectacular Although the total number of welfare recipients has dropped by more than fifty percent nationwide evidence shows that poverty has actually deepened Many hardworking women are no better off for having returned to the workplace In Doing Without Jane Henrici brings together nine contributions to tell the story of welfare reform from inside the lives of the women who live with it Cases from Chicago and Boston are combined with a focus on San Antonio from one of the largest multi city investigations on welfare reform ever undertaken The contributors argue that the employment opportunities available to poorer women particularly single mothers and ethnic minorities are insufficient to lift their families out of poverty Typically marked by variable hours inadequate wages and short term assignments both employment and training programs fail to provide stability or the kinds of benefits such as health insurance sick days and childcare options that are necessary to sustain both work and family life The chapters also examine the challenges that the women who seek assistance and those who work in public and private agencies to provide it together must face as they navigate ever changing requirements and regulations decipher alterations in Medicaid and apply for training and education Contributors urge that the nation should repair the social safety net for women in transition and offer genuine access to jobs with wages that actually meet the cost of living      Place Matters Peter Dreier,John H. Mollenkopf,Todd Swanstrom,2004 Analyzes the

problematic trends facing America s cities and older suburbs and challenges us to put America s urban crisis back on the national agenda      **Choosing a Better Life?** John Goering,Judith D. Feins,2003-06-15 This article evaluates the Moving to Opportunity MTO program run by HUD in the USA since 1994 This was a rental assistance program that offered

participating families a chance to move out of public housing projects located in deeply impoverished neighbourhoods in five US cities It examines the consequences for very low income public housing residents of moving to a low poverty neighbourhood     *City of Rhetoric* David Fleming, 2008-11-20 Examines the relationship of civic discourse to built environments through a case study of the Cabrini Green urban revitalization project in Chicago
