*A Different Christianity* Robin Amis, 2003-06-13 This book presents the esoteric original core of Christianity with its concern for illuminating and healing the inner life of the individual It is a bridge to the often difficult doctrines of the early church fathers explains their spiritual psychology and provides new insights for studying and following the spiritual path outside a monastery

Soul and Body Diseases, Remedies and Healing in Middle Eastern Religious Cultures and Traditions, 2023-07-31 Aiming to develop a less studied literary genre this book provides a well rounded picture of spiritual and physical diseases and their remedies as they were ingrained in the imagination and practices of Middle Eastern Abrahamic cultures with a special emphasis of Christian communities Greeks Byzantines Syrians Armenians Georgians Ethiopians The volume traces traditions dealing with the onset of a disease in the body and soul the search for remedy the maintenance of healing and the engagement of these processes with faith either through their affirmation in the public sphere or remaining within the personal framework as in monastic traditions A recurring presence in religious literature and the history of the intellectual world the confrontation between disease and healing may well still be current for our modern understanding of the paths to seeking and maintaining the health of one s body and soul without excluding the factor of faith as a core principle

*Corporeality, Medical Technologies and Contemporary Culture* Francisco Ortega, 2013-12-17 Corporeality Medical Technologies and Contemporary Culture engages the confusions and contradictions in current attitudes to and practices of the body

**Meditation in Judaism, Christianity and Islam** Halvor Eifring, 2013-10-24 Meditative practices have flourished in widely different parts of Eurasia yet historical research on such practices is limited Research to date has focused on contexts rather than actual practices and within individual traditions For the first time in one volume the meditative practices of the three traditions of Judaism Christianity and Islam are examined They are viewed in a global perspective considering both generic and historical connections to practices in other traditions particularly in India and East Asia Their cultural and historical peculiarities are examined comparing them both to each other and to Asian forms of meditation The book builds on a notion of meditation as self administered techniques for inner transformation a definition which focuses on transformative practice rather than notions of meditative states and mystical experiences It proposes ways of studying meditative practice historically and concludes with an essay on the modern scientific interest in meditation

**Reforming the Art of Living** Rico Vitz, 2014-10-20 Descartes s concern with the proper method of belief formation is evident in the titles of his works e g *The Search after Truth* *The Rules for the Direction of the Mind* and *The Discourse on Method* of rightly conducting one s reason and seeking the truth in the sciences It is most apparent however in his famous discussions both in the *Meditations* and in the *Principles* of one particularly noteworthy source of our doxastic errors namely the misuse of one s will What is not widely recognized let alone appreciated

and understood is the relationship between his concern with belief formation and his concern with virtue In fact few seem to realize that Descartes regards doxastic errors as moral errors and as sins both because such errors are intrinsically vicious and because they entail notably deleterious social consequences Reforming the Art of Living seeks to rectify this rather common oversight in two ways First it aims to elucidate the nature of Descartes s account of virtuous belief formation Second it aims both i to illuminate the social significance of Descartes s philosophical program as it relates to the understanding and practice not of science but of religion and ii to develop a kind of Leibnizian critique of this aspect of his program More specifically it aims to show that Descartes s project is dangerous insofar as it is subversive not only of traditional Christianity but also of other traditional forms of religion both in theory and in practice

,1819 **The Cyclopædia: Hydraulics-Naval architecture [HYD-NAV]** Abraham Rees,1819 Ascetic Practices in Japanese Religion Tullio Federico Lobetti,2013-09-11 Ascetic practices are a common feature of religion in Japan practiced by different religious traditions This book looks at these ascetic practices in an inter sectarian and inter doctrinal fashion in order to highlight the underlying themes common to all forms of asceticism It does so by employing a multidisciplinary methodology which integrates participant fieldwork the author himself engaged extensively in ascetic practices with a hermeneutical interpretation of the body as the primary locus of transmission of the ascetic embodied tradition By unlocking this bodily data the book unveils the human body as the main tool and text of ascetic practice This book includes discussion of the many extraordinary rituals practiced by Japanese ascetics *The Constitution of the Psychoanalytic Clinic* Christian Dunker,2018-03-21 This book provides a detailed examination of the historical roots of psychoanalysis from ancient Greece to the late nineteenth century focusing on social practices that were related to the founders of psychoanalytic theory and maintained within contemporary treatment Alongside the reconstruction of an evolutionary accumulation of healing practices the book includes linked discussions of current issues pertaining to psychoanalytic treatment and its working structure as elaborated by Freud and Lacan There are vital political consequences for psychoanalytic practice here articulated with an acknowledgement of these practical derivations of early pre psychoanalytic treatments of the soul The book demonstrates that these are neither mere techniques nor concepts of the world and the human subject but they concern the way the problem of power is articulated The historical establishment of psychoanalytical practice becomes legible through analysis of the traces of the elements of a political ontology an account of the roots of those traces and the elaboration of the conceptual structure of psychoanalysis as theory and treatment a praxis which maintains its own distinctive identity **Pantologia** John Mason Good,Olinthus Gregory,1813 Pantologia. Fagerberg,2022-01-07 Liturgical Theology is often a convenient label for any theology that has loosely to do with worship or Eucharist In this innovative book David Fagerberg distinguishes liturgical theology from a general theology of worship He proposes two defining attributes of liturgical theology 1 lex orandi It is manifested in the Church s historical rites 2 theologia prima It is theology done by the liturgical community Theologia Prima is a thorough revision of Dr Fagerberg s groundbreaking What Is Liturgical Theology A Study in Methodology 1992 It contains three new chapters as well as well as more anecdotal material derived from Dr Fagerberg s extensive experience as a teacher and theologian      Bodies and Pleasures Ladelle McWhorter,1999-07-22 Sexual identities are dangerous Michel Foucault tells us Here Ladelle McWhorter reads Foucault from an original and personal angle and takes the reader beyond unexplored norms and imposed identities as she points the way toward a personal politics ethics and style that challenge our sexual selves Copyright Libri GmbH All rights reserved      Routledge Library Editions: Women and Religion Various,2022-07-30 RLE Women and Religion gathers in one place a collection of previously out of print titles from a variety of historic imprints Encompassing a range of experiences the set provides an essential reference source on some of the key points in the field of women and religion      **Power of Scandal** Johannes Ehrat,2011-01-01 Are there events that are inherently scandalous Power of Scandal finds that the very idea of scandal is derived not from an event but from public opinion which in turn is constructed by media narratives Scandal is powerful because of its ability to challenge institutions by destabilizing their legitimacy The media play an integral role in the creation of scandal because they interpret real events as purposeful actions for the public Examining the ubiquity of scandals in today s mass media Johannes Ehrat comes to conclusions that are fresh and surprising Ehrat applies classic semiotic and pragmatic thought to contemporary media issues from moralist discourse surrounding sex abuse cases to the phenomenon of televangelism Arguing that sociological and communications studies of scandal have ignored its constructed nature Ehrat focuses on how meaningful public narrative is produced By examining the parallel worlds of media and public opinion Power of Scandal uses an alternative heuristic for understanding mass communication that is both rigorous and sophisticated      Reformed Systematic Theology, Volume 3 Joel Beeke,Paul M. Organizational Studies: Selves and subjects ,2001      **Back to the Future of the Body** Dominic Janes,2013-02-14 What can the past tell us about the future s of the body The origins of this collection of papers lie in the work of the Birkbeck Institute for the Humanities which has been involved in presenting a series of international workshops and conferences on the theme of the cultural life of the body The rationale for these events was that in concepts as diverse as the cyborg the questioning of mind body dualism the contemporary image of the suicide bomber and the patenting of human genes we can identify ways in which the future of the human body is at stake This volume represents an attempt not so much to speculate about what might happen but to develop strategies for bodily empowerment so as to get back to the future of the body The body it is contended is not to be thought of as an object or a sign but as an active participant in the shaping of cultural formations And this is emphatically not an exercise in digging corpses out of the historical archive The question is rather what can past lived and thought experiences of the body tell us about what the body can be come The continuing vitality of debate around the body was proven by the range and depth of the papers presented at the workshop on which this volume is based does the body have a future Our overall theme required contributors to think through embodiment in the past This they did with considerable interdisciplinary vigour rigorousness and imagination Prof Donna Dickenson Director Birkbeck Institute of the Humanities
