Fergus Kerr OP

In 1988 David Braine, who has taught philosophy at the University of Aberdeen for many years, published *The Reality of Time and the Existence of God*, a metaphysical proof of God's existence. Now, in this second book, *The Human Person: Animal and Spirit* (Duckworth, London, 1993) which certainly stands on its own although we are frequently referred back to the earlier book and forward to two (if not three) forthcoming volumes, he reconstructs the argument advanced by Thomas Aquinas in favour of our immortality, an even more audacious enterprise in the present intellectual climate.

The first move is to cut off every form of dualism which splits the animals that we human beings are into parts that then have to be related to one another. The traditional mind/body dualism to which Platonist Christians have always been attracted is, so David Braine argues, no different from the brain/mind identity theories which currently flourish under such labels as physicalism, behaviourism and so on. While of course he conducts the argument with reference in general terms to current literature he is surely right in saying that the modern debates raise no issues that would surprise Aquinas. The Platonists paid attention only to the immateriality of the human intellect while the pre-Socratic Ionians believed that knowledge is simply physical (cf *Summa Theologiae*, Ia 84, 2). The greater threat nowadays to the unitariness of the human being is, as Braine says, various forms of materialism and, in particular, some of the Artificial Intelligence theories. But mind-realized-in-brain theories are no different philosophically from soul-imprisoned-in-body ones. Even distinguished philosophers such as Norman Malcolm and Michael Dummett (themselves Christian) exhibit 'a reductionist tendency of a behaviourist kind' (page 192, of 392). The idea, on the other hand, that the person is invisible in a private world is 'a peculiar excrecence of post-Reformation thought, whether empiricist or existentialist' (page 495). David Braine, appealing frequently to Wittgenstein, Merleau-Ponty, Ryle and J.L. Austin, steers his way through these extremes and builds up a convincingly holistic account of human beings as animals which is, as he says, essentially the Aristotelian perspective which was mostly abandoned in the seventeenth century.

**The Human Person** David Braine, 2019-07-09 A philosophical work that addresses the validity of the question What is it for the human being to be an animal and for this animal to be a spirit Braine argues that the perspectives of materialism and dualism are different casts of the same flawed mold and offers a holistic alternative Braine further argues that perception is inseparable from behavior and that the human propensity to produce language separates us from other animals Culminating in a discussion of the meaning of death this is rich and passionate philosophical argument for the human being as animal and soul The Human Person David Braine, 1993-01-01 Phenomenology of the Human Person Robert

Sokolowski, 2008-05-12 In this book Robert Sokolowski argues that being a person means to be involved with truth He shows that human reason is established by syntactic composition in language pictures and actions and that we understand things when they are presented to us through syntax Sokolowski highlights the role of the spoken word in human reason and examines the bodily and neurological basis for human experience Drawing on Husserl and Aristotle as well as Aquinas and Henry James Sokolowski here employs phenomenology in a highly original way in order to clarify what we are as human agents Body, Soul, and Life Everlasting John W. Cooper, 2000 This widely acclaimed study of biblical anthropology is available once more along with a substantial new preface by the author Fully engaged with theological philosophical and scientific discussions on the nature of human persons and their destiny beyond the grave John Cooper's defense of holistic dualism remains the most satisfying and biblical response to come from the monism dualism debate First published in 1989

*Thomas Aquinas on the Immateriality of the Human Intellect* Adam Wood,2020 The chief aims of Thomas Aquinas on the Immateriality of the Human Intellect are to provide a comprehensive interpretation of Aquinas's oft repeated claim that the human intellect is immaterial and to assess his arguments on behalf of this claim Adam Wood argues that Aquinas's claim refers primarily to the mode in which the human intellect has its act of being That the human intellect has an immaterial mode of being however crucially underwrites Aquinas's additional views that the human soul is subsistent and incorruptible To show how it does so Wood argues that the human intellect's immateriality can also be put in terms of the impossibility of explaining its operations in terms of coordination between bodily parts states and processes Aquinas's arguments for the human intellect's immateriality therefore can be understood as attempts to show why intellectual operations cannot be explained in bodily terms The book argues that not all of them succeed in this aim and also proposes however a novel interpretation of Aquinas's argument based on human intellect's universal mode of cognition that may indeed be sound Wood concludes by considering the ramifications of Aquinas's position on matters pertaining to the afterlife Thomas Aquinas on the Immateriality of the Human Intellect represents the first book length examination of Aquinas's claim that the human intellect is immaterial and so given the centrality of this claim to his thought should interest any scholars interested in understanding Thomas While it focuses throughout on careful attention to Aquinas's texts along with the relevant secondary literature it also positions Thomas's thought alongside recent developments in metaphysics and philosophy of mind Hence it should also interest historically minded metaphysicians interested in understanding how Thomas's hylomorphism intersects with recent work in hylomorphic metaphysics philosophers of mind interested in understanding how Thomas's philosophical psychology relates to contemporary forms of dualism physicalism and emergentism and philosophers of religion interested in the possibility of the resurrection

**Unity of Body and Soul or Mind-Brain-Being?** Marcus Knaup,2018-11-21 The relationship between our living body and our soul our mental expressions of life and our physical environment are both classical topics for discussion and ones which currently present themselves as part of a truly exciting philosophical debate are we today still able to speak of a soul And what is meant by a living body German Leib Does our brain dictate what we will and do Or do we have free will Why are we the same people tomorrow that we were yesterday Given the discoveries of the modern neural sciences can human beings still be understood in the context of the unity of body and soul Or should we rather define ourselves as mind brain beings German Gehirn Geist Gestalten Marcus Knaup explores these questions and discusses the most relevant

approaches and arguments concerning the living body soul debate His own approach to current challenges presented by modern brain research emanates from his bringing together Aristotelian Hylomorphism and phenomenology of the living body German Leibnizian phenomenology

BOOK JACKET **The Spiritual Soul** Matthew J. Churchouse, 2024-04-30 What is the human soul What does it do How does it relate to the brain and body What is happening in the soul when a person encounters the Holy Spirit These are some of the questions addressed in *The Spiritual Soul* as it advances towards its overall goal of proposing a renewed Pentecostal Charismatic understanding of what constitutes a

human being In pursuing this overarching intention Churchouse responds to the anthropology of two leading Pentecostal scholars Amos Yong and Veli Matti K rkk inen specifically their theological models concerning what a human is constituted essentially made up of to offer an enhanced Pentecostal model in preference to their monistic view Drawing upon the sources of biblical studies the philosophy of mind and upon the pneumatology that flows from Pentecostal spirituality Churchouse advances a renewed understanding of the human soul one illumined by the spirit and the Spirit to engender his distinctive Pentecostal model of human constitution      *The Human Being as Spiritual Being Evolving through the Course of History* Rudolf Steiner, 2025-05-19 If we lived only in worlds of spirit as we do between death and a new birth we would never be able to acquire freedom there It is something we can only achieve by our efforts within the physical world Rudolf Steiner Rudolf Steiner s lucid account of our current phase of evolution focuses on the threefold human being and the significance of incarnation on Earth In a nuanced presentation he supports the modern scientific outlook but highlights the urgent need to broaden it emphasizing the importance of balance in thinking feeling and will Withdrawing into abstract intellectualism while letting feeling and will run amok leads to unconscious egotism and ultimately the War of All Against All In place of nebulous mysticism or narrow materialism Steiner calls on us to bring our thoughts feelings and actions under conscious self control so that for our benefit and society as a whole we can live our lives with clarity far sightedness and purpose Intrinsic to this reassessment of ourselves and our place in the universe is a recognition of death as a gateway to continuing existence Only by acknowledging our journey into the afterlife and our return to earth reincarnation will we take charge of a truly human evolution This previously unpublished course of lectures released in tandem with the twin course in CW 205 features an introduction by Matthew Barton notes and an index Eleven lectures Dornach July Aug 1921 GA 206
