The Human Position:

Phenomenology and the Human Positioning in the Cosmos Anna-Teresa Tymieniecka, 2012-10-11 The classic conception of human transcendental consciousness assumes its self supporting existential status within the horizon of life world nature and earth Yet this assumed absoluteness does not entail the nature of its powers neither their constitutive force This latter call for an existential source reaching beyond the generative life world network Transcendental consciousness having lost its absolute status its point of reference it is the role of the logos to lay down the harmonious positioning in the cosmic sphere of the all establishing an original foundation of phenomenology in the primogenital onto-poiesis of life *The Human Position* Robert E. Brooks, 1988 *Mechanics of Structures and Materials XXIV* Hong Hao, Chunwei Zhang, 2019-08-08 Mechanics of Structures and Materials Advancements and Challenges is a collection of peer reviewed papers presented at the 24th Australasian Conference on the Mechanics of Structures and Materials ACMSM24 Curtin University Perth Western Australia 6-9 December 2016 The contributions from academics researchers and practising engineers from Australasian Asia Pacific region and around the world cover a wide range of topics including Structural mechanics Computational mechanics Reinforced and prestressed concrete structures Steel structures Composite structures Civil engineering materials Fire engineering Coastal and offshore structures Dynamic analysis of structures Structural health monitoring and damage identification Structural reliability analysis and design Structural optimization Fracture and damage mechanics Soil mechanics and foundation engineering Pavement materials and technology Shock and impact loading Earthquake loading Traffic and other man made loadings Wave and wind loading Thermal effects Design codes Mechanics of Structures and Materials Advancements and Challenges will be of interest to academics and professionals involved in Structural Engineering and Materials Science *Intelligent Autonomous Systems 18* Soon-Geul Lee, Jinung An, Nak Young Chong, Marcus Strand, Joo H. Kim, 2024-04-24 Intelligent autonomous systems are increasingly being applied in various fields ranging from industrial applications to professional services and household domains These advancements in technology and application domains have brought forth the need for continuous research and development to address new challenges in deploying intelligent autonomous systems in a reliable and user independent manner This book is a compilation that aims to serve researchers and practitioners in related fields by providing a timely dissemination of recent progress in the areas of autonomous mobility and robotics The contents of this book are based on a collection of papers presented at the 18th International Conference on Intelligent Autonomous Systems IAS18 2023 held at the Suwon Convention Center in Suwon Korea The conference took place fully in person from July 4 to 7 2023 with the theme Impact and Effect of AI on Intelligent Autonomous Systems It encompassed discussions on theories applications and creative innovations in intelligent autonomous systems covering topics such as autonomous vehicles intelligent agents smart sensors and actuators smart haptics human machine interaction digital twin digital health and metaverse VR AR or MR For ease of reading the 91 papers have been grouped into five chapters

Chapter 1 Intelligent Autonomous Vehicles Chapter 2 Autonomous Robots Chapter 3 Intelligent Perception and Sensors Chapter 4 Data Fusion and Machine Learning for Intelligent Robots and Chapter 5 Applied Autonomous Systems The articles included in this book underwent a rigorous peer review process and were presented at the IAS18 2023 conference For researchers working in the field of intelligent autonomous systems technology we believe this book provides valuable insights into recent advances in autonomous technologies and applications thereby enriching their studies We extend our heartfelt thanks to all the authors and editors who contributed to this edition

Mechatronics for Safety, Security and Dependability in a New Era Eiji Arai,Tatsuo Arai,2006-09-07 Mechatronics for Safety Security and Dependability in a New Era contains selected leading papers from the International Conference on Machine Automation 2004 the work of researchers from USA Japan China and Europe The topics covered include manufacturing systems such as CAD CAM machining and human factors in manufacturing robotics in relation to sensors and actuators new control technology and measuring and monitoring the application of new technologies in connection with wireless communication human behavior analysis and welfare Mechatronics has been rapidly developing as an important area that affects all areas of society from industrial robots automobiles electrical appliances computers and consumer goods etc It also plays a role in safety recovery such as for rescue tasks after disasters destruction of hazardous and abandoned weapons and the restoration of polluted environments The increasing need for safe secure and dependable technology means that the advancement of mechatronics plays an essential role in the development of products and systems This book provides an insight into developments in essential new methodologies and tools to design and to build machines to achieve this Covers key topics in manufacturing such as machining robotics sensors monitoring etc Reviews modern applications of new technologies in connection with wireless communication human behavior analysis and welfare

The Humanities and the Modern Politics of Knowledge Anders Ekström, Hampus Östh Gustafsson, 2025-10-01 This book addresses the shifting status of the humanities through a national case study spanning two centuries The societal function of the humanities is considered from the flexible perspective of knowledge politics in order to historicize notions of impact and intellectual organization that tend to be taken for granted The focus on modern Sweden enables an extended but still empirically coherent historical analysis inviting critical comparisons with the growing literature on the history of the humanities from around the world In the Swedish case the humanities were instrumental to the construction of modern societal institutions political movements and professional education in the second half of the 19th century while in the 20th century the sense of future making shifted towards science and medicine and later technology and economy The very rationale of the humanities was thus put under pressure as their social contract required novel negotiations Their state and connections to society were nevertheless of a complex and ambiguous character as is

demonstrated by this volume whose contributions explore the many faces and places of the modern humanities Being Human, Being Migrant Anne Sigfrid Grønseth, 2013-10-01 Migrant experiences accentuate general aspects of the human condition Therefore this volume explores migrant s movements not only as geographical movements from here to there but also as movements that constitute an embodied cognitive and existential experience of living in between or on the borderlands between differently figured life worlds Focusing on memories nostalgia the here and now social experiences of daily living and the hopes and dreams for the future the volume demonstrates how all interact in migrants and refugees experience of identity and quest for well being

Human Birth Wenda R. Trevathan, 2017-07-05 The story of human evolution has been told hundreds of times each time with a focus that seems most informative of the teller No matter how it is told the primary characters are rarely mothers and infants Darwin argued survival but today we know that reproduction is what evolution is all about Centering on this Trevathan focuses on birth which gives the study of human evolution a crucial new dimension Unique among mammals humans are bipedal The evolution of bipedalism required fundamental changes in the pelvis and resulted in a narrow birth canal Humans are also large brained animals which means that birth is much more challenging for our species than for most other animals The result of this mismatch of large head and narrow pelvis is that women are highly dependent on assistance at birth and their babies are born in an unusually undeveloped state when the brain is still small Human Birth discusses how the birth process has evolved and ways in which human birth differs from birth in all other mammals Human Birth is also concerned with mother infant interaction immediately after birth While working as a midwife trainee Trevathan carefully documented the births of more than one hundred women and recorded maternal and infant behaviors during the first hour after birth She suggests ways in which the interactions served not only to enhance mother infant bonding but also to ensure survival in the evolutionary past With clarity and compelling logic Trevathan argues that modern birth practices often fail to meet evolved needs of women and infants and suggests changes that could lead to better birth experiences This paperback edition includes a new introduction by the author

Jesus Christ, Hermeneutics, and Scripture Hans Burger, 2024-04-18 Soteriology not epistemology is the best entrance to theological hermeneutics and to the doctrine of Scripture The triune God uses Scripture to make the community of believers live in Christ We hear the words of Scripture in the light of Easter and Pentecost We understand Scripture from faith in Christ and with the mind of Christ At the same time we come to know Christ in Scripture and we receive the mind of Christ by reading Scripture We remain in Christ by remaining in the Word Understanding Scripture and Christlikeness mutually reinforce each other Living a Christian life with God and our neighbor in God's world will deepen our understanding of Scripture This book explores the complex relationships between Jesus Christ participation in Christ theological hermeneutics and the doctrine of Scripture It shows the necessity of a holistic approach of life knowledge understanding and renewal

The Human Position: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
