Our Spiritual Destiny Frederick R. Kipp, 2007-10-22 *Our Spiritual Destiny* Manifesting New Bodies discusses the ways that evolutionary forces are continuing to unfold through all gradations of life It explains the purpose of human life as the expansion of Consciousness in matter through ongoing body development We have the choice to fulfill this purpose consciously at an accelerated pace by changing and raising the matter of our bodies to a level of our divine essence Utilizing the capacities of our Higher Selves within an initiatory framework of growth and transmutation we can actively participate in

our body development thereby helping to expedite the manifestation of new bodies The following are passages from various chapters in the book From Alignment Clarification Many of the ancient wisdom traditions sacred religious texts and modern day writers have all alluded to some form of physical transcendence life extension or the raising and refinement of the physical body From the past each culture religion or entity has its own interpretation and language of what the stories mean or symbolize and how they apply to the present day I believe that many of these references relate to physical ascension physical body perfection or physical immortality All include the same premise that our bodies are of a nature and essence which enable their transformation From Our Journey into Matter I have come to see all of creation as a work in progress gradually working its way towards fulfillment Through evolutionary forces matter is continually being prepared to express ever higher aspects of Consciousness in our physical life It may not always seem like it but I also believe we are important agents of change for the expansion of consciousness in the world Our immortal human spirit repeatedly reincarnates within humanity with increasing experience to help unfold and expand a higher plan for matter However our main problem with this task is that by taking physical form in matter bodies we cannot remember our divine origins in the inner unseen realms From Remembering Some religious scholars suggest that the essence of all sacred material is somehow buried deep within our being If this is true then helping us remember must be the intent and purpose of all divinely inspired sacred books spiritual literature and cultural myths in the world Somewhere in our Being or Higher Self we already know the purpose of physical life in matter As evolution progresses and our consciousness expands through time we are incrementally working towards remembering this purpose From Spiritual Orientation and Alignment For most of us the physical demands of our daily lives capture our conscious attention and vital energies This happens gradually within our ritualized patterns and daily activities Through this physical focus and orientation the crystallizing force in matter constructs barriers within our consciousness and bodies that maintain and reinforce this alignment Because of its compelling and coalescing nature our life energies are drained through attachment to the form and routine of our lives As a result we usually feel and believe we have little left over to devote to our spiritual development From Health and New Body Alignment Most people have grown up with a body centered identity Everything about living in the world seems to condition us to identify with this orientation The realities of physical life throughout history have encouraged us to strengthen build up or perfect our natural body in one way or another This alignment has ensured the survival of our species Even today in our modern world we continue to value the attributes of physical strength fitness and vitality as the ultimate experience of a good life From the standpoint of our present bodies and our collective beliefs about them this orientation is helpful and necessary However **The Initiation of the World** Vera Stanley Alder,2008-01-01 In this outline of the secret wisdom of the divine plan Vera Stanley Alder uses her rare gift for condensing and synthesizing the essentials of esoteric teachings to reveal the many aspects of Ancient Wisdom and its relationship to presentday scientific knowledge What makes this classic work so popular is Alder s simple and unintimidating

presentation of the various forms of personal initiation According to Alder we each hold the key to Ancient Wisdom if we open ourselves to recognize the universal knowledge that resides within This book is a guide to the conscious realization of the wholeness of life as we evolve throughout a lifetime

Initiation, Human and Solar Alice Bailey,2023-12-29 In *Initiation Human and Solar* Alice Bailey offers a profound exploration of spiritual evolution and the transformative processes involved in initiation viewed through both human and cosmic lenses The book is marked by Bailey s characteristic blend of esoteric thought and accessible prose grounding complex metaphysical concepts within the spiritual context of the early 20th century Drawing from the teachings of Theosophy and her own extensive studies Bailey articulates a vision of initiation that transcends individual experience linking it to the broader cosmic purpose and the evolution of human consciousness within the universe Alice Bailey was a pioneering figure in the realm of esoteric spirituality co founding the Arcane School and establishing the Lucis Trust which continues to promote her teachings today Her works are informed by a rich tapestry of mystical traditions including Eastern philosophy and Western occultism Bailey s background in sociology and her personal experiences with spiritual leaders and movements have shaped her insight into the path of initiation as a universal quest for enlightenment and alignment with divine purpose For readers seeking to deepen their understanding of spiritual evolution *Initiation Human and Solar* is an indispensable guide Bailey invites us to engage with the mysteries of existence and encourages a reflective journey towards personal and collective awakening This book is not only a foundational text for students of esoteric traditions but also a thought provoking exploration for anyone interested in the unfolding of human potential
