The Himmler Equation:

The Himmler Equation William P. Kennedy, 1989 **Himmler's Auxiliaries** Valdis O. Lumans, 2000-11-09 Lumans studies the relations between Nazi Germany and the German minority populations of other European countries examining these ties within the context of Hitler's foreign policy and the racial policies of SS Chief Heinrich Himmler. He shows how the Reich's racial and political interests in these German minorities between 1933 and 1945 helped determine its behavior toward neighboring states. Originally published in 1993. A UNC Press Enduring Edition. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value.

Hitler's Monsters Eric Kurlander, 2017-06-06 A dense and scholarly book about the relationship between the Nazi party and the occult reveals stranger than fiction truths on every page. Daily Telegraph. The Nazi fascination with the occult is legendary yet today it is often dismissed as Himmler's personal obsession or wildly overstated for its novelty. Preposterous though it was, however, supernatural thinking was inextricable from the Nazi project. The regime enlisted astrology and the paranormal, paganism, Indo-Aryan mythology, witchcraft, miracle weapons, and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion. In this eye-opening history, Eric Kurlander reveals how the Third Reich's relationship to the supernatural was far from straightforward. Even as popular occultism and superstition were intermittently rooted out, suppressed, and outlawed, the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power, shape propaganda and policy, and pursue their dreams of racial utopia and empire. Kurlander shows how swiftly irrational ideas can take hold even in an age before social media. The Washington Post. Deeply researched, convincingly authenticated, this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish. The Spectator. A trustworthy book on an extraordinary subject. The Times. A fascinating look at a little understood aspect of fascism. Kirkus Reviews. Kurlander provides a careful, clear-headed and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits. National Review.

Thinking Against the Grain Rodger Beehler, 2007 This work is a connected series of essays on morality, education, law, and society. All of the essays indeed think against the grain, challenging some of the dominant thinkers and fashions of our time in a strikingly original and penetrating way. They force the reader to consider our hegemonic values, how we are to live our lives, and view our world. Political theorists, social scientists, philosophers, educators, legal scholars, and cultural and literary theorists will find them profitable to study. While the book meets the standards expected by such scholars, its essays are written in a lively and accessible manner which also makes them of interest to the general educated public. Written by the late Dr. Rodger Beehler, this work imparts the wisdom and insights of writers who instruct and amuse the reader on matters of our predominant values.

Executioners Christopher Hale,2011-04-11 In *Hitler's Foreign Executioners* Heinrich Himmler's secret master plan for Europe is revealed an SS empire that would have no place for either the Nazi Party or Adolf Hitler His astonishingly ambitious plan depended on the recruitment of tens of thousands of Germanic peoples from every corner of Europe and even parts of Asia to build an SS Europa This revised and fully updated book researched in archives all over Europe and using first hand testimony exposes Europe's dirty secret nearly half a million Europeans and more than a million Soviet citizens enlisted in the armed forces of the Third Reich to fight a deadly crusade against a mythic foe Jewish Bolshevism Even today some apologists claim that these foreign SS volunteers were merely soldiers like any other and fought a decent war against Stalin's Red Army Historian Christopher Hale demonstrates conclusively that these surprisingly common views are mistaken By taking part in Himmler's murderous master plan these foreign executioners hoped to prove that they were worthy of joining his future SS Europa But as the Reich collapsed in 1944 Himmler's monstrous scheme led to bitter confrontations with Hitler and to the downfall of the man once known as loyal Heinrich Kirkus Reviews ,1990 Adult books are categorized by genre
