The Historians Of Greece And Rome By Usher Stephen:

The Historians of Greece and Rome Stephen Usher, 1969 **Rhetorical Adaptation in the Greek Historians, Josephus, and Acts vol.I** John M. Duncan, 2022-10-24 Greco Roman rhetorical theorists insist that speakers must adapt their speeches to their audiences in order to maximize persuasiveness and minimize alienation Ancient historians adorn their narratives with accounts of attempts at such rhetorical adaptation the outcomes of which decisively impact the subsequent course of events These depictions of speaker audience interactions moreover convey crucial didactic persuasive insights to the historians own audiences This monograph presents a detailed comparative analysis of the intra and extra textual functions of speeches and audience responses in Greek historiography Josephus and Acts with special emphasis on Luke s distinctive depiction of the apostles as adaptable yet frequently alienating orators This is volume I of a set of two volumes

Miles, 2018-09-05 Some critics of the Roman historian Livy 59 B C A D 17 have dismissed his work as a compendium of stale narratives and conventional attitudes Gary B Miles reveals in Livy s history a creative interplay between traditional stories contemporary ideological assumptions and the historian s own perspective at the margins of Roman aristocracy Drawing on a range of critical approaches Miles considers Livy s stance as a historian the ways in which he reworked his sources and his interpretation of such historical phenomena as recurrence continuity and change Miles focuses on the foundation stories with which Livy begins his account detecting in Livy s rendition certain original conceptions of historical time including the suggestion that Roman identity and greatness might be preserved indefinitely through successive reenactments of a historical cycle Miles pays particular attention to two stories those of the abduction of the Sabine women and of Romulus and Remus showing how Livy s versions of these traditional narratives far from leading to a simplistic moral address unresolved political issues of his day According to Miles Livy shows an unusually tenacious willingness to confront dilemmas in historiography and Roman ideology which were commonly ignored or suppressed by both his predecessors and his contemporaries **The Fall of the Roman Empire, 2nd Edition** Rita J. Markel, 2013-01-01 Can the demise of a government 1 500 years ago have repercussions felt around the globe centuries later If that government is the powerful

Roman Empire it can From first century B C through fifth century A D the Romans ruled over an empire that stretched across much of Europe the Middle East and North Africa Then in 476 a leader from a Germanic group called the Goths overthrew the Roman Emperor To this day questions still exist about how such a powerful empire could have been destroyed Roman culture language and technology had great influence on all areas under the empire s control After the fall Europe entered the early Middle Ages a period of fragmentation characterized by a decline in trade learning and artistic achievement The rise and fall of the Roman Empire are one of world history s most pivotal moments

The Early Origins of the Social Sciences Lynn McDonald,1996 This study traces the methodological foundations research techniques and basic concepts of the social sciences from their earliest origins to the beginning of 20th century It discusses the French Enlightenment British moral philosophy and includes figures from the 19th century such as Marx

Ideology and Social Order (RLE Social Theory) Eric Carlton,2014-08-13 Truly interdisciplinary work between Sociology and History is are because one discipline usually exploits the concerns or data of the other Eric Carlton however has succeeded in bringing together the distinctive orientations of sociology and ancient history into a clearly written discussion of concerns crucial to both disciplines Based on a comparative analysis of two pre industrial civilisations those of Ancient Egypt and Classical Athens the study is primarily concerned with three issues The first is the relationship between belief and action does belief intellectualised as ideology affect or determine social behaviour Second the author examines the ways in which belief contributes to stability and good order in society and asks to what extent such factors as social status and social change are related to institutionalised mechanisms of social control Finally he indicates possible sociological frameworks or models which are ideological rather than stratificatory whereby complex pre industrial systems might be analysed By analysing the societies of Ancient Egypt and Classical Athens in institutional terms Eric Carlton examines the potency and pervasiveness of the ideological factor and shows that it is a persistent and determinative feature of this type of society

The Divine in Acts and in Ancient Historiography Scott Shauf,2015 Scott Shauf compares the portrayal of the divine in Acts with portrayals of the divine in other ancient historiographical writings the latter including Jewish and wider Greco Roman historiographical traditions This book explores especially how the divine is represented as involved in history the nature of divine retribution the partiality or impartiality of the divine toward different sets of people and the portrayal of divine control over seemingly purely natural and human events Acts is shown to be engaging historiographical traditions of the author s own day but also contributing unique historiographical perspectives

War in Roman Myth and Legend Paul Chrystal,2020-12-31 An enlightening look at the importance of war gods and their myths to the ancient Romans This book redresses the relative lack of work published on the role of war in classical myth and legend At the same time it debunks the popular view that the Romans had little mythology of their own and idly borrowed and adapted Greek myth to suit their own ends While this is true to some extent War in Roman Myth and Legend clearly demonstrates a rich and meaningful independent mythology at work in Roman culture The book

opens by addressing how the Romans did adopt and adapt Greek myths to fashion the beginnings of Roman history it goes on to discuss the Roman gods of war and the ubiquity of war in Roman society and politics and how this was reflected in the Aeneas Foundation Myth the Romulus and Remus Foundation Myth and the legends associated with the founding of Rome Also discussed are warlike women in Roman epic Trojan heroes and the use of mythology by Roman poets other than Virgil The Theban Legion and the vision of Constantine myths conclude the journey *Xenophon's Socratic Rhetoric* Dustin A. Gish, 2022-11-28 In one of the most charming works to survive from classical antiquity Xenophon's Symposium depicts an amiable evening of wine entertainment and conversation shared by Socrates and a few of his associates with certain Athenian gentlemen who are gathered to honor a young man for his recent victory in the Panathenaic games The subtle playfulness which characterizes the animated discussions conceals a light hearted yet surprisingly philosophical inquiry regarding the rival claims of virtue articulated and defended by the Socratics and gentlemen to establish the praiseworthiness and excellence of their competing ways of life Gentlemanliness taken as an admired political virtue and philosophy as pursuit of wisdom and self sufficiency emerge as contested ideas about what constitutes the path to human happiness especially in response to the beautiful and its compelling arousal of erotic desire in the body and soul Offering a comprehensive account and interpretation of the Symposium this book follows the speeches and action of the dialogue through its many twists and turns from beginning to end with particular attention to the place of rhetoric in the argument of the work as a whole Thus Xenophon's Socratic Rhetoric examines foundational aspects of the philosophic life manifest in the words as well as deeds of Socrates in this dialogue starting from an original reading of the opening scene as a harbinger of the competition in wisdom that occurs over the course of the symposium and concluding with a provocative consideration of conjugal erotics as the continuation and completion of the Socratic logos about the role of love in guiding human beings toward virtue and happiness **Lessons from the Past** Frances Anne Pownall, 2010-02-09 Deepens our understanding of the Greek tendency to view the past as a source for contemporary moral lessons *National Union Catalog* ,1979

Reconstructing Western Civilization Barbara Sher Tinsley, 2006 This is a collection of eleven essays laced with humor and irony on the Dawn of Man Mesopotamia Egypt Hebrews Minoans and Mycenaens classical Greece Alexander the Great the Hellenistic world Rome's Republic and Empire and several church fathers Irenaeus Tertullian Jerome and Augustine who influenced the Primitive Church Tinsley highlights current research while showcasing themes of contemporary as well as ancient significance misogyny the manipulation of rhetoric to justify privilege the contributions of the anonymous to the well being of the famous the paradox of progress the distortion of prophecy the use and misuse of myth and other media the exploitation of spiritual intellectual physical and sexual resources the comforts and perils of provincialism versus the dangers and benefits of organization spiritual imperial or both **A New History of the Humanities** Rens Bod, 2013 Offers the first overarching history of the humanities from Antiquity to the present **Books in Print Supplement** ,1985

Authenticating Criteria in Jesus Research and Beyond Kevin B. Burr, 2023-10-16 Are the criteria of authenticity of Jesus research idiosyncratic to New Testament studies vehicles of subjectivity and fundamentally flawed vestiges of form criticism as some claim today If so why do opponents of the criteria approach still use them Or are the criteria the tools of general historiography as others assert If true none have adequately demonstrated where and how principles such as multiple attestation general and historical coherence dissimilarity and embarrassment feature in general historiographic method until now This study analyzes the methods of general historians and Jesus researchers who favor or oppose the criteria and demonstrates that regardless of sub discipline authenticating criteria are inherent to the practice of historiography

Keeping the Church in Its Place Richard P. Thompson, 2006-11-15 Thompson's study offers a fresh reading of Acts that keeps the church within its literary place within that narrative His study uncovers descriptions of the church that emphasize certain characteristics presented in the opening scenes of the narrative the blessing and presence of God the unanimity of the believers the communal caring for one another and the proclamation of the gospel The progression of the Acts narrative presents an evolving image of the church that eventually includes both Jewish and non Jewish believers of the gospel with growing opposition from the Jewish people and even from the Jewish believers in Jerusalem This dynamic portrait of the church in the book of Acts contrasts three different views concerning the people of God the Jewish people as the historical people of God Jewish believers as represented by the Jerusalem church and the church that includes both Jews and Gentiles By offering such a dynamic narrative of these various groups of believers Acts encourages readers to define and identify the church or Christian community as the people who belong to God rather than those whose identity as God's people is based on historical or religious categories

A Harmony Within: Five Who Took Refuge William A. Reinsmith, 2007-05-22 We live in increasingly troubled times with social and political instability everywhere on the globe It is a time of breakdown of massive transition whose end is far from sight Incessant change fragmentation loss of moorings sporadic violence even in the Western societies threaten many who seek to live meaningful lives especially in terms of inward growth To the media driven observer the world is in turmoil and globalization by no means a friendly word Similar conditions have prevailed at certain times in the past Reinsmith's point of entry is just at those periods of crisis those transition periods when social cohesion has all but disintegrated A Harmony Within explores five such points in the history of Western civilization the breakdown of the ancient Greek city state the last days of the Roman Empire the religious wars in France during the sixteenth century the transition to the Industrial Age in nineteenth century America the cataclysm of World War I in Europe Within each historical frame the author charts the life and times of one individual who even in the midst of discord finds a way of living fruitfully of making a profound connection which transcends the uncertainties of his particular age In ancient Greece the philosopher Epicurus withdrew from Athens to teach inner tranquility ataraxia to his friends At the end of the Roman era St Benedict founded a safe haven at Monte Casino where he created the Rule which offered spiritual security

to his monks With strife all around him Michel Montaigne quit public life and retreated to his Tower to mingle with the great minds of the past Viewing the desperation drudgery of his fellow citizens Henry David Thoreau repaired to Walden Pond there to live alone with Nature for almost two years In a Europe slowly moving toward war Albert Einstein found refuge in the Cosmos where he could contemplate the laws of the physical universe The names of these five individuals are known to the educated general reader Each of them lived in a different era discovered a different track Yet they had one thing in common They chose neither to grapple with their own society nor directly aid in the coming of the next They did something more radical They withdrew they chose to walk away to take refuge and follow a path where inner harmony could be attained They took arms against the troubles of their age not by encounter but by creative withdrawal Epicurus The Refuge of Philosophy St Benedict The Refuge of Religion Montaigne The Refuge of Letters Thoreau The Refuge of Nature Einstein The Refuge of Pure Science For each of these figures their refuge proved life enhancing Yet a great paradox ensued Though they withdrew from the society of their times what they accomplished reached far beyond them into the future Epicurean communities spread throughout the ancient Mediterranean world and lasted for five hundred years Benedictine monasticism provided Western Europe with spiritual direction down to the Middle Ages Montaigne's Essays have found their place among the annals of great literature Thoreau's stay at Walden Pond immortalized in his journal Walden became the exemplar for living with Nature and a guide for achieving radical simplicity Einstein's four papers written during his years in a Swiss Patent office would be the foundation for the theories of special and general relativity as well as quantum physics all of which would change our view of the universe Each chapter opens with a brief sketch of the age in which a protagonist lives and against which he reacts To this extent A Harmony Within presents a rough outline of Western civilization in crisis But the heart of the book lies in portraying how these five great spirits nursed a calling which brought inner harmony to their lives a harmony which seems to elude most humans at any period reg
