The History of Baltimore's Streetcars Michael R. Farrell,1992 History of Baltimore s streetcars from 1859 to 1992

Baltimore Streetcar Memories Kenneth C. Springirth,2017 Baltimore was the first United States city to begin regularly scheduled electric railway service in 1885 However because of technical problems the line had to go back to horse car operation After Frank J Sprague developed an electric streetcar powered by an overhead wire for Richmond Virginia Baltimore adopted the new system and in 1893 opened the first electric line in the United States to operate on an elevated structure By 1899 Baltimore streetcar lines with their unique 5 foot 4 5 inch track gauge were unified by the United Railways and Electric Company which purchased 885 semi convertible cars with windows that could be raised up for summer operation and lowered for winter operation Baltimore Transit Company was the third United States system to introduce modern Presidents Conference Committee PCC cars and at its peak operated the eighth largest fleet of these cars A combination of factors including a ridership decline and making many downtown streets one way contributed to conversion to an all bus system Baltimore Streetcar Memories is a photographic essay of history of the Baltimore Maryland streetcar system up to its closure in 1963 and the return of a modern streetcar light rail system 29 years later in 1992 Amazon com

Baltimore Streetcars Herbert H. Harwood,2003-09-26 Herbert H Harwood here gives us a glorious picture of Baltimore in the heyday of the streetcar combining the story of lines and equipment with a nostalgic view of Baltimore when so many of her people relied on street railways From the late 1800s through World War II streetcars transported Baltimore s population to and from work play and just about everything else Bankers and clerks factory workers and managers domestics schoolchildren shoppers all rode side by side on the streetcars regardless of economic status level of education or ethnic background In a city where residences and schools were segregated streetcar passengers sat wherever they could In addition to being a truly democratic institution streetcars considerably influenced Baltimore s physical growth enabling families to live farther than ever before from workplaces and thus encouraging early suburbs Despite rising competition from the private automobile streetcars remained the mainstay of Baltimore s public transportation system until after World War II when gas rationing ended and family cars multiplied Environmentally friendly and for the most part comfortable and reliable streetcars also had their peculiar charm Today some people in Baltimore miss them *Baltimore's Streetcars and Buses* Gary Helton,2008 In the 1850s Baltimore s 170 000 residents had few options when it came to getting around town Before the decade s end however the omnibus an urban version of the stagecoach emerged as Baltimore s first mass transit vehicle Horsecars followed then cable cars and ultimately electrically powered streetcars Recognizing the need for cohesion the city s myriad transit providers merged into a single operator United Railways and Electric Company incorporated in 1899 faced the unenviable task of integrating routes being served by inadequate incompatible and often obsolete equipment Over the next seven decades privately run mass transit in Baltimore survived bankruptcy a name change two world wars the

proliferation of private automobiles a takeover by out of town interests and a plethora of new vehicles Arguably a unified system of privately operated mass transit was no closer to being a reality in 1970 when it reached the end of the line and was taken over by the state

Baltimore's Streetcars and Buses Gary Helton, 2008-04 In the 1850s Baltimore's 170 000 residents had few options when it came to getting around town Before the decade's end however the omnibus an urban version of the stagecoach emerged as Baltimore's first mass transit vehicle Horsecars followed then cable cars and ultimately electrically powered streetcars Recognizing the need for cohesion the city's myriad transit providers merged into a single operator United Railways and Electric Company incorporated in 1899 faced the unenviable task of integrating routes being served by inadequate incompatible and often obsolete equipment Over the next seven decades privately run mass transit in Baltimore survived bankruptcy a name change two world wars the proliferation of private automobiles a takeover by out of town interests and a plethora of new vehicles Arguably a unified system of privately operated mass transit was no closer to being a reality in 1970 when it reached the end of the line and was taken over by the state

The Baltimore Rowhouse Charles Belfoure, Mary Ellen Hayward, 2012-03-20 Perhaps no other American city is so defined by an indigenous architectural style as Baltimore is by the rowhouse whose brick facades march up and down the gentle hills of the city Why did the rowhouse thrive in Baltimore How did it escape destruction here unlike in many other historic American cities What were the forces that led to the citywide renovation of Baltimore's rowhouses The Baltimore Rowhouse tells the fascinating 200 year story of this building type It chronicles the evolution of the rowhouse from its origins as speculative housing for immigrants through its reclamation and renovation by young urban pioneers thanks to local government sponsorship to its current occupation by a new cadre of wealthy professionals

History Lover's Guide to Baltimore, A Brennen Jensen, 2021 Neither southern nor northern Baltimore has charted its own course through the American experience The spires of the nation's first cathedral rose into its sky and the first blood of the Civil War fell on its streets Here enslaved Frederick Douglass toiled before fleeing to freedom and Billie Holiday learned to sing Baltimore's clippers plied the seven seas while its pioneering railroads opened the prairie West The city that birthed The Star Spangled Banner also gave us Babe Ruth and the bottle cap This guide navigates nearly three hundred years of colorful history from Johns Hopkins's earnest philanthropy to the raucous camp of John Waters and from modest row houses to the marbled
