**A History of the World's Religions** David S. Noss, Blake R. Grangaard, 2008 Refined by over forty years of dialogue and correspondence with religious experts and practitioners around the world this text is widely regarded as the hallmark of fairness and accuracy in its field It is also the most comprehensive history of world religions available in a single volume treating many subjects largely neglected in other texts from publisher description *The History of Religions* Ugo Bianchi, 1975 *The History of Religions* E. Washburn Hopkins, 2015-06-16 Excerpt from The History of Religions In the language of one of the save races mentioned in this volume the word religion means the sacred tree Although innocent of allegory yet as in many other regards in this definition the savage has suggested a profound truth For religion is as it were a tree Its roots lie deep in the darkness of primeval earth its growth must precede its sheltering foliage and its unripened fruits are not pleasant Yet watered by a living spring it has risen out of a soil black and even gruesome since blood too has fertilized it but risen nevertheless it has slowly exalting itself heavenward and under it sits nearly all mankind In the course of this volume we shall study the roots and the higher growth of this tree which through its age long development as any tree changes its earth drawn sustenance into something more ethereal has transmuted terror into reverent awe hunger into hope lust into love We shall trace the slow progress of such roots of religion as bear today the names taboo fetishism totemism see how taboo invested with spiritual power the moral command insured the home and made for civilization how fetishism confirmed the thought that man depends on a I spiritual something gave faith in a power that helped and I made that power the judge of right and wrong how I totemism linked man in communion with the divine and I in conjunction with seasonal nature worship founded ritual I in the recurrent form necessary to religious stability We I

shall see in short that the higher not only is above the i lower but that it has ascended out of the lower Savagery did not give place to civilization but developed into it was i already civilization in the germ About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The History of Religions* Edward Washburn Hopkins,1918 *The History of Religion* Allan Menzies,1901 **The History of Religion. Edited, with Notes, by ... R. M. Evanson* John Evelyn,1850 *Introduction to the History of Religions* Crawford Howell Toy,2014-04-09 Excerpt whistling Or ordinary human actions might be imitated a stick thrown or pointed toward an enemy it was 395 believed would cause a spear to enter his body 1538 a hostile glance of the eye indicating desire to inflict injury might carry ill luck 1539 In such cases the fundamental conceptions are the sympathy that comes from unity and the activity of the pervasive mana These conceptions are visible in procedures in which action on a part of the human body or on an image or picture of it was supposed to reach the body itself The possession of a piece of the bone skin hair or nail of a man might enable one who had knowledge of superhuman laws and processes to affect the man with sickness or even to cause his death Contact of objects naturally suggests their unity but the sympathy between them was not held to be dependent on contact a man s bone remained a part of him however far it might be separated from him A dead body did not lose its virtues the qualities of a dead warrior might be acquired by eating his flesh The mysterious unity of things seems to have resided in savage thought in the omnipresent mana a force independent of human limitations Not that there was a definite theory on the subject but something of this sort seems to be assumed in the ideas and usages of many low tribes 1540 On the other hand a magical effect may be set aside by magic A sick man believing his sickness to be the work of a magician the usual savage theory of the cause of bodily ills sends for another magician to counteract the evil work and a magician failing to cure his patient ascribes his failure to the machinations of a powerful rival In all such cases the theory and the methods are the same the magic that cures is not different in principle though it may differ in details from the magic that kills 887 The facts observed by practicers of magic probably contributed to the collections of material that furnished the *The History of Religion* John Evelyn,1850

*An Introduction to the History of Religion (Routledge Revivals)* F. B. Jevons, 2014-07-17 First published in 1902 this book investigates the history and development of early religion from an anthropological perspective Rather than dealing with religions that grew from the teachings of their original founders such as Christianity Islam and Buddhism Jevons considers those religions that were practised as a matter of custom and tradition The title considers such subjects as the supernatural life and death animal sacrifice and the worship of nature It provides an introduction to the history of religion for students of religion anthropology and folklore

**Discovering God** Rodney Stark, 2024-02-27 An award winning sociologist s fascinating and excellent history of the origins of the great religions from the Stone Age to the Modern Age Newsweek In *Discovering God* Rodney Stark surveys the birth and growth of religions around the world from the prehistoric era of primal beliefs the history of the pyramids found in Iraq Egypt Mexico and Cambodia and the great Axial Age of Plato Zoroaster Confucius and the Buddha to the modern Christian missions and the global spread of Islam He argues for a free market theory of religion and for the controversial thesis that under the best unimpeded conditions the true most authentic religions will survive and thrive Many modern biologists and psychologists claim that religion is a primitive survival mechanism that should have been discarded as humans evolved that in modern societies faith is a misleading crutch and an impediment to reason Stark responds to this position arguing that it is our capacity to understand God that has evolved that humans now know much more about God than they did in ancient times Winner of the 2008 Christianity Today Award of Merit in Theology Ethics

*An Introduction to the History of Religion* Frank Byron Jevons, 2015-06-04 Excerpt from *An Introduction to the History of Religion* In this book the history of early religion is investigated on the principles and methods of anthropology and in the belief that the interests of truth and religion are fundamentally identical The work is intended primarily for students who require an introduction to the history of religion but will also it is hoped prove interesting to students of folk lore and anthropology and to the wider circle of general readers As far as I am aware there is no other book which covers exactly the same ground as this does or which attempts to summarise the results of recent anthropology to estimate their bearing upon religious problems and to weave the whole into a connected history of early religion Thus far then this book is original namely as far as regards the use to which its materials are put but the materials themselves are largely though not wholly derived from the writings of others In all cases I have endeavoured to express my obligations in the footnotes I am however more especially bound to mention here the name of the

late Professor Robertson Smith to whose Religion of the Semites my obligations are too great for their expression to be confined to footnotes My indebtedness to the works of Messrs E B Tylor A Lang and Frazer is here gratefully acknowledged About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works     An Introduction to the History of Religion Frank Byron Jevons,1910     **Introduction to the History of Religions** Crawford Toy,2018-01-19 The object of this volume is to describe the principal customs and ideas that underlie all public religion the details are selected from a large mass of material which is increasing in bulk year by year References to the higher religions are introduced for the purpose of illustrating lines of progress
