Chu, 2019-10-23 China's sports history and its contemporary role in the global sporting community have become well known but the sporting history and development of China's two Special Administrative Regions Hong Kong and Macau have not received the coverage they deserve either in their historical contexts or since the handovers of control to the People's Republic. By drawing on a multi-national group of scholars and practitioners this volume makes a unique contribution to the understanding of sports development in greater China. The essays in this anthology examine the evolution of key sports the hosting of sporting mega events the nexus of sports and politics identity issues and the role of sporting diplomacy. The chapters provide not only an analysis of colonial legacies but also in-depth accounts of the challenges to and outcomes of sports development in Hong Kong after 1997 and Macau after 1999. The chapters in this book were originally published in various special issues of *The International Journal of the History of Sport*. **The Dna of Rugby Football** Gerhard Roodt, 2015-08-07 This book is about how football was played in ancient times and worlds from Australia and South America to China and Europe. It tells the story of how towns and parishes competed against each other. During the Industrial Revolution football moved from the streets to the schools. The book describes how rugby football started at Rugby School and how the schoolboys wrote the first laws in their schoolbooks. From there it grew into the modern international game we play and watch today. It also tells the story of other football games and how it happened that Rugby football and Association football soccer became two different sports. Marines, 1998
