Life's End David Wendell Moller, 2019-05-23 The explicit purpose of this book is to analyze dying and death in the cosmopolitan modern setting There is however an additional theme that is implicit in the analysis and observations The portrait of dying which is provided in the pages of the book also tells us a great deal about life It demonstrates that the foundation for the medicalization of death that piercingly shapes the life experience of dying persons and loved ones is a product of the ways of life in the broader culture **Death, Grief, and Mourning** John S. LiPuma,Joseph P. DeMarco,2019-03-27 This vitally important book attempts to move beyond the current death denying culture The use of euphemistic and defiant phrases when dealing with terminal disease such as She lost her battle with cancer was more appropriate when medical doctors could do little to prolong life But treatments and

technologies have significantly changed Now life prolonging interventions have outpaced our willingness to use medical intervention to secure patient control over death and dying We now face a new question When is it morally appropriate for medical intervention to hasten the dying process LiPuma and DeMarco answer by endorsing expanded options for dying patients Unwanted aggressive treatment regimens and protocols which reject hastening death should be replaced by a patient's moral right in carefully defined circumstances to hasten death by means of medical intervention Expanded options range from patient directed continuous sedation without hydration to physician assisted suicide for those with progressive degenerative disorders such as Alzheimer's The authors overriding goal is to humanize the dying process by expanding patient centered autonomous control
