book leads people to understand how their forefathers felt it will have done its work Naturally the largest episode in this volume is the building of the Federal Constitution In this as in other disputed questions I have tried to give a fair representation to the various schools of thought if some people were wrong headed and illogical and unpatriotic it is part of history to know what their arguments were and how they were refuted In approaching the terrible contest over slavery the same method is adopted the assailant the champion and the observer speaks each for his own side From the date at which this volume begins the West assumed a life and character of its own and this book brings out that abounding frontier life that constructive political instinct that force and energy which are so notable in the development of the West and so important in our national history Our forefathers did interesting things and left entertaining records The story of our nation s development is clearer for the suggestions made by these writers They are prejudiced they see but a part of what is going on they leave many gaps but after all they tell the story The collection was selected and edited in 1900 by Albert Bushnell Hart Professor of History at Harvard University and a well respected and published scholar *The American Lawn* Georges Teyssot,1999 The site of political demonstrations sporting events and barbecues and the object of loving if not obsessive care and attention the lawn is also symbolically tied to our notions of community and civic responsibility serving in the process as one of the foundations of democracy **Hit on the House** Jon A.
