The House on Carroll Street Mollie Gregory, 1987 **The Screen Is Red** Bernard F. Dick, 2016-03-14 The Screen Is Red portrays Hollywood s ambivalence toward the former Soviet Union before during and after the Cold War In the 1930s communism combated its alter ego fascism yet both threatened to undermine the capitalist system the movie industry s foundational core value Hollywood portrayed fascism as the greater threat and communism as an aberration embraced by young idealists unaware of its dark side In Ninotchka all a female commissar needs is a trip to Paris to convert her to capitalism and the luxuries it can offer The scenario changed when Nazi Germany invaded the Soviet Union in 1941 making Russia a short lived ally The Soviets were quickly glorified in such films as Song of Russia The North Star Mission to Moscow Days of Glory and Counter Attack But once the Iron Curtain fell on Eastern Europe the scenario changed again America was now swarming with Soviet agents attempting to steal some crucial piece of microfilm On screen the atomic detonations in the Southwest produced mutations in ants locusts and spiders and revived long dead monsters from their watery tombs The movies did not blame the atom bomb specifically but showed what horrors might result in addition to the iconic mushroom cloud Through the lens of Hollywood a nuclear war might leave a handful of survivors Five none On the Beach Dr Strangelove or cities in ruins Fail Safe Today the threat is no longer the Soviet Union but international terrorism Author Bernard F Dick argues however that the Soviet Union has not lost its appeal as evident from the popular and critically acclaimed television series The Americans More than eighty years later the screen is still red Popular Texts in English Antonio Ballesteros González, 2001 This book comprises a collection of articles devoted to the academic study of popular texts in English Authors analyse genres which had been habitually looked down on by canonical approaches to literature and art They take into serious consideration forms like horror literature the gothic fantasy detective fiction science fiction best sellers films and television series of different kinds among some other representations of what conservative scholars had been considering as marginal The referential richness of the perspectives reflected here demonstrates that popular texts can be enjoyable for readers and audiences at the same time that they can be significant in order to reach a better understanding of our culture and ourselves at the beginning of a new millennium New York Magazine , 1988-03-21 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and
