New Release Of The Original 1918 Edition *The New Revelation* Arthur Conan Doyle, 1918 Many more philosophic minds than mine have thought over the religious side of this subject and many more scientific brains have turned their attention to its phenomenal aspect So far as I know however there has been no former attempt to show the exact relation of the one to the other I feel that if I should succeed in making this a little more clear I shall have helped in what I regard as far the most important question with which the human race is concerned A celebrated Psychic Mrs Piper uttered in the year 1899 words which were recorded by Dr Hodgson at the time She was speaking in trance upon the future of spiritual religion and she said In the next century this will be astonishingly perceptible to the minds of men I will also make a statement which you will surely see verified Before the clear revelation of spirit communication there will be a terrible war in different parts of the world The entire world must be purified and cleansed before mortal can see through his spiritual vision his friends on this side and it will take just this line of action to bring about a state of perfection Friend kindly think of this We have had the terrible war in different parts of the world The second half remains to be fulfilled **The History of Spiritualism Vol I** Arthur Conan Doyle, 2017-02-25 Sir Arthur Ignatius Conan Doyle KStJ DL 22 May 1859 7 July 1930 was a British writer and physician most noted for creating the fictional detective Sherlock Holmes and writing stories about him which are generally considered milestones in the field of crime fiction He is also known for writing the fictional adventures of a second character he invented Professor Challenger and for popularising the mystery of the Mary Celeste He was a prolific writer whose other works include fantasy and science fiction stories plays romances poetry non fiction and historical novels *The History of Spiritualism, Vol. I and Vol. II* Arthur Conan Doyle, Sir, 2014-09-25 Sir Arthur Ignatius Conan Doyle 1859 1930 was a Scottish physician and writer who is most noted for his fictional stories about the detective Sherlock Holmes which are generally considered milestones in the field of crime fiction He is also known for writing the fictional adventures of a second character he invented Professor Challenger and for popularising the mystery of the Mary Celeste He was a prolific writer whose other works include fantasy and science fiction stories plays romances poetry non fiction and historical novels **The Vital Message** Arthur Conan Doyle, 2025-06-17 *The Vital Message* by Arthur Conan Doyle traverses the ethereal realms of thought and belief delving into profound questions about existence spirituality and the nature of consciousness In this intriguing work Doyle already renowned for his literary creations embarks on an exploration of spiritualism and the mysteries that lie beyond the physical world Written during a time when the New Thought movement gained popularity this book reflects the growing fascination with life after death and the quest for understanding our place in the universe From the outset Doyle presents an impassioned argument for the existence of a greater reality that extends beyond earthly bounds He shares from his personal experiences and mystical encounters making the case that humanity is more than mere corporeal beings but rather participants in a grand cosmic design As readers accompany Doyle on his intellectual journey they find themselves pondering the very essence of existence and the interconnectedness of all beings The narratives he weaves are filled with philosophical

discussion inviting readers to reflect on their own beliefs regarding life death and the vast unknown that lies in between In a series of compelling chapters Doyle touches upon psychic phenomena and metaphysical concepts blending anecdotal evidence with rigorous inquiry Through personal anecdotes and testimonials from those who have also communicated with the spirit world he constructs a base for the argument that consciousness transcends the physical form In doing so he challenges the reader to acknowledge the possibility that mortality is not the end but rather a transition into another sphere of existence This theme resonates throughout the text as Doyle emphasizes the power of spiritual awakening and the profound implications of a life unbound by traditional understandings Notably Doyle navigates a landscape rife with existential questions skillfully addressing the fears and uncertainties many harbor about life beyond the grave With compassion and insight he explores the significance of self discovery in unlocking the potential that lies within each individual He encourages readers to seek knowledge to embrace their human experience and to recognize the beauty in connection be it with themselves others or something greater than themselves Doyle s reflections on consciousness and the journey of the soul ascend to an inspiring plane that emphasizes hope and enlightenment He posits that the sharing of knowledge and experiences can catalyze profound growth and understanding nurturing a deeper appreciation for both the seen and unseen aspects of life Through the lens of theosophy and the teachings of spiritualism he concludes that exploring the interplay between the mind and body can reveal therapeutic wisdom and insights that can be applied to our daily lives The Vital Message not only contributes significantly to the broader discourse surrounding spirituality but also serves as a beacon of hope for those seeking answers and reassurance amid the chaos of modern existence Arthur Conan Doyle invites readers to engage with his thoughts with an open heart and soul ushering them into a realm where humanity and spirituality intertwine creating a tapestry that celebrates life death and everything that lies beyond
