Sir Walter Scott and History James Anderson, 1981 **Contributions to Natural History and Papers on Other Subjects** James Simson, 1875 **The Study of History**, 2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians views provides a substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided **THE WILTSHIRE Archaeological and Natural history MAGAZINE VOL. Marsden, 2016-05-13 Today Scotland s history is frequently associated with the clarion call of political nationalism However in the nineteenth century the influence of history on Scottish national identity was far more ambiguous How then did ideas about the past shape Scottish identity in a period when union with England was all but unquestioned The activities of the antiquary Cosmo Innes 1798 1874 help us to address this question Innes was a prolific editor of medieval and early modern documents relating to Scotland s parliament legal system burghs universities aristocratic families and pre Reformation church Yet unlike scholars today he saw that editorial role in interventionist terms His source editions were artificial constructs that powerfully articulated his worldview and agendas emphasising Enlightenment inspired narratives of social progress and institutional development At the same time they used manuscript facsimiles and images of medieval architecture to foreground a romantic concern for the texture of past lives Innes operated within an elite associational culture which gave him access to the leading intellectuals and politicians of the day His representations of Scottish history therefore had significant influence and were put to work as commentaries on some of the major debates which exorcised Scotland s intelligentsia across the middle decades of the century This analysis of Innes s work with sources set within the intellectual context of the time and against the antiquarian activities of his contemporaries provides a window onto the ways in which the national past was perceived in Scotland during the nineteenth century This allows us to explore how historical thinkers negotiated the apparent dichotomies between Enlightenment and Romanticism whilst at the same time enabling a re examination of prevailing assumptions about Scotland s supposed failure to maintain a viable national consciousness in the later 1800s **Sentimental Masculinity and the Rise of History, 1790-1890** Mike Goode, 2009-05-14 Challenges the

Annette Wheeler Cafarelli, 2015-09-30 In *Prose in the Age of Poets* Annette Wheeler Cafarelli demonstrates that nonfictional
narrative of the time was a central expression of British Romanticism The rise of interest in the individual traditionally
associated with Romantic autobiography was actually part of a wider cultural interest in biography especially literary
biography Following Johnson's lead in the *Lives of the Poets* virtually every major writer of the period experimented with
sequences of short anecdotal lives that became a characteristic Romantic vehicle for discussing theories of creativity canon
and the place of the poet in society The Romantics took in new directions the examination of the relation of artists' lives and
works biographers and their subjects and texts and their readers Romantic biography Cafarelli contends offers a perspective
from which to reconsider conventional boundaries of genre periodization and the movement from Neoclassicism to
Romanticism In examining the Romantics as prose writers and biographers Cafarelli explores the affiliations between
Romantic theories of reading and writing and twentieth century critical methodologies She situates the biographical writings
of the major poets including Wordsworth Coleridge and Byron in the context of detailed analyses of biographies by Johnson
