Karchmer,1973      Sisyphus Siegfried Bernfeld,1973      Albert Camus and Education Aidan Hobson,2017-03-22 This book continues the story about education and the absurd Its specific focus is on the work of Albert Camus It tries to summarise the ways in which his writing has already inspired and influenced educational thinking and practice and it offers a new set of educational interpretations of six of his major works These set out the exciting challenge about how we might think about the purposes and practices of education in the future how to talk about these plan and deliver Using the work of Albert Camus in this way is an attempt to bring him and his ideas closer to educational discussions This is a deliberate attempt to show the synergy between some of his major concepts and those that are already cornerstones of educational discourses Read from an educational perspective the work of Albert Camus also provides guidance and invigorates the imagination as to how education can respond to those increasingly complex existential crises it finds itself connected to For educational people interested in these questions this book will hopefully motivate a re reading of Camus and a brave new lens on practice      **International Handbook of Jewish Education** Helena Miller,Lisa D. *Erich Fromm and Critical Criminology* Kevin Anderson, Richard Quinney, 2000 Linking the writings of the great humanist psychologist Erich Fromm to criminology this collection shows how viewing crime patterns and the criminal justice system from Fromm's humanist perspective opens a path to more effective and more humane ways of understanding and dealing with crime and criminals Contributors to *Erich Fromm and Critical Criminology* draw on Fromm's writings on alienation sadomasochism and patriarchal matriarchal values to assess the kinds of crimes being committed and the kinds of people committing them They explore the spiritual and intellectual sources of Fromm's thought including Jewish theology Freudian psychoanalysis Marxism and Buddhism and demonstrate how his socialist humanism points toward a society free of crime and violence This volume also includes

translations of two of Fromm's early articles on criminal justice never before available in English in which he develops a psychoanalytic Marxist critique of the role of criminal justice in a class society. At a time when American society seems bent to an unprecedented degree on imprisonment, executions and other violent responses to the problem of crime, Fromm's humanist critique offers a unique vantage point from which to renew and develop a critical criminology. After-Education Deborah P. Britzman, 2012-02-01 In *After Education* Deborah P. Britzman raises the startling question: What is education that it should give us such trouble? She explores a series of historic and contemporary psychoanalytic arguments over the nature of reality and fantasy for thinking through the force and history of education. Drawing from the theories of Anna Freud and Melanie Klein, she analyzes experiences of difficult knowledge, pedagogy, group psychology, theory and questions of loneliness in learning education. Throughout the book, education appears and is transformed in its various guises: as a nervous condition, as social relation, as authority, as psychological knowledge, as quality of psychical reality, as fact of natality, as the thing between teachers and students, as an institution and as a play between reality and fantasy. **Remembrance - Responsibility - Reconciliation** Lothar Wigger, Marie Dirnberger, 2022-04-15 Germany and Japan have taken different ways of dealing with the past of the traumatic events of World War II and their own role. Even after 75 years, the battles for remembrance are not over in both countries. Questions about responsibility about the educational consequences of history and about possibilities for reconciliation with former enemies are constantly being asked anew and require new answers. The contributions in the book address these questions from a Japanese and German perspective on the basis of empirical and historical research, combining historical educational and philosophical approaches and opening up new perspectives for academic research as well as for practical educational work by comparing the cultures of remembrance. **The Routledge International Handbook of Higher Education** Malcolm Tight, Ka Ho Mok, Jeroen Huisman, Christopher Morphet, 2009-06-03 This volume is a detailed and up-to-date reference work providing an authoritative overview of the main issues in higher education around the world today.
