Greenberg,Sarah A. Marusin,1976 [Tracking Prehistoric Migrations](#) Jeffery J. Clark,2001-02-01 This monograph takes a fresh look at migration in light of the recent resurgence of interest in this topic within archaeology The author develops a reliable approach for detecting and assessing the impact of migration based on

conceptions of style in anthropology From numerous ethnoarchaeological and ethnohistoric case studies material culture attributes are isolated that tend to be associated only with the groups that produce them Clark uses this approach to evaluate Puebloan migration into the Tonto Basin of east central Arizona during the early Classic period A D 1200 1325 focusing on a community that had been developing with substantial Hohokam influence prior to this interval He identifies Puebloan enclaves in the indigenous settlements based on culturally specific differences in the organization of domestic space and in technological styles reflected in wall construction and utilitarian ceramic manufacture Puebloan migration was initially limited in scale resulting in the co residence of migrants and local groups within a single community Once this co residence settlement pattern is reconstructed relations between the two groups are examined and the short term and long term impacts of migration are assessed The early Classic period is associated with the appearance of the Salado horizon in the Tonto Basin The results of this research suggest that migration and co residence was common throughout the basins and valleys in the region defined by the Salado horizon although each local sequence relates a unique story The methodological and theoretical implications of Clark s work extend well beyond the Salado and the Southwest and apply to any situation in which the scale and impact of prehistoric migration are contested *Clinical Technologies: Concepts, Methodologies, Tools and Applications* Management Association, Information Resources,2011-05-31 This multi volume book delves into the many applications of information technology ranging from digitizing patient records to high performance computing to medical imaging and diagnostic technologies and much more **The Olmec World** Ignacio Bernal,1969 Examines Olmec art society and religious beliefs Traces the efflorescence and decline of the Olmecs but insists on the basic unity of all Mesoamerican civilization *Bulletin of the American Institute of Architects* ,1902
