Goodman, 2018-10-09 At age 90 Jack Smiley wasn't thrilled with the community in which he retired so he built his own Today it provides him with a net income of 40 000 each month Famously KFC's 65 year old Kentucky Colonel Harlan Sanders supplemented a paltry Social Security check by franchising his unique recipe for fried poultry Past 50 McDonald's Ray Kroc made a similar trek in multiplying by many thousands a few popular golden arched hamburger stands from San Bernardino California Contrary to popular mythology entrepreneurship is not spearheaded mostly by baby faced technology savvy postadolescents whose brands include Facebook and Apple According to a recent study fully 80 percent of all businesses are started up by people over 35 Amy Groth of Business Insider cites these reasons that fortune favors the old First older entrepreneurs have more life and work experience In some cases they have decades of industry expertise and a better understanding of what it truly takes to compete and succeed in the business world Second they also have much broader and vaster networks Even if older entrepreneurs are seeking to start businesses in entirely different industries they have deep connections from all walks of life for example a brother in law could be the perfect COO Third those over 50 have acquired more wealth and better credit histories which helps with securing loans and are smarter with their finances In this book from best selling author Gary Goodman you'll discover Supporters are everywhere Your age cohort is the wealthiest Now is the time to cash in your wisdom Overcoming false beliefs and self sabotage why the only person holding you back is you The Giraffe Syndrome why the first step is the scariest Busting age myths Nobody will work with me at my age My best years are behind me It takes money to make money and more Teaching Performance Studies Nathan Stucky, Cynthia Wimmer, 2002 Edited by Nathan Stucky and Cynthia Wimmer Teaching Performance Studies is the first organized treatment of performance studies theory practice and pedagogy This collection of eighteen essays by leading scholars and educators reflects the emergent and contested nature of performance studies a field that looks at the broad range of human performance from everyday conversation to formal theatre and cultural ritual The cross disciplinary freedom enacted by the writers suggests a new vision of performance studies a deliberate commerce between field and classroom *Successful Meetings*, 1997 **201 Great Ideas For Your Small Business** Jane Applegate, 2002 *PM Network*, 1997 **American Book Publishing Record Cumulative 1998** R R Bowker Publishing, 1999-03 *Who Gets Promoted, Who Doesn't, and Why, Second Edition* Donald Asher, 2014-05-06 A revised and updated edition of the career advancement guide that advocates working smarter not harder from one of America's premier career consultants Do your job do it well and you'll be

rewarded right Actually probably not According to career guru Donald Asher advancement at work is less about skillsets and more about strategy The revised and expanded edition of WHO GETS PROMOTED WHO DOESN T AND WHY details exactly what puts one employee on the fast track to an exceptional career while another stays on the treadmill to mediocrity Whether you re new to the workforce repairing a recession damaged career or feeling stagnant and overlooked at work this book is your ticket to advancement Learn why timing is more important than talent how corporations actually make promotion decisions how to avoid career mistakes you don t even know you re making what women in the workforce particularly need to know and the twelve proven strategies for promotion regardless of your industry and experience If you want to know how to control your career destiny the solution is to work smarter not harder WHO GETS PROMOTED WHO DOESN T AND WHY will help you do just that *The Publishers Weekly* ,1997 *Getting Started in Consulting* Alan Weiss,2003-12-19 A new revision of the successful guidebook for novice consultants *Getting Started in Consulting* Second Edition provides practical solutions and proven strategies for launching a consulting business Readers will learn how low overhead and a high degree of organization can translate into a six figure income working from a home office The book also offers key information on how to finance a consulting practice how to write proposals how to set up billing and bookkeeping and more A new chapter also explains how to get started quickly for those who can t wait to generate cash flow or those who have a cash reserve they are immediately willing to commit Alan Weiss East Greenwich RI has consulted with hundreds of organizations around the world including Mercedes Benz Hewlett Packard Merck and the Times Mirror Group He lectures widely and is the author of 12 books **Automotive Manufacturing & Production** ,1997 *Forthcoming Books* Rose Arny,1997-04 *Computerworld* ,1997-10-06 For more than 40 years *Computerworld* has been the leading source of technology news and information for IT influencers worldwide *Computerworld* s award winning Web site *Computerworld.com* twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **For the Family?** Sarah Damaske,2011-08-01 In the contentious debate about women and work conventional wisdom holds that middle class women can decide if they work while working class women need to work Yet even after the recent economic crisis middle class women are more likely to work than working class women Sarah Damaske deflates the myth that financial needs dictate if women work revealing that financial resources make it easier for women to remain at work and not easier to leave it Departing from mainstream research Damaske finds three main employment patterns steady pulled back and interrupted She discovers that middle class women are more likely to remain steadily at work and working class women more likely to experience multiple bouts of unemployment She argues that the public debate is wrongly centered on need because women respond to pressure to be selfless mothers and emphasize family need as the reason for their work choices Whether the decision is to stay home or go to work women from all classes say work decisions are made for their families In *For the Family* Sarah Damaske at last provides a far more nuanced and richer picture of women work and class than the one
