English and Indian Literature R.W. Desai, Christel R. Devadawson, Rajiva Verma, 2025-05-01 Written in the memory of Professor G K Das and divided into three sections this book takes on special significance as India reflects on the ever changing prospects ahead of the first seventy five years of independence The subject matter in this book outlines the relationship between texts and the larger cultural context that they shape and that in turn shapes them It also presents a comparison of the relationship between events and the written word or between lines of inquiry and the various kinds of writing that articulate them The first section discusses British and Indian writers of the precolonial and colonial periods The essays in the second section reflect on the question Does the

emergent nation state seem at all like the visions that presaged it or does it increasingly resemble the imperialistic nightmare that it seeks to replace Finally the last section explores the relationship between literature and human nature and also discusses the framing discourse on literature and the environment The collection closes with a previously unpublished essay by Professor Das that brings to the forefront one of the most urgent global issues of today the troubling relationship between humanity and an ecologically fragile environment within which it functions Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan or Bhutan *T. T S Eliot was raised in the Unitarian faith of his family in St Louis but drifted away from their beliefs while studying philosophy mysticism and anthropology at Harvard During a year in Paris he became involved with a group of Catholic writers and subsequently went through a gradual conversion to Catholic Christianity Many studies of Eliot s writings have mentioned his religious beliefs but most have failed to give the topic due weight and many have misunderstood or misrepresented his faith More recently scholars have begun exploring this dimension of Eliot s thought more carefully and fully In this book readers will find Eliot s Anglo Catholicism accurately defined and thoughtfully considered Essays illuminate the all important influence of the French Catholic writers he came to know in Paris Prominent among them were those who wrote for or were otherwise associated with the *Nouvelle Revue Fran aise* including Andr Gide Paul Claudel and Charles Louis Philippe Also active in Paris at that time was the notorious Charles Maurras whose influence on Eliot has been exaggerated by those who wished to discredit Eliot s traditionalist views A more measured assessment of Maurras s influence has been needed and is found in several essays here A wiser French Catholic writer Jacques Maritain has been largely ignored by Eliot scholars but his influence is now given due consideration The keynote of Eliot s cultural and political writings is his belief that religion and culture are integrally related Several contributors examine his ideas on this subject placing them in the context of Maritain s ideas as well as those of the Catholic historian Christopher Dawson Contributors take account of Eliot s intellectual relationship with such figures as John Henry Newman Charles Williams and the expert on church architecture W R Lethaby Eliot s engagement with other contemporaries who held a variety of Christian beliefs including George Santayana Paul Elmer More C S Lewis and David Jones is also explored This collection presents the subject of Eliot s religious beliefs in rich detail from a number of different perspectives giving readers the opportunity to see the topic in its complexity and fullness
