Studien Zum Europaischen Kunsthandwerk Festschrift Yvonne Hackenbroch:

Studien zum europäischen Kunsthandwerk Yvonne Hackenbroch, 1983 *Artistic and Cultural Exchanges between Europe and Asia, 1400-1900* Michael North, 2016-12-05 The European expansion to Asia was driven by the desire for spices and Asian luxury products Its results however exceeded the mere exchange of commodities and precious metals The meeting of Asia and Europe signaled not only the beginnings of a global market but also a change in taste and lifestyle that influences our lives even today Manifold kinds of cultural transfers evolved within a market framework that was not just confined to intercontinental and intra Asiatic trade In Europe and Asia markets for specific cultural products emerged and the transfers of objects affected domestic arts and craft production Traditionally relations between Europe and Asia have been studied in a hegemonic perspective with Europe as the dominant political and economic centre Even with respect to cultural exchange the model of diffusion regarded Europe as the centre and Asia the recipient whereby Asian objects in Europe became exotica in the *Kunst und Wunderkammern* Conceptions of Europe and Asia as two monolithic regions emerged in this context However with the current process of globalization these constructions and the underlying models of cultural exchange have come under scrutiny For this reason the book focuses on cultural exchange between different European and Asian civilizations whereby the reciprocal complexities of cultural transfers are at the centre of observation By investigating art markets workshops and collections in Europe and Asia the contributors exemplify the varieties of cultural exchange The book examines the changing roles of Asian objects in European material culture and collections and puts a special emphasis on the reception of European visual arts in colonial settlements in Asia as well as in different Asian societies *European Sculpture and Metalwork* Metropolitan Museum of Art (New York, N.Y.), Frits Scholten, 2011 *European Post-medieval Tapestries and Related Hangings in the Metropolitan Museum of Art* Edith Appleton Standen, Metropolitan Museum of Art (New York, N.Y.), 1985 Tapestry making flourished in the major centers of western Europe from the fourteenth through the nineteenth centuries Thousands of tapestries were woven as special commissions for church crown and nobility This publication is a comprehensive catalogue of the Museum's collection of tapestries and allied works made after the Middle Ages Metropolitan Museum of Art website ***Sculpture Collections in Europe and the United States 1500-1930***, 2021-04-26 Exploring the variety of forms taken by collections of sculpture this volume presents new research by twelve internationally recognized scholars The essays delve into the motivations of different collectors the modes of display and the aesthetics of viewing sculpture bringing to light much new archival material The book underscores the ambiguous nature of sculpture collections variously understood as decorative components of interiors or gardens as objects of desire in cabinets of curiosity or as autonomous works of art in private and public collections Emphasizing the collections and the ways in which these were viewed and described this book addresses a significant but neglected aspect of art collecting and contributes to the literature on this branch of art and cultural history This book evolved from a symposium *Sculpture Collecting and Display 1600 2000*

organized by the Center for the History of Collecting that was held at The Frick Collection on May 19 and 20 2017 Both the book and the symposium were made possible through the generous support of the Robert H Smith Family Foundation The book is published in association with The Frick Collection **Biographisches Handbuch deutschsprachiger Kunsthistoriker im Exil** Ulrike Wendland,2011-08-02 Keine ausführliche Beschreibung für Biographisches Handbuch deutschsprachiger Kunsthistoriker im Exil verfügbar Creativity and Reproduction Susanne Anderson-Riedel,2010-02-19 The study investigates the engravers rise within the French academic system and demonstrates their success in transforming a reproductive medium into a creative and original art genre In the nineteenth century graphic artists developed an artistic language that was independent and on par with the original model that they reproduced The Académie royale de peinture et de sculpture welcomed graphic artists into its ranks in 1655 As talented reproductive artists were able to disseminate works of art produced at the Academy engravers rose to occupy administrative positions at the Académie in the eighteenth century Their success notwithstanding graphic artists remained unable to overcome the perception of being reproductive artisans rather than creative and original fine artists The proof of their predicament was the continuous refusal of advanced artistic training for graphic artists within the French academic system The Section de Gravure at the Institut de France established in 1803 was the first academic institution that distinguished between imitative and creative artistic execution in the reproductive graphic arts Through patronage the supervision of competitions and the administration of the Prix de Rome program for graphic artists the Engraving Department established specific guidelines for artistic reproduction and encouraged the formulation of an independent artistic language in the reproductive arts Finally it defined the characteristics of fine engraving as a creative art medium The Prix de Rome for engraving was crucial in consolidating the new understanding of engraving as an original art form The engravers participation in the Grand Prix competition transformed their artisanal training practice in the master's workshop into an artistic and academic education of graphic artists in the engraving ateliers Furthermore their sojourn at the French Academy in Rome encouraged the collegial collaboration between painters sculptors and engravers leading engravers to develop a free and graphic interpretation of their model The reproductive engraver was now able to rival painters and sculptors and consequently he emerged as a creative and original artist *The Pollaiuolo Brothers* Alison Wright,Antonio Pollaiuolo,2005-01-01 Painters draftsmen goldsmiths sculptors and designers the Pollaiuolo brothers of fifteenth century Florence produced some of the most beautiful works of the Italian Renaissance European Furniture in The Metropolitan Museum of Art Daniëlle O.
