### Introduction

Many things about everyday life in today's America would be strange and bewildering to a person transported from the early modern period (approximately 1500-1800) of European history, but paperwork would not be one of them. In fact what we call "paperwork" was familiar to Europeans even before paper (usually from linen rags) became widely available in the fourteenth century, before Johannes Gutenberg invented the movable type printing press in the middle of the fifteenth century, and before literacy became widespread in the late nineteenth century.

**Picturing Marie Leszczinska (1703-1768)** JenniferG Germann,2017-07-05 Portraits of Queen Marie Leszczinska 1703 1768 were highly visible in eighteenth century France Appearing in royal ch aux and after 1737 in the Parisian Salons the queen s image was central to the visual construction of the monarchy Her earliest portraits negotiated aspects of her ethnic difference French gender norms and royal rank to craft an image of an appropriate consort to the king Later portraits by Maurice Quentin de La Tour Carle Van Loo and Jean Marc Nattier contributed to changing

notions of queenship over the course of her 43 year tenure Whether as royal wife devout consort or devoted mother Marie Leszczinska's image mattered While she has often been seen as a weak consort this study argues that queenly images were powerful and even necessary for Louis XV's projection of authority This is the first study dedicated to analyzing the queen's portraits It engages feminist theory while setting the queen's image in the context of portraiture in France courtly factional conflict and the history of the French monarchy While this investigation is historically specific it raises the larger problem of the power of women's images versus the empowerment of women a challenge that continues to plague the representation of political women today

*A Printed Icon in Early Modern Italy* Lisa Pon, 2015-03-23 In 1428 a devastating fire destroyed a schoolhouse in the northern Italian city of Forl leaving only a woodcut of the Madonna and Child that had been tacked to the classroom wall The people of Forl carried that print now known as the Madonna of the Fire into their cathedral where two centuries later a new chapel was built to enshrine it In this book Lisa Pon considers a cascade of moments in the Madonna of the Fire's cultural biography when ink was impressed onto paper at a now unknown date when that sheet was recognized by Forl's people as miraculous when it was enshrined in various tabernacles and chapels in the cathedral when it or one of its copies was and still is carried in procession In doing so Pon offers an experiment in art historical inquiry that spans more than three centuries of making remaking and renewal

**Picturing Punishment** Anuradha Gobin, 2021-07-30 Picturing Punishment examines representations of criminal bodies as they moved in through and out of publicly accessible spaces in the city during punishment rituals in the seventeenth century Dutch Republic Once put to death the criminal cadaver did not come to rest Its movement through public spaces indicated the potent afterlife of the deviant body especially its ability to transform civic life Focusing on material culture associated with key sites of punishment Anuradha Gobin argues that the circulation of visual media related to criminal punishments was a particularly effective means of generating discourse and formulating public opinion especially regarding the efficacy of civic authority Certain types of objects related to criminal punishments served a key role in asserting republican ideals and demonstrating the ability of officials to maintain order and control Conversely the circulation of other types of images such as inexpensive paintings and prints had the potential to subvert official messages As Gobin shows visual culture thus facilitated a space in which potentially dissenting positions could be formulated while also bringing together seemingly disparate groups of people in a quest for new knowledge Combining a diverse array of sources including architecture paintings prints anatomical illustrations and preserved body parts Picturing Punishment demonstrates how the criminal corpse was reactivated reanimated and in many ways reintegrated into society
